St. GERMAIN: Greetings Dear Ones, I come to you at this late hour due to the subject matter that lays before you in this now moment! If you could only understand how important what you are doing is so aligned to the Cosmic Outpouring of Love for the Purpose of you all raising yourselves out of your old human ways, the outdated needs to do anything that you so believe in within your human creation; the very creation that you have made for self, for your own experiences. If you truly wish to continue experiencing the same old ways with the same lessons and punishments, then your freewill, will keep this wheel turning for you!

I want to bring to your attentions with this Part 4, as the last opportunity to claim now, your Sovereignty, to rise above your perceptions of being as you think you are, and to reap the Beauty of All Life that you have so forgotten within your Dream of many thousands of lifetimes.

Our Sister Sue is a Master of the Knowledge She holds and accesses, an Artform of which She Expresses for the Purpose of Education. Is it not surprising for any of you that this subject of '*Languages*' has risen, to be placed before you, right before entrance to My New Class of finally understanding the Conscious use of Alchemy rather than the unconscious slovenly, disordered and random creation from the incompetency of the forgetful human condition? Look then more closely Dear Brothers and Sisters at Sue's Cosmic Review! I have told you in My past Discourses that you do not pay attention to what you are provided in Truth, you read and floss over the words and I do not mean misread or misunderstand the words, due to language constraints, in this case English!

You have seen through your Dutch Sisters AnneJelena and Corinne, how lack of some word comprehensions do not negate the Inner Knowing and so in many ways stand beyond others, whose Language is used as their First Language. I tell you that the main Language you have

learned to use to communicate is not your First Language. The Language of Light is Your First and Only True Language. But more on this in a moment! First I want to show you, through those who are in tune with the Greater Awareness of the Cosmic Support being offered to you and It's influential Projections of Energy Transference, The Law of Transference of Energy! Remember I have already spoken of this with you.

The New Class will be the forebear or Origin of your Existence of the Prime Creator for MY Class Introduction, and why I have come to be with you all again, this time in a much more personal way, not to teach you of personal matters, but as Master Djwhal Khul has shared, to make the differences needed upon the Earth within the Human Morphogenetic Fields, then We too, have to come and stand within the same Energetic Barriers to help you break them down, so as to see them for what they Truly are; an Illusion!

I place here before you again with far more emphasis that should not allow you to pass over without taking deeper notice. These are not just 'words' Dear Hearts, as you read and cast your eyes upon them, between the words and lines, into the colours and hues of their supporting Images, Visions, and Listen Dear Ones, not with your outer ears, but your Inner Ears within your Heart Centre. As you read these, as I want you to read everything from this time forward, not with your head, but instead, drop down into your Heart Centre to Feel, Sense and Draw from what you are Observing as the Truth, and the Impressions, Sensations, Ambience, and Quality of the Atmosphere that emanates around you as you place your focus, '**Undivided**', there in that moment! Then you will begin to tap into the Language of Light, where your Inspirations, Ideas, Vision, and human words come to be able to share as you may, no matter what human language you will interpret them by or share with others! I have no interest in what you think or see, I Am ONLY interested in what you Observe, and how you respond to such Impressions etc., that are placed before you to act upon, beginning from within the Great Silence, outwardly into the outer world of physical manifestation. More on this after this excerpt from Sue's Cosmic Review. The words I wish for you to Truly Feel into!

The Cosmic Review for the New Moon today!

"As you will see from the above chart there are two 'T' squares being formed at the time of the New Moon; the first links the Sun and Moon to Uranus and to the Earth and the second links Chiron to the North and South Nodal Points.

The Sun and Moon at 40 Aquarius 21 is on Gene Key 41 known as the Prime Emanation moving from Fantasy to Anticipation to Emanation. 'The 41st Gene Key houses a truly remarkable archetype. It stands alone within the human genetic matrix with a very important function. It relates to what is known in genetics as the start codon. At the shadow level of consciousness the 41st Gene Key Centres around the issue of Fantasy and dreams. The 41st Shadow creates a continual pressure within humans; it is the pressure to evolve. When the pressure is distorted by a low frequency field, as is the current state of humanity, it becomes distorted into the pressure to feel happy.

Thus begins what the Ancients named the Wheel of Samsara; an endless cycle of suffering in which humans become trapped by the need to satisfy their desires. The key to the problem as ever, lies within your mind. The more the Resonance Frequency of your DNA rises, you become more and more sensitive to the hidden properties in the world around you, in particular, linking into the morphogenetic field that communicates specific information across time and space. **The 41st Gift gives the gift of premonition or Anticipation which links to its partner the 31st Gift of Leadership.** The greatest leaders are those who build upon the past whilst anticipating what is to come. The 41st Gift has a single genetic agenda; **it is always attuned to the next evolutionary energetic grid that is waiting to descend into form.** Every start codon inside every single cell is electromagnetically linked to each other. **The 41st Gene Key is the key to seeing that the physical body can equally be seen as a holographic mirror of the Universe. At this level of resonance the 41st Gene Key becomes the Siddhi of Emanation.** In a nutshell the doctrine of Emanation points towards a fractal model of the Universe in which everything emerges infinitely as a mirror image of itself.

Emanation contains the concept of Infinity. **The 41st Siddhi is the source underlying all true Siddhic states.** It may come as a shock to many mystical seekers that this process cannot be triggered by what we do on the surface of earth. Within the hologram of the Universe, Enlightenment is a spontaneous acausal non-event.

You could say that Grace triggers this process, but the point is that it is a chemical process, and no one knows why, or when, or to whom it will happen.

The Earth at 40 Leo 21 again is linking into the 5th Ray of Concrete Knowledge and the Mental Plane. Gene Key 31 is known **as Sounding your Truth** asking that we move from **the Shadow of Arrogance to the Gift of Leadership to the Siddhi of Humility.**

At the Shadow level of frequency we are limited by our thoughts and language. **We are 'programmed' by the language and thoughts that we have inherited.**

These thoughts and language keep us confined within a narrow spectrum of intellect and understanding of what our true potentials are. Real Arrogance comes from being cut off from our Divine Source. Words that are not rooted in a profound sense of wonder are always to some level arrogant. Only the human heart can truly offer an answer to the mystery of existence and unless your words carry the perfume of Love somewhere behind them, they are still wading around in the Shadow frequency.

The 31st Gift, like all the Gifts, represents a huge step beyond the intellect and into the heart. It is the heart that separates the Shadow frequencies from the Gift frequencies and in our current stage of evolution the heart is the hottest frequency there is. Only the heart really perceives the collective suffering that comes from being marooned in your intellect at the Shadow frequency. Thus, your natural urge is to help others escape that suffering in some way. Furthermore, since the 31st Gift is the gift of understanding the masses and the language

of the Shadow frequency, it naturally uses this gift to help draw others out of the co-dependent victim patterns and relationships of the lower frequencies.

*Because the 31st Siddhi is truly humble, it has no agenda. It does not matter what such a person does in life. They are content to leave the world exactly as it is. **Nonetheless such a person still carries the same genetic coding that requires they speak from the cutting edge of Consciousness.** The 31st Siddhi says whatever it must say, knowing that the words come from the collective back to the collective.*

*The 31st Siddhi is rooted in the ancient tradition of the Oracle. **The Oracle is simply a voice box for the Divine.** The Ring of No Return refers to the great Initiation from the 4th Causal Body into the 5th Buddhist Body. **Once this leap of consciousness has been made, there is no possibility of return because your identity or ego will be erased.** From this moment forwards, whenever you use the word 'I', it is the voice of Divinity itself speaking. **Such speech is pure transmission. It uses words to indicate the Path beyond words.**" End Excerpt.*

I would encourage you all to go back and read Sue's Cosmic Review again with New Eyes and an Open Heart! There is an urge here now to be somewhat personal, so let's be personal, just so you understand how this Cosmic Influence is an extension of what is going on within the SOEPC right now!

First, Peter has been following up doing all he could to maximize the entry into My Class Introduction period and as eager as ever to follow my Lead; Why? To amplify and expand the potential gain! As in the Cosmic Influence of the 31st Gift; *'Thus, your natural urge is to help others escape that suffering in some way'*. What suffering? *'the collective suffering that comes from being marooned in your intellect at the Shadow frequency'*.

Second, Carewen felt the urge to share his thoughts and understanding. This came from the expression of the 31st Gene Key that he was tapping into as part of the Impression he was receiving:

Because the 31st Siddhi is truly humble, it has no agenda.

*'It does not matter what such a person does in life. They are content to leave the world exactly as it is. **Nonetheless such a person still carries the same genetic coding that requires they speak from the cutting edge of Consciousness.** The 31st Siddhi says whatever it must say, knowing that the words come from the collective back to the collective'*.

Third, and it is this point I wish you all to embrace at your first opportunity. Both Sue and Peter work in this way! They are not channels; they Work from within their own experiences while Translating from what is Impressed upon them by the Great Silence. The old way of channelling can no longer Serve at the Highest Levels. You may or may not be aware, but it was My 33 Discourses presented to the Ballards and the Students through the Direct Emanations of Sound and Light, where those in the room could physically see and hear with their own humanness, were of the Highest Resonances. These Discourses you will also note

are the only Discourses that have Invocations and Benedictions aligned to them! Most of the other Discourses written by Brother Guy were transmitted onto an etheric screen from which he transcribed. Yet both Guy and Lotus could hear Our Voices just the same.

We told you years ago this style of communication is becoming outdated in the New Golden Age. Today and in the near future Individuals and Groups shall only be given Packages of Light for their own Interpretation and Translation! That is Envelopes of Light, that is, filled with the Language of Light! Peter spoke of all this in the God Awakening Book 1. So, all the Discourses that Peter Brings through is not what he hears, or even sees on any etheric screen, but instead what he Translates from the Impressions he receives from the Masters. Sue does exactly the same, yet because of their vast differences in life experiences, they come from different viewpoints and expositions. Yet, they can as you have been told, day after day, without awareness of what the other is doing, write and share exactly the same topics that are Impressed upon their Minds and Hearts but from different points of view!

Where two or more are gathered, this is magnified many times over and this is what I wish, and the other Masters Desire, to use these Synchronistic Gatherings of Soul Energies to magnify out into a greater Group Environment where gathering in person, in the same physical location, so that the Resonances and Light Quotients of those who Gather, can Synchronistically expand, Expand, EXPAND the Energies of the New Christ Consciousness more easily! Do you see Dear Hearts, this is what is happening here in the SOEPC, yet in very, very few other places or Groups around the world today!

These Concepts are still in their infancies right now, but Trust Me when I say, if you can Believe what you are Feeling and Sensing in every single cell within your body, all 7×10 to the power of 9, and billions of years old, you are going to awakened those that you have put to sleep! When the first One awakes then the others will awake at such a velocity they shall explode into millions of Suns.

Ponder on this Dear Souls. We have 7 more Members who have yet to respond. They may or may not, that is their freewill choice! *So we will, for no other reason, Our, yours and Mine, in the natural urge is to help others escape the continued suffering that comes from being marooned in the intellect at the Shadow or lower frequencies.*

We will therefore extend the time for acceptance another 24 hours. At the same time, as you have now chosen to get involved with such a Circle of Light Group, Impressions may begin within this Circle for this Discourse which you can use to be the first the get the ball rolling so to speak, for the contributions of the Invocations and Benedictions. This is all about different avenues of opening your communications with your 'I AM' Presence do you see! An Impression that Dear Michael consecrated! Are You now beginning to get the Picture, with Greater Awareness to your 'I AM' Presence as you act out within a Group Environment???

With all this personality here, do not make the mistake of seeing it as separate from Self. It is not! It is just a way of expressing how, as individual cells of a Greater Whole, human or

Universe, can divide one cell into another, as result of Mother Father God coming together in an Orgasmic Atomic Explosion and Emanation of Light's Perfection. It can and will, awaken one cell to begin and then at an exponential rate the next, and the next and then the next!

This completed Discourse will be presented again to the Introductory Class after We begin in a few days' time! Stay tuned for your Envelopes and Packages of Light when you ask for them. They are already waiting for you in advance!

Remember, this is not about removing the 'I', but about adding your Universality to it!
