

The Cosmic Law of Divine Faith

Law of Divine Faith - When the Principles of Faith are applied, it will produce Victory in your life every time, all of the time, no matter what. The Law of Faith is founded upon the recognition that we know more than we have read, heard, or studied. We Know more because we Are a part of the ALL. We have a direct link to Universal Wisdom. We only have to look within, listen, discern, then Trust. We need to develop more Trust in our own deepest Intuition and Wisdom as the final Arbiter and Source of our decisions. We know more than we know, we have hunches, intuitions, and visions of a whole that is larger than the sum of what we have read, heard or studied. Déjà vu is nothing more than the recollection of the larger collective unconscious: the Universal ALL that we are all a part of. Each of us, explains renowned psychologist Carl Gustav Jung, holds a pool of collective, Universal

knowledge within our subconscious; this is Universal Knowledge. We have only to look within, Listen, Discern, and Trust our Inner, Universal Knowledge. We must learn to differentiate between our outward desires and biases to objectively access our deepest intuitions and to rely on Intuitive Knowledge as the ultimate Arbitrator in all of our decisions. Faith in the collective body of Universal Knowledge is the Key to the Law of Faith.

The Law of Faith is the cosmic revelation that your gracious, benevolent and loving Celestial Father/Mother personally loves you very, very much, whereby They Are Intricately interested in your Ultimate Satisfaction, your Ultimate Security, and your Ultimate Development.

The wonderful works of faith and sanctification naturally follow regeneration, but are separate from it. When Christ healed a blind person, he would open his eyes to a thousand new sights that dazzled his being. Similarly, the Soul Regenerated by the Spirit sees Him Herself and God's Creation in a totally new way. The process of seeing is subsequent to being enabled to See.

Conversion follows Regeneration and is different from it in the following ways: Regeneration is God's act; conversion is ours. Regeneration is the Implantation of a Gracious Principle; conversion is the Exercise of that Principle. Regeneration is never consciously known by man or woman; conversion is thoroughly a Divine Process involving their consciousness. Regeneration is a single act, complete in Itself and never repeated.

Regeneration is the New Birth by which the new creation of God is begun in the soul. It is the first personal act of rescue wrought by God in us to fulfil Him/Herself Plan of Salvation effected by the life, death, and Resurrection of Jesus Christ. Without Regeneration, one would forever remain Spiritually blind and dead.
