**ST. GERMAIN:** Beloved Sons and Daughters of My Heart Flame, I come to you today to further explore what it is to be a Sacred Scientist. 'I AM' all too aware that most of you reading or listening to these words, either upon initial release or through future revelation, will find that there is very little new surface information herein. That said, regardless of the non-originality of what forms the body of curricula for this particular class, I invite you to mark well the following in your awareness. Some of you will recall previous Instruction concerning how a Student of Truth will most effectively receive such Offerings; they read through the heart as well as the intellect, experienced through feeling and allowing, as well as through contemplation. There is an appreciation that there is far more than mere words on the page to be comprehended within the lower mental body alone.

The Sacred Scientist-in-training is expected to look to their own 'I AM' Presence for solutions to problems that they ironically co-created to attain the fulfilment God holds for each Blessed Son and Daughter of man. They are expected, through correct application and perseverance, to claim enlightenment by wielding the Torch of Divine Knowledge, the Sceptre, through awareness of the significance of true Selfhood.

Ultimately, the Purpose of this Class is to guide you in learning how to summon strength from the invisible realm. Both the Class and its graduation will result in the use of processes of transmutative alchemy within your own world and affairs moment by moment. Through this Class and your Application of Theory into direct experience, you are offered a Path to Mastery of all outer conditions or effects through the Spiritual means available to you. Paramount to

your journey of awakening is how you choose to engage with the world around and within you. The Sacred Scientist-in-training is ever-engaging in their development. For example, what choices are you making concerning your activities and style of living life?

The Practitioner of Divine Alchemy has cultivated a deep experience of versatility amidst the dross of this particular School for the Soul. Through such cultivation, they graduate as a Master of Compassion from the University of Duality. Such tempering through every human life is predicated upon freewill: Freewill to choose; freewill to remember; freewill to persevere; and freewill to expand awareness in the fabric of time and space.

The Sacred Scientist shepherd's scenes. Through freewill choice, they journey back Home, savouring the Divine Intelligence that had the Insight to offer them millions of incremental steps and stages. After all, Perfection is ever expanding Itself, and every step is expanding Perfection. They discern the futility of the question, '*Are we there yet*'? They honour and understand that *every* journey is as Useful to God as the destination.

The Sacred Scientist, the Prodigal Son, through aeons of Soul Strengthening, learns to play their Individualized part in the direction of Global Illumination even as they experience a comfort caused by Inner Serenity. And, just as Beloved Jesus Taught, when they return Home, they are welcomed with All that God has and is.

During His Ministry, Jesus was shown that enemies of Truth and Righteousness would rule for a time in His Name. The kingdom of religion set up in this world has been used to oppress. His Doctrines have been supplanted to manipulate the opinions and to manufacture the consent of humanity. Teachings that He did not teach have been falsely given by religion, as it is currently known, in His name. If anything, much that He did teach was darkened and edited by the scheming traditions of inequity. As Jesus points out in His first Christ Letter, mainstream religion has played its part and is now reaping what it has sown.

Because the churches have been moribund, cemented into rituals and dogmas, their priests and pastors have been unable to meet the evolving Spiritual needs of ardent seekers of Truth. As a result, the churches are emptying. If they are to endure, the churches must put aside their differences and have the humility to accept that inspiration does not necessarily come to earth in ways acceptable to themselves. They must remember that I, the Christ, was not acceptable to the Jews. The churches must keep open minds and hearts to receive whatever they intuitively feel is a Higher Truth than that to which they presently cling ... and to abandon the old beliefs which have permitted the BEAST to take control of human thought.

The Sacred Scientist has worked through this miasma, mindful of this BEAST, to be of good cheer. They know that the time has come where the LIFE, the TRUTH and the WAY that was hidden can no longer be kept at bay. Active Light is causing the passive darkness to pass away so that the Kingdom of Heaven can be extended into manifestation on Earth. The Age of Light has begun with Love Lighting the World from its Centre, freeing those who once were bound.

Where distorted teachings were once the foundation of alliances with kings and rulers seeking earthly power, riches and domination, the Teachings of Truth can now finally be unfurled to Light Humanity.

It is upon this backdrop that the Sacred Scientist consciously collaborates with the Great Cloud of Witnesses from the Electronic Belt. For centuries have Higher Beings known that a Solar Civilization was God's Goal for this experiment. In 1987, in what might be considered one of the most important decisions for this Universe thus far, the Assembled 'I AM' Presences collectively incarnated on Earth chose to Elevate this planet. And now, in this moment of Elevation, at this Cusp of Transition, the Sacred Scientists amongst humanity are readying themselves to work with essences invisible to the naked eye. Whereas the typical mainstream scientist languishes under a plethora of misinformation and cunningly engineered limiting dogma, the Sacred Scientist understands that it is impossible to measure the Fullness of Light with physical instruments. With sacred reverence, they have cultivated Faith, even as they bring a Scientific Attentiveness to the details of Cosmic Laws. In a time following this moment, instruments will be revealed to humanity that do allow for a richer physical measurement of Light. However, for now, the Sacred Scientist is poised on a platform of Faith to directly experience what Groups can accomplish through the Sacred Science of Divine Alchemy.

As Sacred Scientists come together as Living Organisms, they exponentially empower each other and, amongst other benefits, can bring down new Cosmic Laws from the Higher Realm of Ideas and make them manifest within the lower bodies of Earth. Their advanced research and control of the elements is central to these grounding activities. The Sacred Scientist has left the inadequate foundation of mainstream science behind, recognizing that transcending the dogma of the current scientific method requires the direct experience of manifestation to shake the Ivory Tower's very foundation.

Returning to the individual perspective, a purity of Heart and guileless nature must form the foundation of every Sacred Scientist. All traces of complacency must be erased so that Grace can descend. Having worked with Master Teachers, they increase the Nobility within. They are called into both service and leadership roles of authority. As Nobility in action, they allow virtue, wisdom, love, and courage to lead the way. They sacrifice the desires of the ego-personality because they have fully realized its function. They have laid their entire being on the line for the Higher Ideal of Humanity awakening to Its Spiritual Magnificence, the Realization of the Fifth Kingdom, Heaven on Earth.

Through the Communion of the Living Organism, the Sacred Scientist is a co-steward of Heaven on Earth. They embody both the 'I AM' Presence and the Will of the Circle of Light they Serve in every moment. Following any moment of forgetfulness, they consciously and reflexively invoke the Law of Forgiveness. Ultimately, individual being is enfolded into the Higher Collective Being of the Circle of Light. The Circle of Light, now functioning as a Christ Council, has become a vibration of such intensity that it makes the hearts of the unawakened

they encounter weep; for through such moments, there is a recognition that what they represent is a reflection within the unawakened of the Truth of who they Truly Are, their tears a lament at Truth being moved into their awareness by their 'I AM' Presence. Through Valour, Circles of Light form the vanguard of the Fifth Kingdom of Heaven on Earth. Inner self-resistance has finally been broken down to allow for the fusion of the ego-personality into the Soul. This, in turn, allows for the fusion of their Antahkarana to the Group Antahkarana. Valour, through them, evokes absolute courage and love of seeing the Divine reflection within the face of every other human being, every animal, every plant and every expression of the mineral kingdom.

The journeys they have taken through the lower four kingdoms span timelines and encompass Oversouls. These Lifetimes have strengthened souls through experience of living within the most tightly controlled hierarchical situations, becoming lost to the ego-personality's need for control and drowning in the depths of past fears of losing control. They have released beliefs that they were being tested by the forces that do not wish to relinquish control and have brought Divine Understanding to the illusion that they had to be subjected to external controls. They know that no external form of control can rob them of their true nobility. Through Valour, the Sacred Scientist Communes with all others in the spirit of friendship and unity, recognizing that they have shared many lessons with all those they meet.

A principle lesson, that of humility, also marks the Sacred Scientist. They recognize that it is the Will of God, Beheld both through their perception as well as their Circle of Light, that Bestows upon them the Energy Field of True Knighthood. They stand firm in the highest of ideals and embody them as they serve alongside others. In such awareness, they would gladly lay down their human body for God for the ideal of Communion between all the Seven Kingdoms. They have surrendered past karma of control and can now know the indescribable Truth of Trust. As the Masculine force within them is Knighted and empowered through its surrender to the Feminine, Holy Communion is fulfilled through the Sacred Scientist. The Power of Valour through them is the Courage and Love that has been found within the lower self that has died unto the unknown mysteries and Freshness of their Higher Self.

The journey of the Sacred Scientist has resulted in necessary changes in thought, released preconceived ideas and beliefs, and resulted in the transmutation of past programming of aeons into an expansion of Divine Wisdom. They understand that life in the three-dimensional world is a laboratory and that their experiments are dependent upon Higher Cosmic Laws. They have developed Divine Faith and allowed their concentration to flow from Divine Strength. Through this foundation, they open Pathways of Divine Love and Wisdom to an on-demand access to the Divine Fuel of the Angelic Kingdom as they consciously direct the Invisible Forces of the Devic Kingdom. Divine Will is their North, and Divine Power their embraced Birthright. They have a crystal-clear Divine Imagination and Divine Understanding through the Transfiguration of the five physical senses and analytical capacity. Their Acceptance of Divine Order allows them to fully access the Power of the 'I AM' Authority.

Divine Zeal flows to bring unprecedented effortless application. And in this Regeneration, all that no longer serves this Divine experiment is Eliminated.

The Sacred Scientist has a Reverence for Life, a deep Knowledge of Cosmic Law, an inquiring mind for any need in the moment and an honest heart as instruments in the laboratory of their consciousness. Poised in humility, their focus is fixed upon the 'I AM' Presence. And yet, the balance of the Living Organism is to be considered. Perhaps the greatest test is yet to come; that of transition from current understanding of organization amidst the world miasma to the Christ Council.

In the Discourse 49 Shades Of Grey - The Rule 1 Study Group, 14 Rules for Group Initiation, 2nd May 2018, El Morya offered the following:

*'It is important to know at this stage that all the colours that you have now been consciously exposed to with the Seven Rays and the Seven Sub-Rays of All the Qualities and Virtues of the Colours with Master DK are all presently shrouded in meddling shades of Grey! The 49 shades of Grey are the veils which are self-imposed due to the lack of knowledge, experience, incorrect attitudes and the many old beliefs and programs you continue to live your lives within. These 49 shades of Grey are the imposed imperfections of the Vibrant, Vivacious, Effervescent, Alive, Energetic, Animated, Luminous, Vivid and Life-Giving Love, Wisdom and Power of the 49 Colours of God's Life. These 49 shades of Grey are what is holding one back from the very Truth, Self-Realized through the Joy of Life, The Beauty of Life, The Radiance of Life. It is like living every day of your life in cloudy days, never seeing or feeling the Purity of the Sun's Rays upon your person. The clouds have their purpose, but so does the Sunlight, the Blue Sky, and the Joyous feelings when exposed to the balance of Life-Giving Sustenance; LIGHT through LOVE!'*

A challenge for the Sacred Scientist concerns the coordination of Colours of God Life and the navigation of Light amidst shadow. Invariably, the collective of the Living Organism will have, in abundance, the very qualities which are lacking in the individual. In turn, this requires those of the Living Organism to not only know themselves but to also trust Life to remove the peaks of their pride as they learn how to Co-Create through the 49 Colours of God Life.

As a Living Collection of Sacred Scientists, you are being trained and encouraged, through your direct experience and application, to construct the '*Spires of Attainment*' which compose the Celestial City upon Earth, previously referred to as Narayana Joy Akasha Radiation Temples. Together, you are being called to enfold the world of material substance, your conscious minds and your feeling bodies with the Radiance of the Immortal Spheres. Through the Expanded Circles of your Auras, will you then be able to gaze upon all that you sense with renewed hope.

In your journey on the Path of the Sacred Scientist, you are immersed within an effulgence that contains a vast number of energetic echoes. For example, vanity has held sway upon

Earth for far too long. As the Sacred Scientist dabbles with the invisible essences of the elementals, they must contend with the mis-created shackles of Grey shades. Each moment immersed in the earthly reality then becomes a test. For example, will the Sacred Scientist succumb to vanity and allow its shade to rob them of wondrous opportunities? Truly, the deaf can be made to hear, the blind to see, the lame to walk, and the dead to be reborn. But accepting the greatness of your own reality balances upon a knife edge of vanity if old patterns of the ego-personality would have their way.

In the same Discourse, the following was also offered.

It is so easy to forget at times, for life on earth, with all your daily routines and responsibilities, are ever calling.

Your daily routines and responsibilities are ever-calling. The claiming of the Colours of God Life requires the Sacred Scientist to embody Cosmic Law and Rules for Group Initiation in a progressive way, even as they must dissolve, melt, dissipate, erase and cease acknowledgement of the 49 shades of Grey that continue to seek attention.

You are being called to emerge from the cave of materiality and its 49 shades of Grey into the 'I AM' Consciousness and Its Colours of God Life. You have been obliged to struggle through human separation so that you might Birth the Light Body through activation of the 12 Divine Virtues within you. The Great Cloud of Witnesses are all too aware of this struggle, and mercy has been extended without limit and without price.

God's great gift cannot return more love to life if you do not bring Love to Life. For the macrocosm is ever responding to the microcosm. In My book, *'St. Germain on Alchemy - Formulas for Self-Transformation'*, among the countless Truths laid before the reader, is one I wish to highlight here.

*'Now, looking to another is not the solution to your problems, nor will it win the intended fulfilment God holds for thee, blessed son of man. As an alchemist enlightened by the torch of Divine Knowledge, aware of the significance of true Selfhood, you must summon the strength from the invisible realm and use the processes of Transmutative Alchemy within your own world and affairs to master daily all the outer conditions by the spiritual means and physical appurtenances available to you.'*

You are given obstacles to overcome because, at the end of the day, the manipulation of the invisible essences all about and through you is itself an obstacle, veils within veils. As has been evidenced in recent disruptions to technology and your communications, you will be continually tested until you attains your Freedom. You are being called to surmount any and all conditions at will. Like the Universe, you, too, must unveil creative methods of transcending Piscean Laws to approximate the Higher Dimensions in the lower. It is not the disruption on the journey but their responses to them that defines the Sacred Scientist.

In bringing this Discourse to a close, I invite you to contemplate the following questions.

**How are you disallowing old ideas as they arise?**

**How are you making use of the Law of Forgiveness?**

**What does your Vision as a Sacred Scientist *feel* like to you?**

If you feel so moved, you may share your Qualified responses with the Group. If you have questions or are unclear about what has been shared herein, you are invited in the first instance to seek Guidance from your 'I AM' Presence and, by extension, communicate with Me personally. If, after such efforts, your questions remain unanswered, you can reach out to either of the current Messengers or to the Group.

While there will be benefit from both the individual effort and sharing amongst the Living Organism, the truest measure of your answers will be evidenced by your progress. El Morya said it perfectly in the 49 Shades Of Grey Discourse.

*“Disassociate yourself from the personal delusion. Never let self-justification ever reveal that you love the self more than the Harmony of the Universe. If you are right, there is no need to acclaim it; if you are wrong, pray for forgiveness. Watching the self, you will find the rising tides of indignation among the more subtle shadows called ‘self-righteousness’.”*

Not only must you transcend the love of self, but you are also called to accept theoretical knowledge in Faith.

**'I AM' St. Germain, Your Holy Brother At Your Service.**

**May You Pass Every Test. Freedom Is Your Right! Accept It as You Will! And So, It Will Be!**
