ST. GERMAIN: Greetings Dear Ones, We Give Praise and Thanks to Beloved Surya and the 5 Secret Elohim. We Give Praise and Gratitude to the Directors of the Elementals and the Elementals and Devas Themselves for All they do for Humanity and indeed all Life here upon the Planet. For without Them this Earth world does not exist at all! We Give Praise and Thanks for this Beautiful Invocation by a SOEPC Member, that opens this New Series of Discourses. This Opens Our Hearts with smiles of knowing that you are Lifting Your Pledges to an all-New High! We All Thank You!

I have decided to step forward again after a time of re-evaluation of the EGA's progress and which allowed a period of transformation to occur that gave you the opportunities to once again clear that which was not working for you, or Us, while making Claim to that which will elevate you into yet another Illumined State of Consciousness.

It is my observation that the EGA now stands before a huge precipice of indecision and this we must clear up before you shall be able to Cross this expansive chasm of a Cosmic Understanding and no longer trying to understand it from a human perspective. To do this I have decided to enter into a dialogue with you that will become an extension of the Original 'I AM' Freedom Alchemy Class Activities. This means that even though the 'I AM' Class will be a Requisite for any major advancement in the future, this extension of that Class, I hope will add to its '*Greater Fulfilment*' through a more Focused Application to God Life through a Greater Awareness of the Art of Precipitation and the Mastery of its use.

Yesterday Dear One's, was a turning point for the EGA! It is clearly acknowledged that you do understand the need to follow the Masters Instructions, especially that you have attained the Dispensations for the Petitions Granted you thus far. It has finally dawned on you, through Self-Realization that when the Masters say to you, *'DO NOT BE CONCERNED WITH WHAT ANY OTHER PERSON OR GROUP IS DOING'* you can follow such Instruction without defaulting upon your Word to your 'I AM' Presence! Use your discernment by all means, but you must QUALIFY EVERY decision before you go and connect yourself with any outside influence that is not aligning itself with this very specific Ashramic Group's Divine Plan! For to do so will only impede your own advancement along with the success of the Groups Invocations and Decrees.

Be clear Dear Brothers and Sisters, be VERY CLEAR; there are some amongst you who will work outside of the main Core Group following your own Divine Purposes and that we accept with Joy, for this, as you will soon be shown through Master Djwhal Khul, Jesus the Christ and the Great Divine Director, amongst Others, through the Foundations and Structures, that will be given to you about Divine Economy and the Development and Creation of your Active Ashramic Synthesized Group and Narayana Centres, which will become manifest in the months, years and decades to come. So DO NOT take all that I Am saying as absolute, or conclusive, I do not speak to you here without acknowledging and upholding each of your own 'freewill' to follow any direction you care to take, no matter how you may perceive it from your own *'ego-personality'* or your perceived Presence, or the *'I AM' Presence True Guidance'*.

I therefore, with the help of many both around Me and around you there upon the Ground, if I may so use this term, wish to offer each of you a greater momentum to make a difference to unqualified human consciousness, Building that Bridge of Consciousness from Higher Truths of the Divine Christ Consciousness that will meet the Elementals, Devas, Angelic Host, The Animal and Nature Kingdoms upon the other side. Like most Bridges built over great expanses, they begin from both sides.

The work that the EGA has done to date has indeed Initiated that Active Participation from the Other Side and even on the most Elementary Levels as you have seen yesterday in Australia, with the rain beginning to ease the chaos and destruction through the wild fires, they too are now more than aware of your Higher Intentions and thus securing through the Momentums of the Secret Elohim, the Elementals are going to become greater Allies in this final transition to pinpoint that Bridge Reunion from each side of the chasm, with the Precision of Cosmic Alignment, Universal Alliances, Masterful Configurations and with Mathematical Precision. One 'Steel Lintel' at a time and All In Divine Order. I use this term to Intentionally Create a Vision for you of this Bridge that will be Untouchable, Indestructible, Immutable and Eternal, made of Enduring, Perpetual and Immortal Spirit in Matter, that are strong, yet flexible enough to sway in heavy traffic or high winds.

I will tell you, on behalf of the Elemental Grace Alliance Council, which as you know extended throughout all Seven Spheres of Influence, Your 'Elementary Elemental Peace

Treaty' has been Agreed and Honoured and it shall be held within a containment of sorts, that will also allow the Elementals to move within a much more aware State of Consciousness, in Accordance with God's Divine Will and Order, through those Who Guide and Control Them. This does not mean that further weather patterns and planetary movements will not continue to be used to bring about equilibrium, stability and poise, but what it means is that you are being given another Qualification to find your way through the correct Applications of Cosmic Law, Rightful Thinking, Rightful Actions and become even more aware of the Causal Ramifications of what you have implied and truly grasped the magnitude of your focused intentions.

I will come back to the word 'Respite', for I want you to understand and come to terms with this event as you have presently accepted it within the EGA Hiatus Period. But first I would like to speak of the magnitude of what you are intending to Create as part of your Petition to put into Action.

You may remember when Peter began the Elemental Grace Alliance Divine Plan, I warned him that this was not going to be any small endeavour and the dangers of such Work at these Levels of changing the Charters of the Elemental Kingdoms and Devas, means not working with entities this time, archetypal or otherwise, you will be consuming this time with 'Energy Consciousness that is far Superior and far more powerful in their construct and magnitude that mankind is aware of'.

Here is that Warning.

"The Council you are proposing is once again going to draw into play a whole new set of dynamics and I wish to advise that caution here would be a very Wise Counsel. You are not interacting this time with entities as you did with the Melvadek Alliance. Instead you shall be communing with Energy Consciousness that is far Superior and far more powerful in its construct and magnitude that mankind is aware of. Not insurmountable by any means yet caution and purity of Heart Intent shall be its Governing and Loving Path.

"At these levels of communication and interaction, any imbalances in those who shall implement such changes have the potentials to create, let Me say, some quite devastating results. The Melvadek Alliance was successful principally because of your naivety and innocence of what you had begun. Yet you found and stabilized that Purity of Intent and most of all the Humility to see it through. Now you are with experience and to hold these levels of Grace may seem at times to be a little daunting. I wish to be appointed a Seat on the Council and I will represent the Cosmic Rays due to the Position I now hold with Honour as the Chohan of the Seventh Ray for this New Era of Spiritual Freedom.

"Those who will join you must be of the Highest Integrity else this Project 'The Elemental Grace Alliance Council' will not proceed. You know the conditions that allowed for both

of you to synergistically co-create the Melvadek Alliance. This will be nothing short of that Synergetic Balance of Energies between two or more Human Souls.” End Excerpt.

Dear Souls, you have recently been given a greater awareness of how Soul Consciousness Works through Master Djwhal Khul. And this is an extraordinary facet of the Greater Universal Soul Consciousness. However, to be working with a far more Supreme Power, such as that of the Elemental Builders of Form, this is a totally new classification of execution of Ideas and Visions, Applications to Life’s Greater Benevolence and on top of that, to be able to control such Extraordinary Forces, that in Themselves have no conscious abilities to reason before any decisions by them are put into action. As We have told you, The Elementals, Sylphs, Undines, Gnomes and Salamanders are Elementary, They see things as balanced or out of balance consciousness. They are not concerned with form! And not without Power at all, as you know when they come to bring balance to mankind’s out of balanced states of consciousness.

Again, this then warrants a greater understanding of the Laws of Precipitation as well as the Application to God’s Life in all its forms and to know how to Guide and Control them from your own Divine Consciousness within your 4 lower bodies. Here We will continue in Lesson to bring about practical awareness of what you will be expected to reach, both in Conscious Awareness and the ability to be able to follow through in Stability and Steadfastness of controlling the mind, emotions and human physical body against all form of imbalance. You are going to be tested Dear Ones and make no mistake, if you cannot prove that you alone, through your own Individualization and Controlled mindset, then you will travel no further down this path until you can!

This is all about returning back to that State of Consciousness you call ‘Childlike’! But being ‘Childlike’ is not what most of you may understand. We will speak of this particularly, later.

As I close for today, I want to leave you with this Vision and place it firmly within your conscious awareness, for reasons you shall be asked to Qualify for yourself.

Two thousand years ago, when Christ Jesus walked upon the waters of the Sea of Galilee, His demonstration was a manifestation of the Natural Law of Levitation operating within an Energy Framework of cohesion, adhesion and magnetism; the very Principles which made orbital flight possible. The Light Atoms composing the body of Christ absorbed at will, an additional quantity of Cosmic Rays and Spiritual Substance whose kinship to physical light made His whole-Body Light, thereby making it as easy for Him to walk upon the sea as upon dry land.

His Body was purely a Ray of Light shining upon the waters. The dazzling conception of all was His Ability to transfer this Authority over Energy to Apostle Peter through the Power of Peter’s own Vision of the Christ in Radiant, Illumined manifestation.

By taking his eyes temporarily from the Christ, however, Peter entered a human fear vibration and vortex, which immediately densified his body, causing him to sink partially beneath the raging seas. The comforting hand of Christ, extended in Pure Love, Reunited the Alchemical tie; and the Flow of Spiritual Energy through His hand raised Peter once again to safety.

The further example of the Master Jesus releasing this Loving Flow of Energy, as in the case of the woman who touch the hem of His Garment without His Knowledge beforehand, shows the Impersonal Love of God which responded equally to the call of Faith from any of those Elementals Jesus has fashioned so wonderfully and so Purely in the Supreme Hope of Absolute Cosmic Freedom for All.

These two examples refer to aspects of the Great Cosmic Law, which are not commonly known but which are commonly discussed or skirted about by religious groups. The Law of the Transfer of Energy is vital to the Science of Alchemy; for without it, it is impossible to 'Create' matter. It is a Law that nothing cannot 'create' something!

True Knowledge of this Impersonal Cosmic Law of the Transfer of Energy is also vital to the correct understanding of the Great Laws, for it proves that God, who makes the sun to shine on both the just and the unjust, does manifest through both!

Did you pick up on the reason why the second example was shared? Let's see?

I mention Faith here for a very good reason! It is the first Mind Power Energy that Jesus needed around Him in the Expression of Peter, the First Apostle. It was each of the Apostles who demonstrated for Jesus all 12 Mind Powers that if He did not have His Beloved Apostles around Him to reflect upon and see and re-calibrate and implement within Himself, He would not have reached His States of Ascension. This matter of Virtues was brought up in the Petition Introduction so we will address them in due course as time and Lessons provide.

The list of Apostles and their Virtuous Mind Powers are;

- Peter and Divine Faith.
- Andrew and Divine Strength.
- John and Divine Love.
- James Son of Zebedee and Divine Wisdom / Justice / Judgment.
- Matthew and Divine Will.
- Philip and Divine Power.
- Nathaniel Bartholomew and Divine Imagination.
- Thomas and Divine Understanding.

- James Son of Alphaeus and Divine Order.
- Simon The Cananaean and Divine Zeal.
- Judas Iscariot and Divine Regeneration / Life.
- Jude Thaddaeus and Divine Elimination.

Beginning with Faith very briefly, Divine Faith is so Great, so Powerful, so far reaching, that little to nothing is really understood from a logical standpoint within the minds of men and women. Faith is a Dimension of God that has no boundaries, that has no limitations and can transcend Universes simply with Grace, Clarity and Magnificence. If the fixation of the thought is clear and directly linked for the Highest Good of All Concerned the Energy of Faith is one that, if projected without reproach is instantaneous in its creation.

The word Faith in the metaphysical sense, is directly linked to the Higher aspect of the Self and is Its direct connection with God. Man and woman with Faith connects him or herself directly with God without separation, without fear. In the history of this Planet you will note that the world has been created without True Faith. The continuation of its growth and development, particularly through religions and cultures that have preserved the fear for their patrons of their societies, Faith has been given little consideration at these levels of awareness. Yet, the few, in comparison of the billions and billions of people who have inhabited these lands of Earth, that have had God's Faith, have moved mountains to Create the Higher Consciousness of Love to where it stands this day. The Power of Faith is so great, that when it is firm within the Mind, anchored within the Heart and Projected from the Soul, its success, without doubt, is achieved.

Is it any wonder that God in His Wisdom gave humanity Faith, gave humanity this principle for the Purpose of Creation, for without this dynamic Virtue the experiment of raising the vibrational frequency of this Planet through humanity, through man's and woman's 'freewill', could never have been achieved? It takes little Faith to change your mind and achieve those things that you desire within your lives that will bring you happiness, joy, prosperity, wealth, health and wellbeing of mind, body and Spirit. For behind the Power of Faith is a Love Energy that is All-Empowering within the All That Is.

There is a lot to digest here Dear Brothers and Sisters. Remain Peaceful in your endeavours, keep an open mind and begin to look into your lives that you deem for yourselves as incomplete matters in your life. In other words, anything in your life that remains incomplete, must be closed and dissolved now, or be given the Energetic Transference of Energies to bring to a completion. For if you keep these old projects, plans or activities going without constant forward movement they will only continue making themselves more of an obstacle than a productive or creative activity. If you do not understand what I mean here, discuss it among yourselves, for this is the very first step you must make before we can continue here within this New Class environment!

I will be going to Demand your Full Attention Dear Hearts when We begin this New Class as I did before. This time, I will be more definitive as to who shall remain in the Class and who shall be unable to continue. The following is from 'Part 1 Boot Camp Alchemy Class - Bounty of the I AM Activity Dispensation, St. Germain, 16th October 2018'; Excerpt.

"Before I close, I will tell you this, in My Classes where I have many students, they come with the best of intentions, they 'work hard' and dedicate so much of themselves. I accept only those in My Classes who place themselves before the Obedience of their 'I AM' Presence. Once that Obedience is broken, they are removed from the Classes, not only for their own good, but for the good of the other students. This makes sense does it not! While it is inevitable that life can and does dictate life necessities, that create diversions away from the 'I AM', at these levels of study, awareness and achievements and the I Am Presence Individualized Expressions in the 'Good to Do' and the 'Good to Be', any distractions that cannot be dealt with in Accordance with the 'I AM' Presence immediately, means only one thing, the loss of momentum and Life Force! So, if anyone is wondering about the removals or withdrawals of any old Members of the EGA, Know, they have My Backing and Support to take such actions. It may seem unfair at levels of human consciousness, the choices may not be accepted as Truth, but I would have no delay in any such action. One is in or one is out! It is Universal Law and nothing to do with personal choices.

"You may think these are harsh Conditions, but if you Knew the Consequences that could be far reaching, or the Work that awaits you, you would understand God is Perfection in All things, You can Trust and Rely on God's Support, We must be able to Trust and Rely on Yours, as you are becoming the Full Expression of Creation Itself and you have to Earn this Right." End Excerpt.

I therefore give you 'Advanced Notice' that the revision of the 10 Part Series for the IAMEGA Class will be called upon once the Grant for this Release of the Elementals is received. So please prepare a New Circle Of Light within the SOEPC, of who shall be going to give their undivided attention to the New IAMEGA Class! Finally, I tell you there are a number of Masters and Higher Beings who wish to speak with you regarding the Petition and what must be considered prior to putting it before the Karmic Board. Be thorough and go gently! This is VERY important, please be attentive of all that is given to you to work through!!

I Am Your Beloved Holy Brother, St. Germain.
