ST. GERMAIN: Greetings, Dear Brothers and Sisters. Today, which has the New Moon in Gemini, We finally begin 'anew' with the Official Alchemy Class that was always intended. Today each of you shall step through the Doorway of a New Understanding that hopefully will Re-Order your Consciousness from what you once believed as being True to a Higher Conscious Awareness of what shall Prove To Be and Advanced or Elevated Conscious Truth. Let Us Help you through My Directness of Approach to see things a little more outside of your '*present boxes*' of your outer realities. You all continue to live in them, make no mistake, no matter what you may think or how you may live, you all remain so very ingrained within your present lives, and this is fine and dandy if I may use this triteness of language, for that is your personally accepted and identified reality that continues at present. It is neither here nor there! It is just the faith you persist in, even persevere to give your energies to.

Your perceptions may be higher in consciousness, your applications may have risen in resonance, and your visions may be farther into the future than you have ever visualized before, but the reality is, your old lives remain, brandishing each of you in outdated politics, opinions and viewpoints: and by now within this Class you should be exerting far more Influence of Your 'I AM' Presence of how you '**Could Be Living Your Lives**'. Are you walking through your daily affairs as the 'I AM' Presence You Are: The 'I AM' Presence You Claim To Be? You Could Be if you were to make more appropriate and complementary Rightful Applications and Actions through a Higher Understanding of what, how and why you make choices and undertake your objectives and intentions.

Even though We have made steady progress to arrive at this Moment, that has allowed this Class to now Lift Itself up to a New Intensity, there remains a number of issues that may see further Dear Souls drop away from the Rightful Applications of Life from within this Class. I

am not going into any details, as you have EVERY facet of this already explained to you in past Discourses; however, I want to share this characteristic with you so you become far more cognizant of why you are here and what and how you do anything in your Lives from here on in.

There is no coincidence that the 12 Divine Virtues of the 'I AM' Presence Mind Powers have been introduced to you. Let Us take a quick look at the Divine Understanding Mind Power of Your Applications to Life and more in this Class of Alchemical Transformation. You need to be told this, for, over the past several weeks, this Truth is prevalent in the applications that the Elemental Grace Alliance and, in particular, the SOEPC and the old Ascension Alchemy Class have been partaking in. I do not wish to start off on the wrong foot, so I must inform you that I still have reservations about this Class as a Whole, but in My Own 'I AM' Greater Understanding, We shall Move Forward just the same, but this time by taking the *'bull by the horns'*. **Do you remember Jesus' 'Parable of the Sower'?** *'Part 6 - Introduction - 'I AM' FREEDOM Alchemy SOEPC Class - Parable of the Sower - Alchemy and The Application to God Life - St. Germain 28th January 2020'*.

Examine then how Understanding and Illumination Serve all the Other Virtues of the 'I AM' Presence. Without Divine Understanding, the facts of limited situations on Earth and the Methods of Operations on the Higher Planes of Existence, faith is blind and wavering, sinking beneath the waves of turmoil. With Understanding, Faith is as firm as a Rock and as unshakeable. Without Understanding the proper Illumination, the Strength is strictly human willpower and is forced. Without Understanding, Love, no matter how sincere and how well intentionally applied, is simply an impulse of force that has no depth or direction and may, when reduced to its simplest form, be wrongful action, serving only the ego-personality. It is nice to feel love and for others to know that you feel it, but what can love do without the True Virtue of Understanding?

Expressing Divine Will without Understanding the *'why'* and the *'what'* you are doing in that situation makes you a puppet without a mind of your own. The use of power and mastery without Understanding and considering all the factors over which you command is senseless and can be ruthless. And I do not mean Ruthless in the context of Compassion, for, in this case, Compassion comes only from the Heart when Rightfully Applied from the Divine Virtuous Knowing the Truth of Understanding. The Virtue of Imagination will set forth proper Visuals into the Ethers for Manifestation, but without Understanding the Environment in which you are Acting, or Applying your Love in Action, the consequences, the efforts involved, and the basic history, simply is fantasy; and is not based on Fact, Truth or Reality of that situation or exchange.

To Develop and to Direct a New Ashramic Group Living Organism within the Framework of Divine Economy to put into any form of operational system, to conduct any study faculty or even to Engage within this Alchemy Class as a Unified Group of Dedicated Souls without True Understanding of the needs of those with whom you interact and exchange, the future potential and capacity of each individual part of the Living Organism will remain in disarray.

To Express Zeal or Enthusiasm for a job, a task, a function, or any engagement at all, without Understanding the facts involved burns out the purpose before it can become a lasting and beneficial Flame, A Light, a Circle or a Divine Beacon in the darkness of your efforts. To Call Forth a Rejuvenation of Life Force Within, to reproduce more of the same of your thoughts, lives and creations without Understanding their Place and Service in the World of your Future, is to bring forth more things or conditions that can be controlled or can be used productively in any situation where you are operating at this present moment.

To Truly make My Point - to deny what is, to try to Eliminate what exists without Understanding the Principles and the necessities of that Renunciation, essentially is to throw the good out with the error, the *'baby with the bath water'* as the cliché goes!!! Remove the most important things and not learning the lessons now; they will simply need to be repeated within another cycle. Working to discover Divine Understanding and putting it into Rightful Application Will Save the Children of God from any unnecessary disparities. Consequently speaking, there is no discrimination in Divine Judgment sorting or grading of the information and the needs involved in any situation. The Need for Understanding, like all of the Other Mind Powers of the 'I AM' Presence, Serves Everyone and the Whole of One Self.

I wish to remind you all of the excerpts in My Discourse with Peter called *'Bounty of the I Am Discourses Dispensation - St. Germain 16th Oct 2018'*, which was the Very Discourse which set all this Alchemy Class Intention into Mind and Heart!

'The Elemental Grace Alliance is not a Group! It is a Living Organism that was Conceived and Consecrated not by any human being but by Shamballa Itself! You have been told by Lord Melchizedek that the EGA is an Ashram in its own right! Albeit in its early stages of formation. However, just because it is in its early stages of Full Manifestation, every step of the way has been Divinely Orchestrated, and those who Act as the Guardians, Curators, Custodians, Stewards and Administrators are all following the Universal Laws that pertain to the God Manifestation towards its Perfection. In this Light, then, We are Over Lighting those who are making the choices that MUST be made as if it were already a Fully Manifested Ashram of Consciousness, Circle of Light, Christ Council, Ashram, whatever you would like to call it. We KNOW mistakes will be made, We KNOW errors shall be implemented, but more than that, We KNOW and SEE how these are made and in so from a point of All-Pervading Light, All-Knowing, We can allow such mistakes and errors to be played out for We KNOW the Heart Intentions, We KNOW the reasons why the mistakes and errors are made, and We Know they are only short-lived and can be overcome without unnecessary delays.

'Know that We See what is registered as feelings within the Inner World of everyone, so what is being shared above will always provide the Right Action of any choice. Remember that when one is not in agreement with any choice made that has been substantiated clearly and precisely through Qualified Information and Knowledge, do not allow oneself to be affected by another's displeasure or disturbances of imaginary activities of how they perceive the outer self. Simply Know the 'I AM, the Only All-Powerful Acting 'Presence' in

your own mind, in your body and in your world. Through this, one cannot have imposed upon them by anyone or anything less than the 'I AM' Presence in Active Expression Is. It is not your concern how others act or behave; your Work is to Uphold the 'I AM' and place that Infinite Love into Action, even if it is not 'understood' by others who remain within their own outer perceptions.

'With this 'Understanding' or by giving willing attention to this Great Truth, you will potentially find Peace, Happiness and Self-control, operating about themselves to such an extent that no outer condition, disgruntled comment or disturbance could again disturb them, their world or their affairs. As soon as the individual becomes aware that he or she really has control of his or her own Creative thought, power and feeling, then they will know positively that they can precipitate into their visible use or bring into their use from the outer where it is already created, anything whatsoever upon which he or she holds his or her Creative thought and feeling firmly upon. The moment that he or she is truly aware of this, they will know they are forever free of anything that the outer world can give.' End Excerpt.

Dear Souls, you live within the outer realms of human creation, and for that, We all understand. Duality, however, is not Polarity, and while duality is a reality within a physical density, it is also transformative and mutable in its nature. But for your life to be changed, transformed or transmuted, it requires Understanding, Love and Wisdom. Today there is more of a need to relate with more Awareness and Understanding of your Etheric Body or your Light Body. This, of course, relates to the Central Nervous System, which is the relationship for bringing the physical body more into alignment with the Light Body.

In the Mind Powers, it says that Andrew was Peter's Brother and partner in their fishing business. Andrew, who represents Divine Strength, immediately joined Peter (Faith) and Jesus (The 'I AM' Presence) to follow them when he heard about the conversation between Peter and Jesus. Peter knew that Jesus was the Messiah from Israel. Israel being the congregation of the Spiritual Thoughts: One Body, One Nation. Strength then was the second necessary Virtue that was needed to Build the Manifestation of the Light Body. Strength, Stability and Steadfastness externalized by the spinal cord and nervous system, which function as a communications system for the cerebrum computer to send information, computations and decisions to and to receive information from the rest of the body parts.

So, here is a new place of Understanding where the communications from the 'I AM' Presence (Higher Mind) and the physical body (lower mind) lose translation as to what is transpiring. Unless the Clear Channel between the 'I AM' and the brain is Registered, then one will come to the Knowledge of why their life is in harmony or chaos. Or indeed in stagnation, not moving forward or backwards. This is where indecision comes into play. Our Beloved Sister Sue defines this perfectly in her Gemini New Moon Cosmic Overview. Most of you remain in this place of indecision; you know where you live is not really for you; you see the future or what appears to appeal more than the past, but you are not making

the choices or putting it directly; you are not making the Rightful Application to that Life you Know Deep Within is God Life for you.

If you began to move forward in making better decisions, Listening to Your 'I AM' Presence with Clearer Communication, then you will find a New Flow of Life would become your God Companion with *'Peter and Andrew'* rather than your individualized personality *'free will'*. And thus, if I may quote Sue: *'An internal spaciousness will grow, and you will no longer have to try to control life. On the contrary, you would then allow life to move you'*. This is just what you are being asked to do on this Divine Path toward your Own God *'Presence'* Within.

I do not wish to offer a condensed version of what Sue has already shared with you but to simply say this month's Cosmic Review is so apt regarding the position you find yourselves as a Group herein. So, before I move on, I will quote one other point Sue makes that accentuates this aspect of Faith, Strength, Understanding, indeed, all the 12 Mind Powers for moving forward from here.

'We are not just talking about physical strength here, but the ability to act in Harmony with Natural Forces - the real definition of Strength.'

'Force is unaware of Itself and leads to destruction: Strength is unaware of itself and leads to admiration. Here at its peak, the Siddhi of Majesty blossoms. It is through the 34th Siddhi that we get the idea of man as a God. The great paradox is that if Gods were to assume the shape of humans, they would never know they were Gods. This is the True meaning of this 34th Siddhi - the Divine Essence of Creation can only move freely through the body when the identity has ceased to exist.' End Excerpt.

I said in My Introduction above: *'Today, each of you shall step through the Doorway of a New Understanding that hopefully will Re-Order your Consciousness from what you once believed as being True to a Higher Conscious Awareness of what shall Prove To Be and Advanced or Elevated Conscious Truth.'*

Now you have something to work with. But you yourself have to do this work and therefore Transpose your own Consciousness. You have to prove this for yourself! It is time to find Higher Understanding, Dear Ones before I begin teaching you the True Art of Alchemical Transformation through the use of Ceremonial Alchemy!

I Am going to set you all an exercise, one that needs no particular length of engagement. One, that will be determined by your own Volition, Path, and your deepest Holy Desire for yourself to move closer to your 'I AM' Presence and the Christed Being you wish to Become. Nor does it require sharing within the Group; this is a Call to each individual.

But this is important, and if you are going to discover in this intervening incoherence, you will need to spend some personal and private time to Embody more Understanding so as to make the necessary decisions to deliver unto you the impetus of Zeal and Enthusiasm to kick

start your New Life With God Life through Divine Wisdom. 'It remains your free will' to choose.

If you cannot engage in this exercise with sufficient momentum, consistency and timely Realistic Application over the next few weeks, then please see for yourself where you are and what is for the Highest Good of All Concerned and make the choice that represents the Integrity of your Being.

You may begin by asking yourself the question: What is it that sustains me falling back into old patterns which keep me from my Divine Mission to Be-Come the Master Alchemist or my Own Transformation at this time?

I will assist you by sharing what Jesus tells you in Letter 7 of the 'Christ Letters'.

'The more will it become possible for you to receive higher inspiration and instruction from Me, personally, because, with every reading of these Letters, the more will your own frequencies of consciousness be raised towards My Spiritual Consciousness Frequencies and eventually, We will be able to reach a True Meeting Place of Consciousness. Then, Abundance will be the fruitage in your life.'

'To explain why this is so, I must tell you that My Consciousness descends through many differing planes of vibrational frequencies of consciousness to meet the needs of those seeking help and inspiration. The many differing planes of consciousness, My Consciousness passes through are all distinct from each other.'

'Each level of consciousness frequencies creates and manifests as different conditions of existence since the highest and lowest vibrational frequencies of consciousness are produced by the highest or lowest spiritual/mental/emotional patterns or forms of consciousness. By high and low patterns, I mean those which are closest and furthest from Divine Consciousness Intent.'

'As you know, each frequency of vibration of sound waves produces its own unique and individual note and tone. Similarly, habitual mental/emotional thought forms produce their own vibrational frequencies in consciousness, and these, in turn, produce the outer conditions in which that consciousness resides.'

'The Higher the Frequencies of Vibration of Consciousness, the more beautiful, harmonious, joyous and fulfilled are the lives of those who reside within those Frequencies. The lower the frequencies, the more harsh, bitter, acrid and miserable are the lives of those who resonate to such frequencies. Their lives are punctuated with disasters, deprivation, and brutality.'

'The Higher the Frequency of Vibration of Consciousness, the more Spiritually Loving and beautiful are the thoughts, the creative imagination, the ideals and beauty of colour and life forms, for they are rising closer and closer to the dimension of UNIVERSAL CONSCIOUSNESS'

where the Frequencies have become so heightened as to level out and enter into Powerful Equilibrium, the ALL POWER of UNIVERSAL CONSCIOUSNESS, the Source of All Being, LOVE.

'To you, the outer conditions may appear to be those in which the body resides, but the truth is, it is the consciousness which dwells within, experiences and responds to the outer conditions. The body is but a vehicle making the human consciousness visible to others, and the condition of the vehicle itself is a manifestation of the level of spiritual/mental/emotional consciousness which inhabits it.

'Therefore, as I said before, as an observer of individual need and in response to pleas for help, my consciousness descends through the various levels of existential consciousness to reach the sincere suppliant, for to give the answers, I must first receive the need. As I said on the second page, these 'Letters are a link, a means of your communication with my consciousness to enable you to be spiritually drawn to and made receptive, and then deeply understand and use all the knowledge I wish to share with you to bring you up the ladder of Spiritual Consciousness to its ultimate heights of the CHRIST CONSCIOUSNESS.' End Excerpt.

Dear Ones, learn to become the Observer of your own Life by looking through the Eyes Of Jesus, your Christ Consciousness 'I AM' Presence. Use Jesus as your Divine Inspiration and Guiding Principle, and Seek to find True Understanding by Anticipating what is to come.
