Take Command of My IAMEGA Class; and with the Sacred White Fire Light Take Charge of this Circle of the Blue Lightning Flame and Awaken each One into their Own Light Radiance.

**St Germain:** "That is why today in Your Mighty Calls and the Activities to which you subscribe to; the 'Presence of Life', you are a Power that you do not dream of yet. Your 'Presence' is the Doer; your Calls release Its Mighty Intelligence and Power into Action, and whatever you believe can be done or has been able to do thus far, you can do over and over again. Your Calls are answered with the Power of Lightning. Therefore, that is by the gaining of that Momentum and the 'Conserving of the Energy' so that when you make your Calls; They go forth at the speed of Light to be accomplished. Dear Ones take control of the energy fields you allow into your aura and you will in no time at all rise to New Levels of Attainment, Knowledge and Wisdom. Follow these Instructions if you will:

1. *Your only Real Objective now is to create a Solid Foundation to find that place within you where the 'I AM' Presence resides removing all resistances to make these Connections.*
2. *To review in as much detail as you deem worthy of your own personal position and that of your Group Unity within the 33 Discourses and the Conditions of Engagement and identify where you may improve and conserve your energy fields. (Particularly that of glamour and what is done for self-gratification).*
3. *To complete the Guide that has been requested including elements of what has transpired herein My IAMEGA Class Authority that needs clarification and consolidation."*

Beloved St Germain gave 'The Elemental Grace Alliance' IAMEGA Class these instructions to help us integrate the Teachings of His New 'I AM' Discourses Class Activity and this 'Group Living Organism Study Guide' is the result of His Direct Instructions to us. They are now Your Responsibility to Implement!

God Bless You: On Behalf of the Elemental Grace Alliance Council – And So It Is!

**We Give Praise and Gratitude For All The Gifts We Receive From The 'I AM' Presence!**

## INTRODUCTION

The Age of Pisces unfolded the focus of the individual upon the Christ Consciousness with Beloved Christ Jesus. In turn, as individuals evolved in their understanding they came together, and they organized. In this mindset, the desire to organize led to the formation of organizations.

Over millennia, many organizations have formed, and like most aspects of change within the evolution of humanity, they have been fraught with the fear of change. This should be no surprise as the ego personality is fraught with fear; anything created by the ego personality, such as organizations as we know them today, will carry the same energy of fear. And with everything upon Mother Earth being governed by free will, even as the Divine Plan has strived to gain a foothold within mankind, organizations have epitomized a learning process.

However, the time has come for the Living Organism. This term '*Living Organism*' was coined by Djwhal Khul in the, *14 Rules for Group Initiation*. It is not founded upon human concepts, beliefs or paradigms. Where the organization is filled with personality projections, the Living Organism must be COMPLETELY devoid of such ego projections. However, you will have likely intuited that this is no easy task. Some of the most spiritually advanced organizations over the past century or more have begun with the best of intentions and spiritual foundation, only to succumb to the underlying beliefs, paradigm and energy of the current human mindset. And yet, if the EGA Divine Plan is to remain on the cutting edge of consciousness, we must manifest a Living Organism so that our Energies will not be held within old structures of programming.

Members of a Living Organism have nothing to prove, nothing to achieve and no need to *do* anything. There is only one thing for which a Member of a Living Organism need be sure of – 'I AM'. The Holy desire to Know is a huge change. In such a state, desire is the realization of the Infinite becoming grounded on Mother Earth. Members of a Living Organism come together to invite the Christ to descend into both the Members of the Organism as well as the Organism Itself. These Members understand that their ability to Know is limited only by their willingness to serve and receive. They can accept that their Higher Self Knows All. They embody their reconnection to their Higher Self, the 'I AM'. Their every decision is unanimous. Even decision-making approaches such as voting are a thing of the past. In short, Living Organisms represent the evolution of how humans come together to consciously embody and co-create Heaven on Earth.

## THIS IS A LIVING DOCUMENT

This Framework is presented within a Living Document, meaning that it will evolve as our consciousness evolves. For example, board governance in the human context is defined as, “How the board exercises its authority, control, and direction over the organization on behalf of the membership.” However, a Living Organism does not require control to be exercised by a Board on behalf of the membership or to be governed by bylaws and policies. Such paradigms exist because of the ego personality that is the predominant motivator of both leadership and membership of the current humanly-conceived concept of an organization.

Thus, this Framework for a Living Organism must be a living document. It must evolve as the consciousness of its Members evolve. As a document, it is intended to serve as a resource for anyone who desires to engage in a Group Activity. As such, this Living Document:

- Is a Toolkit to support and guide Light Bearers as they engage in Group Projects and Activities.
- Is a Primer in that it strives to introduce the concept of a Living Organism in practical terms.
- Will, where possible and practical, present information through visual diagrams to simplify the processing of the information.
- Is as Living as the Organism and will evolve as Our Collective Understanding evolves.

As you receive the information contained herein, please know how Loved You Are. If a concept or word structure evades your intellectual understanding, make a note and reach out to the Living Organism. As you'll discover, this invitation highlights a shift from the old Piscean mentality, where one might be concerned with how they look, to the Aquarian Mindset, where one starts from the premise that the Circle, the Living Organism, always supports and never judges.

Jesus said this in His Discourses Part 4 [Songs of Release](#): *“I Know that deep within each of you Your Timeless Joy of Humanity has drawn you here into this United Forcefield, after eons of incarnations through many Planets and Star Systems that have allowed you to gain the Knowledge and Experiences, so that you could become those whose feet walk upon this Beloved and Sacred Planet Earth at this time. So much to know and so much confusion as to what is Truth, and what is not, or even what is Real and what is not.”*

Finding the Truth comes from placing your Inner most thoughts into Action. This is a way of Qualifying what is Real and what is False within a New Living Organism.

## SECTION I: GUIDANCE FOR GROUP ENGAGEMENT FOR THE INDIVIDUAL

Those of humanity aspiring to Divine Freedom, or Ascension, will always be called to engage in efforts to further the Divine Plan in practical terms. The following guidance is intended to inspire you in better understanding how to engage with others in the most profound and potent manner possible. Given the nature of this free will universe, this primer is only offered as guidance. However, the essence of this guidance is intended to empower every Child of God called to service within a Living Organism.

In a Living Organism it is necessary for those involved to work from Above downward. Anyone who aspires to be meaningfully involved is called daily to engage in the active practice of Cosmic Law and Truth. We are called to contemplate, to endeavour or to understand in our consciousness, the Higher Concepts related to us through the Hierarchical Discourses and Studies. As such, every day there is much Bridging Work to be done by each of us. This is essential if we are going to bring down from the Higher Levels – the Hierarchy (the Sixth Kingdom) and Shamballa (the Seventh Kingdom) – some of the Truths which we are presented with and which we are to investigate. Any who prepare to move from the Fourth Kingdom into the Fifth Kingdom on Earth need to understand how such Truths will play a part in the Growth and Development of their Souls, both within an Ashramic Environment as well as within the three worlds (Mental, Emotional and Ethereal) of human endeavour.

The greatest challenge to any Group that aspires to be a Living Organism is for all in the Group to be fully engaged in a one-pointed focus. Any effort must be one-pointed or focused on the objective of the Group. The daily practice for those of us called to serve within a Living Organism is a one-pointed effort. We are being called to bring our focus and concentration in all moments to the 'I AM' Presence. Whether engaged in earning our daily bread, living life with our families, engaging socially with our friends and communities, or walking through the world, we are being called to know the 'I AM' is within and everywhere we look.

St Germain tells us that overcoming these challenges and the embodiment of what it is to be a Group Living Organism is essential. *“I Am Aware that time and space are very confined as to give any further detailed information regarding what is being shared here. I know that on the surface I may appear to be avoiding speaking of the points raised, but for those with Inner Sight and Awareness, there is indeed a very direct and profound message here that is way more important than all those things put together; these, speaking of the 28 Conditions of Engagement, are the Foundation Stones from which to build Our New Era of The Golden Age! The Rock upon which the Church is built! The Creation of the New Circles of Light Gatherings will be the Foundation Stones. FROM THERE THE CHRIST COUNCILS SHALL BE MADE MANIFEST. AND FROM THERE THE COUNCILS WILL MANIFEST.”*

## CODE OF CONDUCT FOR A DISCIPLE

The following image is inspired by Teachings from the Maha Chohan concerning how any Disciple should conduct themselves, regardless of whether they are involved with a Living Organism. This Code of Conduct is intended and designed for daily contemplation and application. It should be considered a core foundation from which all individuals aspire to grow.

- Always be conscious that you aspire to the fullness of the Expression of God and devote all your Being and your Service to that end.
- Make the Ritual of your living, the Observance of God's Rules, so unobtrusive that no man shall know that you aspire to Godliness, else the force of others might be imposed against you, and may result in your Service becoming impacted with pride.
- Claim nothing for yourself, neither Powers nor Principalities, any more than you claim the air you breathe or the Light of the Sun. Use the Spirit of Life freely and know the God-Ownership of All.
- Disassociate yourself from the personal delusion. Never let self-justification ever reveal that you love the self more than the Harmony of the Universe. If you are right, there is no need to acclaim it; if you are wrong, pray for forgiveness. As you watch for the self, you will find the rising tides of indignation among the more subtle shadows called "self-righteousness".
- Let your Heart be a Song of Gratitude that the Most High has given into your keeping the Spirit of Life, which shall assist in the widening of the Borders of His Kingdom.
- In the Presence of Nature, absorb the beauties and gifts of Her Kingdom in Gentle Gratitude. Do not desecrate Her by vile thoughts or emotions, or by physical acts that despoil Her Virgin Beauty.
- Stir not a brother's or sister's sea of emotion, thoughtlessly or deliberately. Know that the storm in which you create through such energy transferences will sooner or later flow upon the banks of your own lifestream; rather bring Peace, Joy and Tranquility to life, and be a gentle, soothing balm to life's disturbances, imbalances and unpleasantries.
- Let your watchwords be Gentleness, Humility, and Loving Service, but do not allow the impression of humility to be mistaken for lethargy. The Servant of the Lord, like the Sun in the Heavens, is eternally vigilant and constantly outpouring the Gifts which are in Their particular keeping.
- Speak only when God wishes to say something through you. Otherwise, remain Peacefully Silent.
- Do not form or offer opinions unless you are invited to do so, and then only after Prayer and Silent Invocation for Guidance.
- In speech and action, be gentle, but with the dignity that always accompanies the Presence of Our Living God that is within Your Temple.
- Constantly place all the faculties of your Being, and all the Inner unfoldment of your Nature, at the feet of the God-Power, especially when endeavoring to manifest Perfection through one in distress.
- Walk gently through the Universe, knowing that the body is a Temple in which Resides the Holy Spirit that brings Peace and Illumination to Life everywhere. Keep your Temple always in a respectful and cleanly manner as befitting the Habitation of the Spirit of Truth.
- Respect and Honor in Gentle Dignity all other Temples, knowing that often within a crude exterior burns a greater Light.
- Learn the lesson of harmlessness, and neither by word, thought, or feeling, inflict negativity, malice or impure things upon any part of Life. Know that action and physical violence are but the impositions of fear, rejection and separation.
- Be alert always to use your faculties and the gifts loaned to you by the Father/Mother of All Life, in a manner to Extend and Expand His Kingdom.

## GUIDING INTENTIONS FOR A LIVING ORGANISM

## A POTENTIAL MODEL FOR LEADING BY EXAMPLE: CIRCLES OF LIGHT

A Circle of Light is the ultimate expression of any Grouping considering the implementation and resolution of an idea. The Circle is the structural heart of the concept of a Living Organism. Where an organization is exemplified by the form of a pyramid and, typically with, the purpose of control, a Living Organism is exemplified by the circle and the purpose of empowering and liberating Awakening humans to come together to consciously embody and co-create Heaven on Earth.

In any beautiful and awakening Living Organism the human aspect is comprised of Souls at many levels moving toward Ascension and beyond. The Living Organism understands that any structure is but a set of stairs to allow for movement toward resolutions and to provide structure. Each Circle is just a spoke in the wheel that nurtures avenues for ideas to move back and forth within the Organism. These are not teaching tools, rather they are avenues for expression.

A Circle of Light begins with the seeking of others to flesh out ideas and begin a move toward presenting to the central Organism responsible for the implementation of the Divine Plan on Earth. Typically, a Circle of Light should have at least 3 Members, and typically will not grow beyond 12. The suggestion of a Circle considering capping its membership to 12 is founded predominantly as a result of observed challenges with communication amongst Groups of human beings. It is also of note that Christ Councils are designed with 12 seats in mind.

Once a formula has been created for 12 it can then be multiplied exponentially to meet the whole of the world population in time. We need only to produce the working of a Christ Council and its outward flowing formations and from there the same formula will apply automatically! This is the way for the New World Governments to come. Politics as we know it will disappear and be replaced by Circles of Light. We see this by how the Hierarchy works.

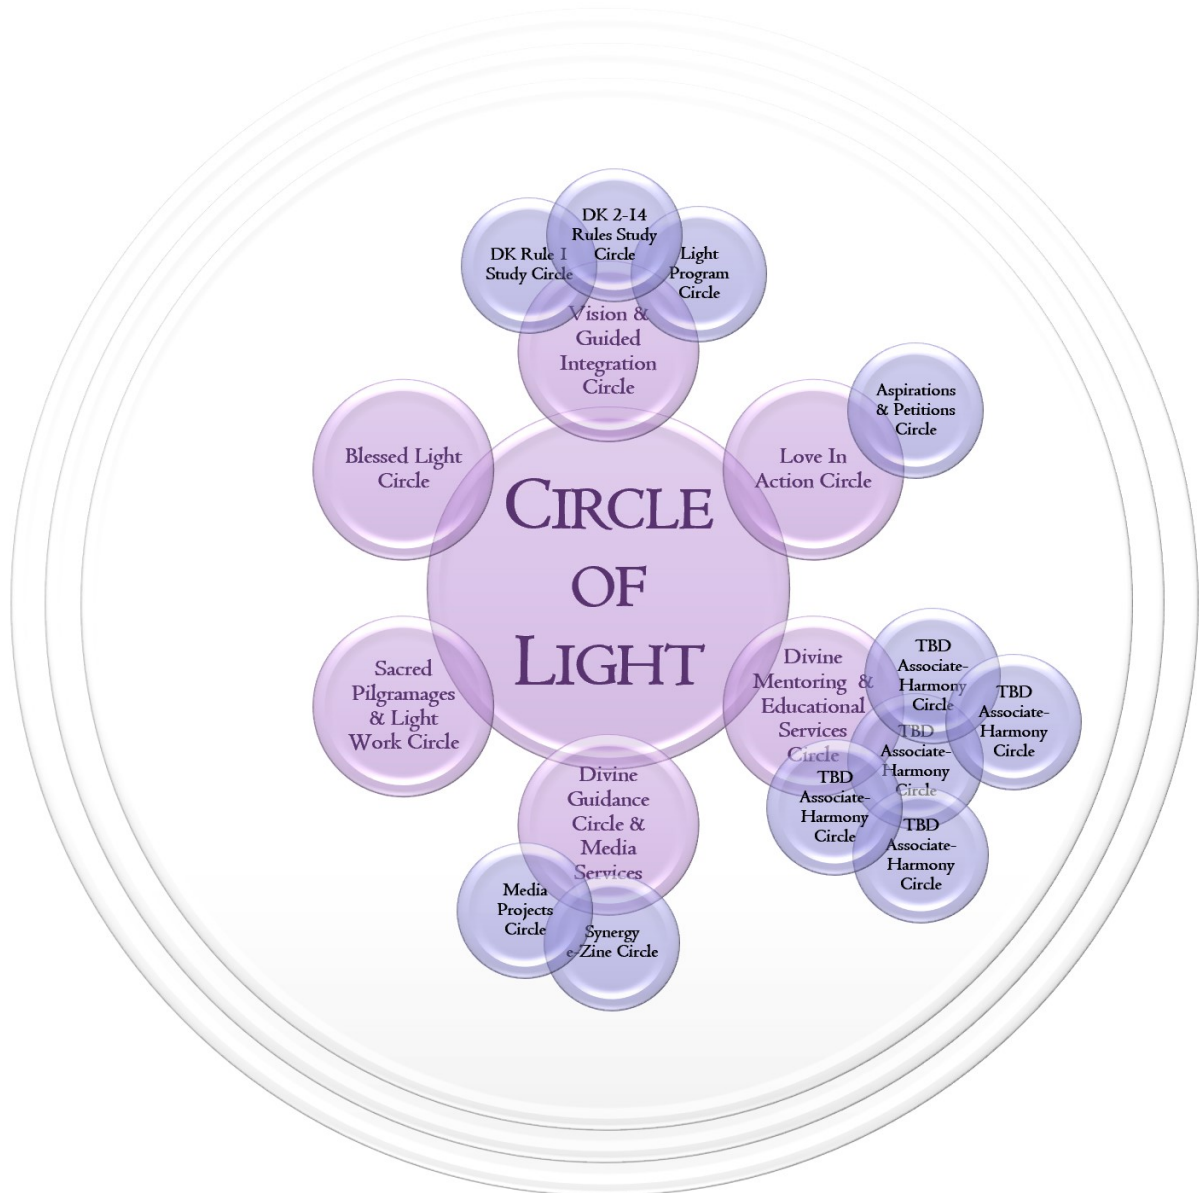

Where Christ Councils can communicate through the Language of Light, the fundamental challenge for human beings is that communication relies on the language of vibration and sound. Without telepathy to transmit whole ideas unfiltered by the ego, and lacking the Initiate's transcendence of the personality ray, communication amongst large Groups of human beings is fraught with challenges. If the Living Organism represents a transitional phase toward the birthing of Christ Councils, then consideration of the numbers comprising Circles of Light is advised to avoid a structure that has proven flaws in the human experience.

The flows in and out of all circles are also without limit. All Circles should be able to communicate with any other Circle. In essence, where the organizational pyramid seeks to control through layers, the Living Organism assumes that members within each Circle are Qualifying their communications with their Mighty 'I AM' Presence.

The approach to growth of a Living Organism is organic, which is intended to support the concept of a Living Organism. Where Boards might form Committees and Sub-Committees in the human context, a Circle of Light can be formed by three or more members coming together on an agreed-upon purpose within a Living Organism.

## A LIVING FRAMEWORK FOR A GROUP LIVING ORGANISM

It is envisioned that Leaders by Example would form the Circle of Light, with any Beloved joining or leaving the Circle of Light as guided by their 'I AM' Presence. It is also envisioned that this hub would likely form other Circles, with a representative from the Circle of Light. If a Circle grows beyond 12 it might decide to birth two circles of 6 members each. Each additional Circle could have a member from the associated Circle and so on. Circles would be free to inspire the birth of other Circles as they see fit. They are responsible to guide the growth of the Living Organism about them, to ensure it is Harmonized.

Some of the potential Circles that could conceivably be formed include:

- **Vision and Guided Integration Circle:** Any Light Program (a Pathway to entry to the Living Organism) and Studies revealed through the Living Organism would flow through this Circle. The intention is to provide an introduction to the Living Organism's Vision, and also to the discipline of the Masters through the study of Hierarchical Teachings to prepare and strengthen Souls upon the journey from the Fourth to the Fifth Kingdom.

## A LIVING FRAMEWORK FOR A GROUP LIVING ORGANISM

- **Love in Action Circle:** Focuses on service opportunities, including but not limited to Invocations. The Invocations might be expanded to include short (half page, single page) invocations guided by the Masters that cover a broad range of devotions. These would be envisioned to easily incorporate into the course of a beloved's day drawing the attention to a wide range of service foci.
  - **Aspirations & Petitions Circle:** Bi-yearly Petition Opportunities to the Hierarchy. These opportunities do not need to be pursued. However, beloved St. Germain has informed us that we are pending following up on making petition requests for God Himalaya, Lady Nada, The Great Divine Director, Godfather Helios and others. These petitions should optimally be prepared to file before the 14th of June or December when the Teton Retreat opens in each of those months.
- **Divine mentoring & Education Services Circle:** This could be an evolving set of circles in time, with divisions encompassing a Living Organism's library of Discourses, books, new educational curriculums and schools for both children and adults.
- **Divine Guidance - Media Services Circle:** This circle would contain the other communication mediums such as e-Magazines and other multi-media projects. It would function synergistically with many of the other circles by providing an array of vehicles upon which to carry Teachings of Truth out to the mass of humanity.
- **Sacred Pilgrimages and Light Work Circle:** This Circle would expand journeys as a Service in Action brought into reality. The need or type of light work for such a Circle will continually change in coming decades due to the cleansing of miasmas and mis-creations and earth work already in place.
- **Blessed Light Circles:** This Circle would focus on Yearly or Bi-Yearly Light Gatherings of Beloveds committed to the concepts of Universal Law and Love in Action through the Divine Plan and invited guests.
- **The Christ Councils:** These Sacred Circles contain a Ring Pass Not and represents a required attainment in Consciousness and Light. They represent the goal for any Living Organism.

Some of these circles would contain a Ring Pass Not, such as Vision and Guided Integrations, the Light Programs and The Christ Councils. Others are optional, such as Sacred Pilgrimages and Light Work and Blessed Light Circles.

## THE OUTER PERSONALITY AND THE LIVING ORGANISM

### INDIVIDUAL ACTIVITY

- A Group Activity is not an individual activity. Your personal issues are an individual matter.
- This is not to say that we are devoid of compassion. If anything, each member is encouraged to surface their individual realizations or questions and engage in an authentic discussion with the budding Living Organism of which they are striving to be an active part.
- That said, in order for a Circle to succeed – to materialize any aspect of the Divine Plan for humanity – we have to have a One-pointed effort in any Group endeavor.

### GROUP FOCUS

- All email discussions should only relate to the Group Project or Activity, not our own personal experiences.
- For example, if we are getting ready to engage in a Project with a short timeline and someone surfaces a personal growth issue then we should support that Soul in a different setting.
- If an individual does come forth with their personal experiences others in the Group are encouraged to immediately shift to a private response, and in turn encourage sharing in a more appropriate group setting.

### MEANINGFUL DISCUSSIONS

- A Living Organism is not formed by a Master bringing you Specific Instruction, or any Teacher talking to you. A Living Organism is worked out by those in the Circle in a series of discussions which really mean something.
- That said, keeping your individual realizations to yourself concerning group discussions is great for your individual work.
- If you wish to actively contribute to the growth of the Living Organism then you will be well-served to authentically and transparently present your understanding of what is alive in you at any given moment.

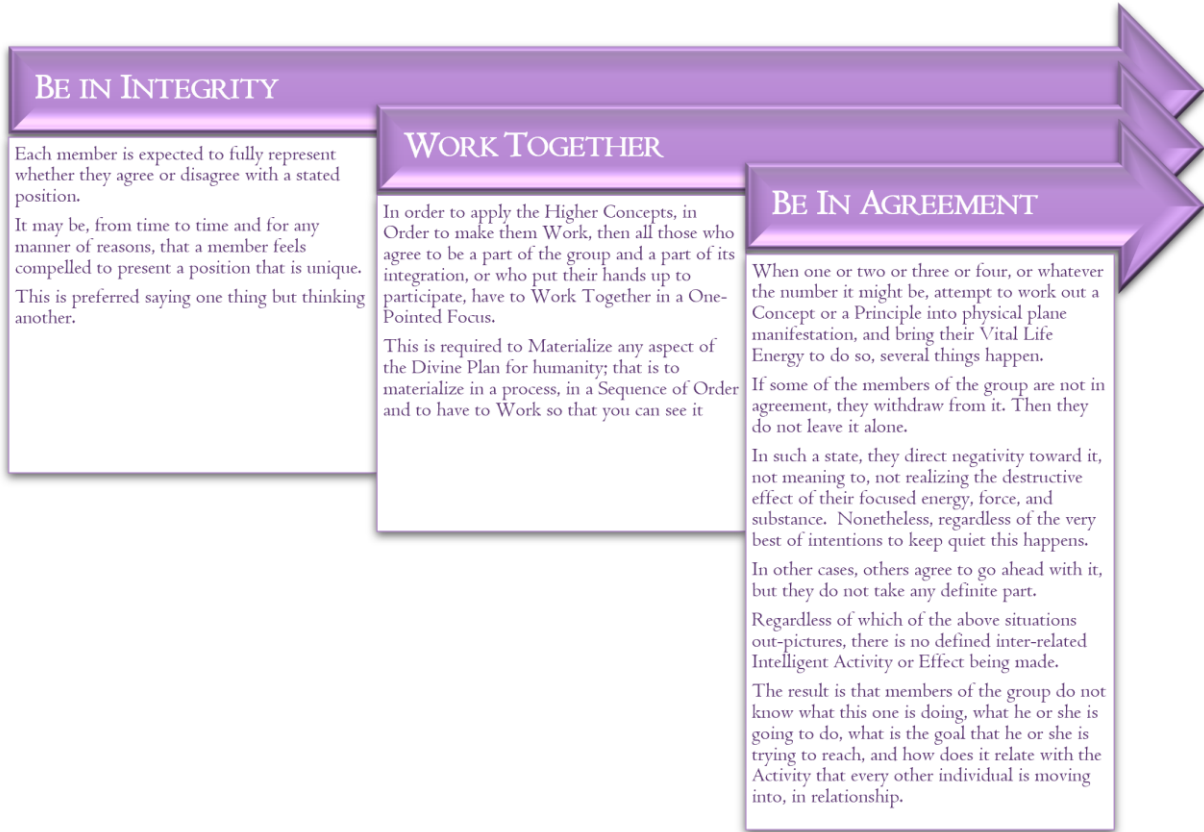

### CIRCLE ACTIVITIES

- Circle Activities will typically involve anywhere from three to a dozen active participants. As such, email traffic can become intense.
- All Circle Members should keep their emails focused upon productive communications, actively seeking to Qualify the 'I AM' in how they engage in the Circle Activity.
- Emails containing platitudes and surface comments, such an email expressing only a note of thanks, can be sent as personal responses to the Member who inspired this sentiment.
- Through such focus the volume of emails will be refined to active contributions toward the objective at hand.
- As the Group develops Its Telepathic Connections, such personal expressions can be taken into meditation and projected through the Throat Energy Centre telepathically at the intended recipient.
- In short, you don't need to write it when you can use such a moment of inspiration as an opportunity to practice your telepathic ability.

When it comes to contemplating how best to consider personal issues within the Group Activity, you are reminded that St Germain States in the [Guiding Intentions for a Unified Consciousness](#) that we are to, *“move, individually and as a Group, in absolute Integrity, Impeccability, Self-Mastery and Alignment to Divine Principle and Universal Law.”*

CIRCLE AGREEMENT

There will be many moments where discussions surface and positions are presented. In such moments each member will be called to express themselves and to indicate their agreement. Given the nature of a free will universe this is necessary and appropriate.

In short, mean what you say.

## A FORMULA FOR GROUP DISCUSSION AND AGREEMENT

The following image summarizes how a Living Organism or Circle might come to agreement. At any point if there is a challenge to solve, Circles inspired and guided can come together (offering a splendid fluidity) in the moment to work through an issue, offer solutions or food for thought and work through to resolution without always moving in a top down fashion.

The following image expands upon the above to offer a suggested sequence of approach.

### STEP 1: CLARITY

Clarity involves checking in with everyone present if they are clear about the item we've been discussing, if there is clarity about the options we have, and what we are being asked to do?

The purpose of Clarity is to make sure everyone understands what they are being asked to decide.

If there is written/verbal acknowledgement of Clarity from all present we proceed to the next step. If there is any uncertainty, we pause and discuss until everyone writes or says "Yes" to indicate that they are clear about what is being decided upon.

### STEP 2: UNANIMITY

This comes down to an agreement by everyone in the Circle.

We are aiming for the best outcome/decision based on what information we have in a given moment. If new information surfaces in our awareness, then the we revisit the decision.

If there is unanimous agreement from all present we proceed to the final step.

### STEP 3: COMMITMENT

Commitment is about making sure everyone is committed to supporting what has been agreed upon.

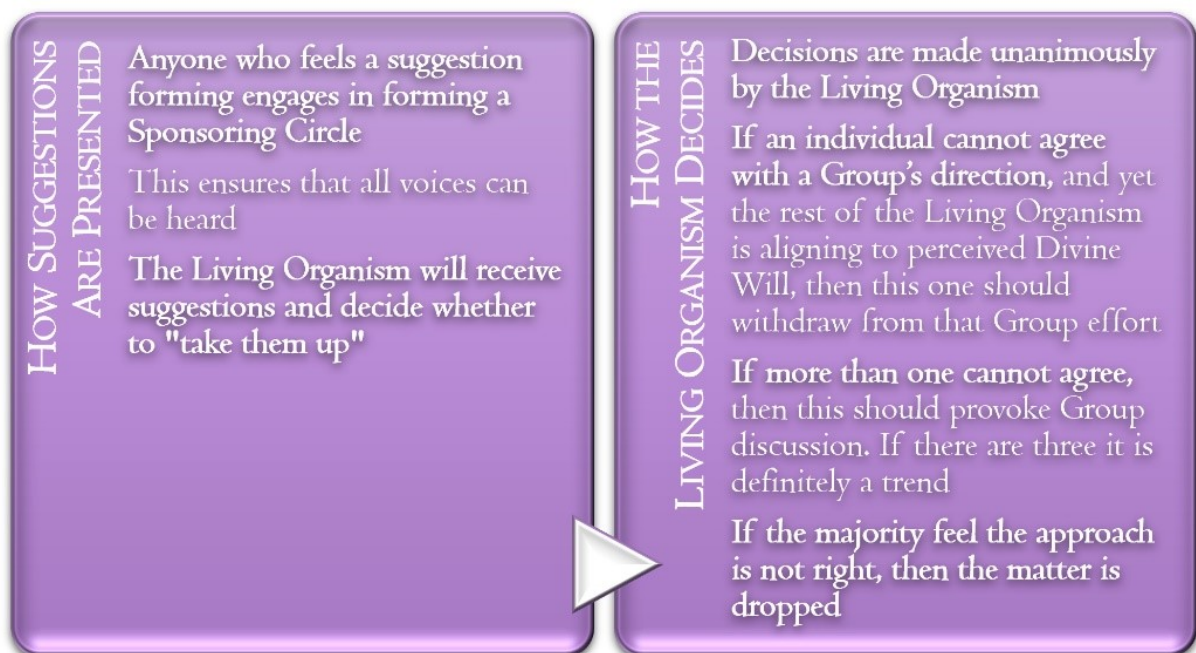

Any commitments required of Circle Members in terms of the time or talent they need to provide are also discussed at this point. This includes any tasks to be noted, the outcome of the task (what will be accomplished), the named person responsible to oversee the task, what date the task is due, and what resources they might need (if known at that point).

Only when everyone has agreed to be committed to the decision being made can we consider the decision made.

## A LIVING FRAMEWORK FOR A GROUP LIVING ORGANISM

The Disciple or Initiate learns to make a decision, or to wield the Energy of Decision, in accordance with the Greatest Good for the Greatest number, that is, considering the effect of this Energy upon all those who lie within that Sphere of Influence. Remember that the Greatest Good for the Greatest number always includes every individual concerned. It does not include the greatest number to the exclusion of a few, but it includes the Greatest Good of EVERY individual concerned. People will need to Learn then, to make their decisions from this perspective, from this point of view, taking into consideration the Effect of the Energy of Decision upon ALL of those lives which will be affected by it.

This is one of the techniques used by the Probationer Disciple as he or she is gaining acceptance within the Ashramic Group Life, one of the techniques which he or she applies as he or she Initiates him or herself into the Life and Affairs of the Ashramic Group Life: that every decision that is made must be the decision of the Whole. This will not be used by humanity as the whole until there is a Greater Understanding, a Greater Identification with the One Life. Even non-action is a result of wielding the Energy of Decision, for that Group has decided not to act.

Some notes concerning the previous image. First, all voices need to be heard:

- Each participant is responsible to understand which of the three Rays within them is predominant (Monad, Soul, or personality).
- It is assumed each Member takes personal responsibility to Qualify how they show up within the Living Organism with the Soul and/or Monadic Ray within.

Decisions are made unanimously by the Living Organism. If an individual cannot agree with a Group's direction, and yet the rest of the Living Organism is aligning to perceived Divine Will, then this one should withdraw from that Circle effort:

- The individual is not left alone. They are still adjunct to the Circle. However, they've stepped back to focus on their own work until it is resolved.
- **If more than one cannot agree**, then this should provoke a discussion within the Circle. If there are three who disagree this represents a trend.
  - While we're still navigating the shadow substance and suggestions before the Circle attains Its Initiation and the Christ Descends, there may be expanding realizations. The Circle should be able to discuss this.
- **If the majority feel the approach is not right, then the matter is dropped.**
  - In this way, the need for voting is removed. The result is unanimity...Oneness.

The vehicle within which you live your Life is Your medium and Your instrument of contact within the three worlds of human endeavour:

## A LIVING FRAMEWORK FOR A GROUP LIVING ORGANISM

- Your thoughts become things. Don't fight it. Don't think there's anything else. Don't entertain the false premises of fate, luck, or a God who judges, withholds, or decides. You decide! You manifest!
- Everything that lives that comes into manifestation, inanimate objects, have their own threefold vehicle of manifestation. That vehicle of manifestation is its mental body, its astral body, its etheric body. These three, in their relationship to one another, give the idea or whatever it is, an appearance in time and space.

### GIFTS, TALENTS AND CIRCLE SERVICE

In a Group project, everyone has an ingredient, gift and talent to offer if they are fully present:

SELF-GLAMOUR

UNANTICIPATED EVENTS

If an emergency comes up during the Project or Activity, let the Circle know that you have to withdraw due to not having 100% focus at that time. If you feel you can contribute to a Circle Project and other obligations have surfaced where you can't give all of your focus, then offer your support to help in the areas you can help with if the Circle needs that additional assistance. Do not join the Circle but offer your help in the areas that you might be able to help. Be a backup in an emergency.

## REQUISITE COMMITMENTS FOR INITIATION TO A CHRIST COUNCIL

Ultimately, a Living Organism might be likened to training wheels on a bicycle. A Living Organism represents the transitional period that spans between the realization by a Light Bearer that they are called to serve in a Circle to the Initiation to Christ Consciousness by the Circle. With the immense shadow existing within both planetary and individual etheric bodies at this time, healing work for the individual is but the preparation for the healing work that must be done by Groups. To be clear, the word *healing* could easily be replaced with the word *revealing*; by leaving the ego personality at the door, the Light Bearer strives to *reveal* the 'I AM' Presence within. And ultimately, making a Pledge to any such Circle of Light where commitment and dedication is required will eliminate half-heartedness and lack of awareness to engage fully focused upon the task until complete!

It is essential that every member of any Living Organism fully apply themselves to whatever commitments they have made with respect to the Circle that they have joined. This is particularly important if the Circle they serve within exists upon the premise that a certain set of activities be completed in order to be considered part of the Circle. Obviously, it is a matter for any Light Bearer who makes a declaration to undertake activities with their 'I AM' Presence. The Law of Karma will take care of any thought, word or action concerning a lack of integrity.

If your participation in a Living Organism is based upon the reading of a book, the completion of a Light Program, then the Living Organism can only assume that your actions are in integrity with your words. And ultimately, a Living Organism can only thrive where there is conscious growth and activity. Members of a Living Organism are expected to be constantly engaging in all Group Activities that may unfold. If you find yourself contending with worldly commitments then you have obviously created an opportunity to heal the paradox of serving two masters. One cannot serve two masters, and it is imperative that all Disciples in a Living Organism that aspire to Initiation as a Christ Council live by the Guiding Intentions for a Living Organism.

Beloved Ones, surely you must understand that you cannot serve two masters and gain any victory ahead. Having free will, you must choose. If you choose the outer, forgetting your Invincible 'I AM' Presence, then My Love goes with you, as you go your own way, enfolding you in Its Mighty Mantle of Protection until such time as you choose to return to the One God.

If you choose your 'I AM' Presence and adhere to It, then your struggles will soon be over, and you will find yourselves moving in that Sphere of Peace, Harmony and Perfection wherein you look upon the outer world with great compassion, but never with that human sympathy which would stifle your own growth.

## **SECTION 2: THE STUDY – PREPARATION FOR EVOLUTION FROM LIVING ORGANISM TO CHRIST COUNCIL**

As humanity evolves and prepares to evolve from the Fourth to the Fifth Kingdom, the hurdle of existing conscious paradigms must be overcome. However, the challenge with Breathing Life into Living Organisms is that personality projections **MUST** be left behind.

The entire premise of forming a Living Organism comes down to each person within the Group overcoming the spiritual ego. And this is the crux of both the situation and the challenge for a Living Organism. At the time of this draft's creation, every spiritual Group on the planet has been formed atop of worldly patterns and structures that contribute to how hard it is to overcome the spiritual ego. Humanity doesn't know any other way of approaching the organization of Groups of human beings. If overcoming the spiritual ego is the hardest work for the individual, consider how much harder it is for a Group!

The second section is more akin to a study, within which Hierarchical Teachings concerning a Living Organism are presented. The intention at this stage (remember that this is a Living Document) is for seeds to be planted and for Discussions to unfold. New structures for governance are presented. And ultimately, a new Framework, devoid of any old paradigms must be implemented and grounded.

### **PREPARING FOR CHRIST COUNCILS – THE LIVING ORGANISM**

The evolution of humanity will always include the integration of Higher Truth. The evolution from organization to Living Organism requires members to stop thinking, speaking and acting from the old consciousness paradigm. Without this shift, the Divine Plan cannot be fully implemented and grounded.

A Living Organism as a Christ Council is about 12 coming together in total and complete alignment of One Heart and One Mind, One Focus and One Intent.

COMPARING “CHURCHIANITY” AND NEW WORLD CHRISTIANITY

OLD WORLD "CHURCHIANITY"	NEW WORLD CHRISTIANITY
	
<ul style="list-style-type: none"><li>• Individuals express themselves, not the Christ</li><li>• Individuals impose their interpretations of truth on truth itself</li><li>• Our truth is superior to <i>theirs</i></li><li>• Individuals continue to build upon organizations in every land</li><li>• A Living Organism is non-existent</li></ul>	<ul style="list-style-type: none"><li>• Will <i>be</i> the Truth, expressing the Christ</li><li>• Truth will be unfiltered</li><li>• Religion in the New World will be a Living Organism</li><li>• Christianity will be expressed through the creative activity of the Christ Spirit</li><li>• The Christ Spirit will flow through the medium of the world disciples and initiates</li></ul>

Any existing organization that aspires to the vision of a Living Organism must go through a regeneration and rejuvenation, be aligned to the New Cosmic Consciousness Grid and disconnect itself from the old human dream or outdated perceived instructions or perceptions.

Old paradigms cannot survive within the new world, not at any level. This Requirement of the Living Organism is not limited to any structure, formula, focus, purpose or intention. If those within a Group come from the old mind and connected to the human consciousness grid, then that which forms around them will in time all fade like the sunlight at sunset. There shall be no transmutations, transformations or transfigurations from the old into the new, without the new Cosmic Heart connections being grounded and fully integrated within the Heart of each human being involved.

**THE LAW OF THE CIRCLE:** governs all manifested life, from the smallest molecule to the Godhead Itself. Every expression of life is endowed with a certain amount of energy, according to its needs and development, and is, therefore, given an opportunity for better living with each indrawn breath.

It may not be generally understood, however, by the majority of mankind that they, as self-conscious expressions of life, are held responsible by Cosmic Law for every particle of this precious energy drawn from the Heart of the Godhead, nor that this energy is charged, by Divine Edict, with absolute obedience to man's will and command. This is highest expression of God's Love and Generosity to His children.

This Light Energy is the channel over which vibrations travel. The distance it covers depends upon the intensity with which it is projected, but both on its outward and homeward journey it obeys the Law of the Circle, and while it is absent from the aura of the individual who is responsible for its projection, it

attracts to itself vibrations corresponding to its own rate, so that by the time it completes its circle and returns home it is accompanied by a goodly number of the same quality of thought and feeling vibrations with which it started.

There is never a mix-up in the return of anyone's energy; each returning wave knows unerringly its own generator as the Cosmic Law is exact. The moment the returning energy touches the aura of its projector it settles down, as it were, and begins to germinate seeds which produce a harvest according to their nature. If the outgoing energy was harmonious and kindly, the return to the individual will be peace and plenty; if the thoughts sent out were of a discordant or harmful nature, then the harvest to the individual will be correspondingly bitter. Jesus made no idle statement when he said, "as ye sow, so shall ye reap."

**THE LAW OF RETRIBUTION:** The Law of Cause and Effect and the Law of the Circle are synonymous and refer to the same aspect of the Cosmic Law. While it has worked unerringly in its consequences in the experiences of mankind, they would be far wiser and safer to live within the Law of Harmony until the Love element within has developed to a point where they want to abide by Love rather than the Law. Jesus said, "Moses brought you the Law, I bring you Love."

Under the New Dispensation, man's attention is again being turned to the Christ within his own heart. He is being told to raise his eyes to the perfection of his own Archetype, made in God's image and likeness, and is being taught the power of invocation by which he may call to his Eternal Father to restore to him his Eternal Divine Memory and to reveal to him "the Glory which he had with Him in the beginning, before the World was."

**THE LAW OF THE CIRCLE:** states that every new creative endeavour must begin from within the Still Point of Will/Power, the Core Essence of the Creator/co-creator.

**THE LAW OF THE TRIANGLE:** is another important component of Creation. You are familiar with the Trinity concept from your Bible: Father, Son and Holy Spirit, which in actuality is the Masculine facet of God, the First Ray of Divine Will/ Power, and the Holy Spirit is the Mother Facet of God, which has been infused with the Seed Thoughts—Adamantine Particles—from the mind of the Father God. The Seed Thoughts are then activated with the Second Ray of Love/ Wisdom within the Heart Core of the Mother God and then sent forth out into the universe via the River of Life, to be used by the Suns (Sons and Daughters) through the qualities, attributes and aspects of the Third Ray to create worlds and wondrous things without end.

Rosicrucian's have one fundamental law close to their hearts. It is called the Law of the Triangle and forms not only the basis of all mystical endeavour but is also recognized by science as the basis of all

physical manifestations. It is essential that we deeply and indelibly impress upon our consciousness the concept that there are always two causes to everything that happens. Every phenomenon necessarily results from an active and a receptive cause, being a product of the union of two qualities that we arbitrarily call positive and negative. Of course, using words like positive and negative is done in a mystical sense only and there is no inherent good or bad implied in either word. The positive and negative are merely two points of a triangle, the third point being the manifestation of the union of these two points. There are two causes to every manifestation which in turn occurs at the precise place and time of the union of these two causes. As the saying goes, it takes two to tango, and it takes two causes for every effect. The plug fits into its socket, the key fits into its lock; not just any socket or lock; only the correct ones will do.

The first principle of the triangle is this; A force all by itself cannot produce any result; there must also be some condition that is susceptible or responsive, that can be affected by this specific force. While this may seem self-evident, it really is unorthodox. We have been taught, of course, to discriminate between cause and effect; but is it not popular logic that a cause produces a result? Or that an initial cause (1) produces a result (2) which in turn might cause another result (3) and so on- a chain of events in which each result becomes another cause, like dominoes falling one against another? This logic is superseded in the principle of the triangle. It is not that there are two causes for every event, but there are two parts in any cause; a force and a condition.

The second principle of the triangle emphasizes that these two elements must be fundamentally different, not two forces or two conditions, but of different nature-one of them active and the other receptive. If one gives a push, the other must be "*pushable*". In hermetic literature these two factors have been represented variously as active and passive, or creative and plastic, or positive and negative, or even as sun or moon, or male and female.

The third Principle is the result, not through the first element and second element being inflexible of that which is 'pushable', but like the ebb and flow of the tide being flexible and permeable with the allowance of such a flow where both elements allow without resistance the interrelatedness of the free movements of that which the forces came together.

## LIVING ORGANISMS AND SYNTHESIS

At the heart of the idea for Living Organisms is transcendence of how organization unfolds. The central question is how do we best organize on the ground, amidst humanity, without falling back into old habits that human organizations have been cultivating in the Planetary Etheric Body for millennia?

### INITIAL INTENTION

This Living Framework is an effort to begin to conceive a new Living Organism and transfer it to an initial Group of Disciples. This begins through the integration of consciousness initiated by Disciples. In turn, as this Living Organism is developed, it will empower Disciples in the same way in which the Hierarchy functions in relationship to the Disciple. Ultimately, it is expected that each Disciple then begins to form his own small Ashram which is a reflection in consciousness upon a lower level of that Ashram within which he finds his place.

Below the level of the aspirant is the mass of humanity. Just as the Hierarchy must relate the Disciples to the aspirant, the Disciple must relate the aspirant to humanity. So that those aspirants must be inspired and impressed to serve humanity along those lines which are dictated by the Divine Plan.

### THE EFFORT OF THE SYNTHETIC ASHRAM

Now consider the effort of the Ashram to focus the new initiatory process which alters evolution itself through a Group endeavor into the body of humanity. Any Disciple in the past seeking initiation could find within his own society, within his own etheric framework, the path, and could then follow that path, whatever his particular doctrine or concept might be.

The new path for the Living Organism has not been created within the consciousness and the etheric network of humanity. This is our task. This is the effort of the new synthetic Ashram on its own level, the creation of the new initiatory effort and through this incarnate Group, the out-picturing, the implanting of that path for and within both consciousness and instrumentality of the whole human family.

In consciousness, then, in the incarnate sense, you are (and I refer to the whole incarnate Ashramic Group) a seed consciousness being implanted within the consciousness of humanity. **In energy, force and substance you are all on the new path of initiation, which in turn is in process of being constructed within the body of humanity.** I would have you consider this. This, then, is why initiation as a concept itself, and understanding of that concept, is of vital importance to every unit of consciousness functioning within this Ashramic endeavour.

### THE NEW PATH; A TREMENDOUS OPPORTUNITY

The new path, the new way, is a result of a tremendous evolutionary growth which has been realized from the highest state of consciousness within the planetary life and affairs in varying degrees, down to the lowest. In the last 2,500 or 3,000 years the Planetary Logos (and this includes all of his life and consciousness) has made a tremendous progress, a tremendous growth. So great that He has moved out of the old karmic necessities into an entirely new condition of growth which does not necessitate the

long, long path of trial and error, the long, long path between the pairs of opposites, which have characterized His evolutionary development in the past. This, then, is a tremendous victory, and at the same time a tremendous opportunity. This is the conscious initiatory effort which the Planetary Logos is making on his own level of cosmic interplay. And it means far more than I can convey to you at this time to the whole of the Cosmos.

The true Ashram (of which the coming outer Ashrams will be but reflections) is not for lower concrete mind discussion. It is a focal point of receptivity; it embraces the effort to establish mutual contact through a united recognition of the vision, of the esoteric basis of life and the laws governing action. It is not a place, however, for long and silent meditation processes, for **it is a point of tension where, together, the Ageless Wisdom in its more esoteric aspects is discussed, where the nature of soul relationship is recognized and where the fusion of auras and the inter-blending of the “Triangles” goes forward consciously.** An Ashram is the state of mind of a spiritual Group. It is a point of united thought; it is a centre for the clarification of the vision and not of physical plane methods of work. **As Disciples learn to integrate themselves into a Master's Ashram, they discover that the first thing they have to do is to establish a basic harmony between themselves and their fellow Disciples and to reinforce the contact between their own souls, the Ashramic Group and the Master. Then they learn to comprehend—through discussion and experiment—the nature of the energies which are seeking world expression, and the nature of the forces which must be reduced to powerlessness, if these new incoming energies are to prove effective in bringing about the desired changes under the Plan.**

They learn also that there is no weakness and no strength in themselves, as individuals, which may not be submitted to the Group “gaze”; thus they arrive at the stripping away of all the “veils” which prevent the clear light of the soul from shining forth. The goal of all work done in the Ashram of any of the Masters is Truth—on all levels and at all times. As Disciples learn thus to work from the point or centre of Light, understanding and truth into which they are being steadily integrated, their exoteric usefulness and effective service will be greatly increased; they will—as a Group—know what has to be done and find eventually that it is done.

#### THE MAJOR TASK OF THE MASTER

The major task of the Master in the early stages of training a Disciple is to bring to an end the period of intense preoccupation with self, with their service, with their reaction to the Master or the promise of future contact with the Master, with their own ideas anent Discipleship and their personal interpretations of truth. The Master takes a Group of people with fixed ideas (which they are entirely sure are correct, being the best and highest they have been able to grasp to date) and with the conviction that they have reached a point where they have registered certain spiritual values and concepts, where they have evolved

their own formulations of truth and where they are eagerly demanding the next step. The first thing, therefore, which He has to do is (using a strong and perhaps a strange phrase) to blast them wide open, give them a deep sense of insecurity as to the formulas and symbols of the lower concrete mind and so prepare them for the reception of newer and higher approaches to truth. This is frequently brought about by forcing them to question all the conclusions of the past.

We have all—Disciples and initiates of all degrees—to enter the secret place of initiation with a sense of blindness (or loss of direction) and with a feeling of complete destitution. The Disciple needs to bear in mind that they have to become “a moving point and hence a line”; they ascend towards the Hierarchy and assume the correct spiritual attitude but, at the same time, they descend into what they erroneously regard as the depth of human difficulty and iniquity (if necessary), preserving always their spiritual integrity but learning three important lessons:

1. The recognition that they share all human tendencies, good and bad, and hence are able to serve.
2. The discovery that the thing which they most despise, and fear is the thing which exists most strongly in them, but which is as yet unrecognized. They discover also that they must explore and know these despised and feared areas of consciousness so that they become eventually an asset, instead of something to be avoided. They learn to fear nothing; they are all things; they are a human being, but they are also a mystic, an occultist, a psychic and a Disciple. And—because of all these acquired states of consciousness— they eventually become a Master. They have “mastered” all stages and states of awareness.
3. The uselessness of past attitudes and dogmatic ways of looking at life and people (based usually on tradition and circumstance) when they separate them from the mass of humanity.

When they have really learnt these three things, they are Initiate.

#### REPRODUCING THE FIRST STEP WITHIN THE THREE WORLDS OF HUMAN ENDEAVOR

Now this was begun at Hierarchical levels some time ago—the subjective activity, so that as you came into incarnation in this particular time and place you came from the Ashram, from the focused intent, let us say, to carry out the first step in the objective activity or efforts of this new Ashramic endeavor. Now realize you came in for the first time motivated by a new intent, entering for the first time into a cycle of activity both subjective and objective. It has a cyclic relationship to the purpose itself, for your incarnation upon the planet at all, for your being within the planetary life and affairs, so that not only is there the required adjustment to new conditions and circumstances on every level, but a required adjustment to the tremendous stirring up of old patterns, old memories, old relationships.

## A LIVING FRAMEWORK FOR A GROUP LIVING ORGANISM

Now after this first step was taken within the Hierarchical field of activity of the Ashram as it exists, it must be reproduced within the three worlds of human endeavor (mental, emotional/astral, etheric). All of those souls who function within the synthetic Ashram must be brought together in the physical sense to create the vehicle within the three worlds of human endeavor through which the Ashramic Group consciousness, through which the Ashramic plan, and the focused intent of Divine Ashramic Purpose, can move out into manifestation, out into its service activity.

**Now consider this small Group with which you are familiar, the small Group with which you are acquainted has been the easiest to bring together. Those of you who have been attracted into a Group formation have been easily attracted because fortunately you came into incarnation with this purpose; your particular karma did not in most cases place you within another Ashramic effort.**

Now there are those souls working within the new synthetic Ashram whose personalities have not yet shifted from the Ashramic endeavor within which they were formerly focused, into the new one. This is a most difficult change to make, for these personas are more highly, in some respects, evolved than are you. They are more perfectly oriented within the Hierarchical field of activity, and the impress made upon the persona forces then in the past is much greater, much more powerful. Thus, these personas find themselves in a period of tremendous upheaval. The Divine motivation formerly impressed within the persona, within the energy, force, and substance of the persona by the soul, seems to be now in conflict with the new impress coming in. These personas, servers in the world of affairs, are receiving the focused intent via their own alignment with their souls of the Ashram to move them into the new effort, and this is creating tremendous difficulties for them. They cannot help but be naturally antagonistic to this effort when they make their first contact with it. Because this effort is the effort toward which on soul levels they are rebelling. It is the effort which is pulling them out of the groove in which they have become well established in their service activity.

Now subjectively in the three planes of human endeavor, mentally, astrally, and ethereally, you are receiving much of this impact, though you are not particularly aware of it. Now this is almost incidental to the major part of my projection. I am giving it to you primarily for clarification and as preparation for that time when physical contact will be made with some of the Disciples.

## **SOME OF THE CHALLENGES TO ESTABLISHING THE FUNCTION OF THE LIVING ORGANISM**

The effort to establish the function, whether for the individual Disciple or for the Group, meets with several major problems that are predominantly and characteristically the major problems of humanity itself at this time.

## A LIVING FRAMEWORK FOR A GROUP LIVING ORGANISM

For instance, humanity is caught up in the prison of the world of material necessity. Every human being within the present civilization, regardless of their economic status, if they are a useful individual (and I am not referring now to spiritual usefulness) within the system, has their attention caught up within and demanded by the material necessities of the civilization which they have built. This is much greater than you have any comprehension of because most of you are not acquainted with that area of human life which devotes itself to the service of humanity in a large capacity (such as having a business, or statesmanship where the demands of the material world demand the whole focus of attention of the individual concerned). Yet the overshadowing spiritual soul of humanity is attempting to demand the attention of the incarnate consciousness as well, and this is one of the major problems of humanity; the need to maintain the attention fixed within and upon the material world. It is a problem that humanity, as a whole, must overcome in order to work out its particular problems insofar as its growth and development is concerned.

Now this problem, while it is not so obvious within humanity today at this particular time (that is, the conflict is not so obvious) is brought into sharp focus when a Disciple endeavors to serve in this particular function (which, remember, is the focal point for the interplay between the higher and the lower). This problem then is brought into a very sharp focus. The demands of the material world is one of the obstacles to human progress at this time (and I speak in terms of their evolutionary development, not as material progress). The problem of these demands is brought into sharp focus in this function so that the Disciple endeavoring to serve the function finds themselves in the position of focusing the spiritual demand of that which overshadows. They are focusing the spiritual demand of the soul for its own incarnation, for its own growth and development. They are focusing the spiritual demand of the planetary life itself for its evolutionary growth and development, but at the same time they are a human being, a member of humanity, and they are focusing the demands of the civilization within which they live.

Thus, they are caught in the conflict between these two demands. They are caught up within the duality of these two demands and find it very, very difficult to shift, to bring about that balance which will result in a shift of activity from the pairs of opposites into the polar opposites which serve one another.

### THE CHALLENGE IS FOR THE ENTIRE LIVING ORGANISM

Contrary to all the interpretations that have been made throughout the Group and that various Disciples have come to (regardless of these decisions and these evaluations brought into a sharp focus through the Disciple) their problem is not their problem alone. It is a twofold problem. First, it is the problem of the overshadowing soul consciousness of the entire Group, of the Ashram within which they are affiliated. Second, it is a problem of that Group, that humanity, that they are serving in this two-way focal point. It is the problem of all of the consciousness within which they are related, both in the higher and the

lower sense. They cannot, and they will never, solve the problem by themselves. The same thing is true of the Group as it endeavors to serve its similar function. The entire Ashramic consciousness within which the Group finds its human relationships are responsible for the working out of the problem itself. The problem belongs to the totality of the consciousness and not to that focal point which is giving it such a sharp emphasis.

**Therefore, regardless of how many brave, noble, or not-so-noble, or not-so-brave decisions that might be made by any individual attempting to serve this function, THE PROBLEM WILL NOT BE SOLVED IN ORDER TO FREE THE FUNCTION ITSELF UNTIL THE ENTIRE GROUP COMES TO GRIPS WITH IT.**

The world that humanity has created has become a prison, and it claims humanity and humanity's efforts. It claims humanity's resources, it takes everything that humanity is and has to give at this time unto itself. This is the primary problem. **UNTIL THAT CIVILIZATION, UNTIL THAT MATERIAL WORLD WITHIN WHICH EACH ONE OF YOU FIND YOURSELVES HAS BEEN RENDERED IMPOTENT IN ITS DEMANDS UPON YOU, THEN YOU WILL NOT BE FREE.** You will not find yourselves free to serve this function or whatever your particular function might be. This is the first major problem of the Group. It is an economic problem. I do not mean it the way you interpret this concept, but in its overall sense it is an economic problem.

The Disciple finds themselves apparently within this world with all the problems of humanity. Each Disciple will carry their particular share of those problems according to their relationship with them.

**The fundamental objective of the Group aspiring to be a Living Organism is to solve the problems of humanity as a Group. This is their service to the Plan, to resolve and to solve these problems within their field of activity. Thus, they serve the Divine Plan for humanity as well as their own evolutionary growth and development. Everyone within the Group contributes to the overall solution but cannot not find themselves free of the problem until the entire Group gives it their attention and contributes to that solution.**

**THE ENTIRE GROUP MUST WORK TOGETHER IN A CO-CREATIVE AND CO-LEADERSHIP BASIS**

The Group meets these problems of humanity and remember that this particular problem manifests differently within the body of humanity. Humanity does not manifest the conflict because it is not aware of the spiritual demand being made upon it. The Disciple IS aware and is therefore caught up within the conflict of how to serve the spiritual demand and at the same time meet the needs and necessities of this material civilization. This is a major and basic problem that the initiatory effort of the overall Group life

will resolve as it serves its function. This is a part of its service to the Divine Plan for humanity. When this problem is solved then another one will take its place for this is the way in which the Group serves to bring in the new civilization.

You do not truly have a problem that is not a problem of the Group. You are beginning an effort which will take a 2500-year period to complete. You cannot do it all in this incarnation. Each can contribute, each can resolve to some degree in cooperation with each other, step by step, these problems as they come up. No one individual can solve the problem for the Group or even for themselves. They may find ways to alleviate the condition; they may find ways of easing and of helping to work through the problem. But they will not be able to resolve it in totality, for this takes the combined effort of the entire Group working together in a co-creative and co-leadership basis.

The technique and the resolution itself and the freedom will be identical for each. The outer appearances may differ—will differ.

Do not think for a moment that those of us in the Hierarchy who are working with you would not welcome any one of you whose capacities are such that they could be put to work on a full-time basis. In other words, this problem of yours is a problem for us. We must work it out differently than you do because we cannot endeavor to solve this problem for you. We can only solve the problem this presents for us.

The problem that the Disciple in this Ashram is faced with as they endeavor to initiate their service activity, as they endeavor to enter into that first assignment of reproducing the Ashramic Group life within an adequate vehicle on the physical plane of affairs, is that the Disciple individually and collectively is faced with the problem of serving their function within the world of affairs. And it cannot be met by any of the ordinary means which you are familiar with. You have endeavored to solve this through the utilization of forms with which you are familiar. These forms were created to serve the material world of necessity rather than that of spiritual necessity. Again, as you work through these problems you may alleviate them, but until you are able to bring in a new idea that has a perfect relationship with this, it will not truly be resolved. This is how you initiate your service activity; you work it out then for the larger Group (the world Group) which will eventually come into the Synthetic Ashram. You work it out for humanity. This is the service the new Ashram has to render.

DISCOURSE I (PAGE 2/5)

The Formula of Revelation when rightly used shall bring about these Revelations:

- a. The Revelation of Group feeling.
- b. The Revelation of the Master as He is, the Centre of Light and Power within the Circle.
- c. The Revelation of the Point of Life at the Centre of all forms.

These effects, resulting from right comprehension of the Formula and many others, might be regarded as reactions, automatic and inevitable; I used this word “reaction” for these reactions are frequently, and I might say usually, unconscious and it is only gradually that the Disciple or Initiate wakes up to the fact that by quiet reflection upon the formula, certain expansions of consciousness, a greater sensitivity and an intuitive recognition of the hitherto unseen and unrealized have wrought definite changes in his subjective nature. He or she does the required work and the results naturally and simply happen.

Here is a hint as to the need for occult obedience. I have the responsibility of indicating to you the work I want done and the steps to be taken. You subsequently have to do the work. Most of you, living normally as you do in the world of effects and not in the world of causes, are preoccupied with the possible results and the phenomenal differences, if I might call them so, which are expected by you to eventuate from the work. Therefore, instead of concentrating upon exactitude of Work and meticulous Obedience, your energy goes into the thought of what will happen, into the consideration of the difficulties of the work, and into your belief that no results are demonstrating in your particular case.

**Primarily, what I am doing in giving you these formulas is to aid you to work in the world of causes and so draw you consciously out of the world of effects. Therefore, I would ask you to do the indicated work, to concentrate your minds upon these formulas of power, “working without attachment”, and refrain from looking for results, knowing that they will be there, even though they may be unrecognized by you, until your focus is more definitely subjective. I did not say “introspective,” My Dear Brothers and Sisters, but “subjective.”**

To be an introvert really means that you, as a thinking personality, are always looking in to your inner feeling and thought life. That is not living subjectively; it is living as an outer observer who looks within. **To live subjectively means that the focus of your consciousness is within and that from that point you look in two directions: outward at the personality upon the physical plane and inward at the Soul.** Ponder on this. The distinction is very real and one that you should grasp. The man or woman who knows the

difference between living an introspective life and a subjective life is well on the way to becoming a true esotericist.

The responsibility of this Group is Purpose. It shall be fused and blended and dispersed. I charge you to waste no time in idle speculation, but to carry your responsibility as it should be carried, remembering that your only value is Group determined. Placement determines effort. I suggest that you analyze this statement. Consequences are hierarchical. There is lowered vitality in the world today due to a fear psychosis. The reality is that the majority of humanity has lost its connection to Reality, and it shall be these Teachings that assist in returning you to the Inner Knowing and Conscious Revelations of your Connections to the Universal and Planetary Consciousness.

You have preserved your interest and effort for many years now. Can you continue with this Group Endeavour? It is for you a task of perseverance and of faith. You may not in your various lifetimes see the world results; that I frankly tell you. You can undoubtedly realize and reap the benefit of the Group results, for your fusion into one close bond of Brother and Sisterhood and devotion, into one United Band treading the Path together is adequate reward. It will offset the usual loneliness of the Disciple's way and enable them to realize that they do not travel alone.

Above and beyond your personal compensation, which some of you know already to be your Group relation and its persistence, will be the building of an aspect of the mechanism of contact, Divine Intervention, and of approach which can be known and seen by Us from the other side of life, but which has to be largely taken on Faith by you. It might be regarded as the mechanism of inspiration, for, in the last analysis, it is individual and world inspiration which is the Goal of all Our Work.

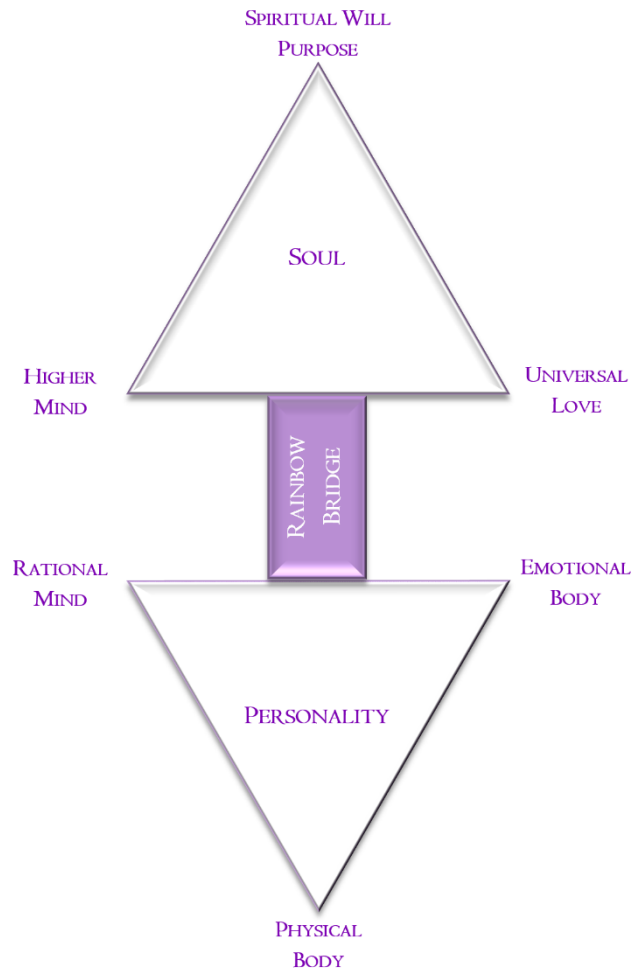

This mechanism is a subjective fact and is slowly built as Disciples and Initiates aspire and serve and obey. It is an individual mechanism, and a Group mechanism, and will eventually form part of the mechanism of humanity, viewing it as a whole and as the Fourth Kingdom in nature. This Kingdom is destined to act as a transmitter of Force, of energy and life and of inspiration to the three sub-human kingdoms. It is this mechanism which will constitute the Bridge between the Fourth and Fifth Kingdoms. It is the Individual and the Group Antahkarana.

Within this Directive of this Discourse, I will very briefly outline for you some of the new developments which are becoming a New Reality if the Disciple or Initiate will rightly focus and orientate themselves with the Work of this Divine Plan. There are within latent potentialities in all here who are reading this, the possibilities are great indeed. If you will pause and consider what I am going to say and ponder a little more deeply, you will realize that the task of the Master in the past, as He sought to prepare the Disciple for Initiation, was largely concerned with awakening him or her to the need for occult Obedience, for right Orientation, for Persistence, and for Devotion to his or her Objective.

But all that now lies far behind the true present-day Disciple and Initiate. Today, in the Era of the New Golden Age, the Age of Aquarius, the Master indicates to the Disciple or Initiate, the overshadowing cloud of Knowable things; The Master assures him or her that he or she has within them undreamt Powers which will, when brought to the surface of consciousness, demonstrate to their own Essential Adeptship and enable them to share in the Great Hierarchical task of Illumining, Precipitating, and Lifting others through Visions, Ideas and Ideals for Higher Consciousness to be Understood and Accepted as Real, no longer illusory or unattainable.

Today the Master, having done the above, leaves the Disciple to Work through to Knowledge and Cooperative usefulness. He neither pushes the Disciple or Initiate into premature action nor constantly Supervises them; He surrounds them with the Aura of His Presence and the Protection and Stimulation of His Ashram; He gives them occasional hints, and as the Disciple Acts and Works upon the hinted suggestions, the hint becomes a Clear Direction and a Luminous area of Enlightenment.

**DISCOURSE 2 (PAGE 2/6)**

Humanity, as has often been said, is now the World Disciple. Why is this? Primarily for two reasons:

1. Men and women are rapidly awakening mentally. The whole world is thinking, primarily along political lines and along lines of current ideologies. Even people's long dormant thoughts are now convulsed by mental processes. This shift in human consciousness involves a rapid focusing of human intention on mental levels. This mental polarization is essential to Discipleship. It is as yet a general trend, but much progress has been made as a result of the tension of chaos and environmental disturbances, especially wars and world conflicts.
2. Men and women are rapidly developing and understanding goodwill. The world is full of movements for relief and for the amelioration of human distress, and this from the point of small and large communities and also nationally and internationally. To this, many analogous charities

and well-intentioned affiliations of men and women everywhere bear witness. This indicates not only a mental polarization, but responsiveness to the Love Nature of God; these together indicate a fusion and a sensitivity which is new in human history and which is most encouraging, testifying as it does to the success at last, of the Evolutionary Process.

The time, therefore, when the Hierarchy had to deal almost entirely with the emotional devotee is past, and this has come about far more rapidly than had been anticipated. The task of the Masters before the eighteenth century was to take emotional Aspirants and train them in the technique of mental polarization, prior to permitting them to enter Their Ashrams. This was the best that could be expected, and in the last analysis was all that was required, because mentally polarized, Aspirants to Accepted Discipleship, would have been of little use in the work of lifting mankind nearer to the Light; the Ashrams exist primarily for that purpose. But the mentally focused humanity of today cannot be reached by emotional workers alone. The mental approach is called for and a Higher type of Disciple and Initiate is needed.

#### DISCOURSE 2 (PAGE 3-4/6)

Instead of the past objectives, contact with the soul and entrance into an Ashram, the following might be listed, but must be understood esoterically and not literally:

- **A sense of planetary relationships.** Instead of the emphasis being laid upon the relation of the individual to his soul, to his Master and to the Ashram, his consciousness is consciously expanded (if I may use such an apparently redundant phrase) in order to bring about a realization upwards into kingdoms hitherto unseen and unknown, downwards into kingdoms which we call subhuman, outwards into the human environment and into the human kingdom, and inwards (a meaningless word, My Brothers and Sisters) toward Divinity itself. This means towards Synthesis, towards wholeness, towards the sense of the entire, towards totality. For all these four directions (of which north, south, east and west are symbols) there are specific techniques, but today I may only indicate direction.
- **A sense of “intelligent supervision”.** This must be esoterically understood. What does this mean? One of the most deeply spiritual qualities which would-be Initiates must unfold is the constant recognition of a focused control upon daily life, circumstance, the future and fate. This is as yet an embryonic sense or entirely new avenue of perception and relatively close to and an aspect of the Will Aspect of Divinity. It makes humanity conscious of their destiny, develops in them predictive power and gives them initiate insight into purpose and its unfolding plan. It is a faculty which you would do well to consider and try to imagine as a step towards development.

- **The sense of orientation to humanity.** I presume you will recognize the Truth of what I say when I express the opinion that your individual or personal love of humanity and the focus of your attention upon human need is very largely theoretical. IT IS TRANSITORY AND EXPERIMENTAL IN PRACTICE. Your intentions are good and fine, but you have not yet the habit of correct orientation and much that you do is the result of imposed sacrifice and at a cost; it is not natural to you; it is still the result of hopeful endeavour; you are still bewildered over the problem of how to be oriented to the Hierarchy and your Soul, and at the same time to be oriented to humanity and your fellowmen. But the time will come when you are personally so decentralized that automatically the sense of “others” is far stronger in you than the sense of personality or of the lower self. Let your imagination run wild for a moment, picturing the condition of the world when the majority of human beings are occupied with the good of others and not with their own selfish goals. Such a play of imaginative thought is good and constructive and will aid in bringing out into manifestation that New World and that New Type of humanity which the future will inevitably demonstrate. The practice of goodwill will lay the foundation for this New Type of Sensitivity. In short, there is a massive need at this time to decentralize your ego personality in old ways of doing things, else your personal creations will become more stagnant and less effective as to intentions or desired results.
- **The sense of registered impression.** With this new feeling out towards the unknown and towards that which requires a sensitive Expansion of Consciousness I shall not deal at this moment. It concerns the theme of training in telepathy; I shall deal with it as we consider that ‘Science of Impression’ in due course, (*Telepathy and the Etheric Vehicle, Pages 41-57*) which will eventually be the major objective of the Educational Systems which will be functioning at the close of the present New Age (Piscean Age), so rapidly approaching. Only now have those forces been permitted entrance into our planetary life which will present the new subjective environment which has ever been there though unrealized. The reason for this new sensitivity being the objective of hierarchical cultural training is that it is realized by the Hierarchy, that man is now adequately intelligent to be trained in Right Interpretation.
- **The evocation of the will.** This is, for Disciples particularly, the new and most necessary development. As I often have told you, the average Aspirant confounds will with determination, with fixed intention, with self-will and one-pointed attention. They do not realize that the Will is that Divine Aspect in humanity that puts them *en rapport* with and then controlled by Divine Purpose, Intelligently Understood in time and space and implemented by the Soul as the Expression of Loving Application. The mode *par excellence* by which the will can be developed is the cultivation of the recognition of the divine Plan down the ages. This produces a sense of Synthesis and this sense of Synthesis ties the Disciple into the plan through recognition of:

- a. Its inevitability, therefore demanding cooperation.
- b. Its success, therefore evoking wise activity.
- c. Its immediate objective, to which all the past has led.
- d. Its rightness, to which the intuition testifies.

It is not easy for the Disciple in training to associate the sense of Synthesis and the use of the will together and to realize that a cultivation of this First Ray perception is a potent mode by which the Highest Aspects of the Spiritual Will (as yet embryonic within him) can be unfolded. Elsewhere I deal in greater detail with the Will, its Nature and what it is.

- **The sense of that which is imminent.** This concerns the “raincloud of knowable things”. I would call your attention to the word ‘knowable’. It is not the recognition of that which is imminent in man, in nature, or latent in manifestation. Speculation along this line might be and frequently is of no true importance. It is what is spiritually imminent which concerns the True Disciple or Initiate, if I may be permitted this play on words. One of the first lessons in the esoteric field is the sense of timing, with which that which is imminent or impending is connected; the Disciple has to Awaken to that which is on the very verge of Precipitation into human thinking, life and circumstance; they have to take those occult steps which will enable them to recognize not only that which is hovering over humanity on the Point of Revelation or of karmic usefulness (note the phrase), but also enable them to handle themselves so correctly and wisely that they become a Co-operator, step by step, in the process of aiding in this task of Revelation.

The Science of Impression, if studied by the Disciples or Initiates in the world and by the New Group of World Servers, and the New Living Organism of Group Initiates, will greatly facilitate the presentation of those Ideals which will now condition the thinking of the New Age, and will eventually produce the New Cultures and the New Civilized expression which lies ahead of humanity, superseding the present civilization and providing the next fields of expression for mankind...

One point you all need to grasp is that the progressing Disciple and Initiate does not move into new fields or areas of awareness, like a steady marching forward from one plane to another. What must be grasped is that All That IS, is ever present, but not always seen or known from a human point of view.

What we are concerned with is the constant awakening to that which eternally IS, and to what is ever present in the environment but of which the subject is unaware, owing to the short-sightedness of

humanity. The aim must be to overcome the undue concentration upon the foreground of daily life which characterizes most people, the intense preoccupation with the interior states or moods of the lower self which characterizes the spiritually minded people and the aspirants, and the imperviousness or lack of sensitivity which characterizes the mass of mankind. The Kingdom of God is present on Earth today and forever has been, but only a few, relatively speaking, are aware of its signs and manifestations.

Revelation is a generic term covering all the responses to the activities of the Eye of the Mind, the Eye of the Soul, and the 'Insight' of the Universal Mind which contact with the Monad gives. Sight is the greatest of all the developments in this world period in which the Logos is seeking to bring the subhuman kingdoms to the point where human vision is theirs, to bring humanity to the point where spiritual vision is developed and hierarchical insight is the normal quality of the initiate sight, and to bring the Members of the Hierarchy to the point where universal perception is Theirs. Therefore, it might be said that:

1. Through the Door of Individualization, the subhuman kingdoms pass to human vision, leading to mental contact and intelligent impression.
2. Through the Door of Initiation, humanity passes to spiritual vision, leading to soul contact and spiritual impression.
3. Through the Door of Identification, the Hierarchy passes to universal vision, leading to monadic contact and extra-planetary impression.

Each time that there is a fresh vision of a compelling and conditioning nature, it is the result of invocation by the one seeking the New Impression. When this invocative spirit is present, the results are inevitable and sure, and the response evoked cannot be stopped. This is the basis of all the success of desire (material or otherwise), aspiration, prayer and meditation. Always we get, in time and space what we invoke; and the knowledge of this fact, scientifically applied, will be one of the great liberating forces for humanity.

It might be said that consciousness itself, which is the goal, on this planet, of all the evolutionary process, is simply the demonstrated result of the Science of Contact. It is likewise the goal in some form or other and at some stage or other of all planetary existences within the solar system itself. The unfoldment of this conscious response is, in reality, the growth of the sensitive awareness of the planetary Logos Himself. The human mechanism and its ability to respond to its environment (as science well knows) has been developed in response to an inner urge, present in every human being and in all forms of life, and to the 'pull' and magnetic effect of the surrounding environment.

Step by step, the forms of life upon the physical plane, down through the ages, have unfolded one sense after another; one form of sensitive response after another becomes possible as the mechanism is

produced, until the human being can receive impressions from the physical plane and rightly interpret them. They can respond to the emotional contacts of the astral plane and succumb to them or surmount them. They can become telepathic to the world of the mental plane, thus sharing physically, emotionally and mentally, in the life and contacts of the three worlds which constitute his or her environment and in which he or she is submerged whilst in incarnation.

It is no mistake that within the Teachings and New Formulas of Approach, that you began working on together with Beloved Master Djwhal Khul, have now progressed to opening this Work to a more expanded nature of the First, Second and Seventh Rays with other Divine and Christed Beings of these Rays and more. As you will discover soon within these Teachings, the New Living Group Organisms will no longer be confined in expressing your own personal Rays, but as a Group Living Organism, where all the Rays begin to merge together as One Unified Expression or the Qualities and Virtues of the 49 aspects of the Seven Rays.

Please Know you are all Working here toward a Single Goal; that of the Creation of the New Radiation Pyramidal Light Temples and Human Christ Councils, who will provide the Mantles of Love and Light, The Electromagnetic Impulses that will allow Us to come and Stand before you in Our Physical Light Bodies, where any human beings within their physical sight and hearing will be able to finally see Us for REAL; to Communicate Directly with us without the old forms of broken and sometimes imaginary communications of the past!

**DISCOURSE 5 (PAGE 5/8)**

So, when you begin to charge It in and around yourself and your affairs, the human is going to have to disappear. This is the Power of Mastery, and the Sacred Fire is the Controlling Force and Directing Intelligence of the Mighty 'I AM' Presence by which all energy is controlled everywhere in outer manifestation. Therefore, when you begin to use your Decree, the Flaming Christ, be prepared to recognize the world around you, 'I AM' meaning your individual world, filled with the Violet Consuming Flame, which is the Sacred Fire. And when that is established permanently around the physical body as a Sun Presence, you will find that Violet Flame Sun will control all conditions around you wherever you move. It will control all the Powers of Nature and all the Forces of the Elements.

So, as you think deeply upon this and come into Its Greater Use, you will begin to realize that through It your Freedom is attained. And what is your Freedom? Freedom from all that is not the Great Cosmic Control by the Sacred Fire of all manifestation wherever you move in the Universe. That Sacred Fire is

only released in and around you as you love It enough. The intellectual concepts of It will give you the Picture, but it is your love to that Sacred Fire that is the Power of the Great Central Sun Magnet in you that draws that Sacred Fire into outer conditions to be the Master Presence controlling them.

The Cosmic Law is the same for you. As you continue to build the Momentum of the Sacred Fire in and around your physical body will you find conditions in the physical world being controlled by the Radiation of that Sacred Fire around you. And as you intensify and expand that, you will find that Sacred Fire controlling conditions by the Power of the Great Silence. If that Sacred Fire is drawn around you intensely enough, you would scarcely have to speak a Command to the outer conditions; for the very Presence of the Love in that Sacred Fire would harmonize and purify all you contacted until It would automatically cooperate with you in the Fulfilment of the Divine Plan to produce whatever you desire.

Now this has a very powerful effect upon your channels of supply. And if people understood that when they call for supply, the Cosmic Law is going to demand balance, regardless of all human desire, they would understand that they cannot waste that which the Sacred Fire provides without experiencing difficulty and distress. People are in conditions of discord and limitation because they have produced conditions of discord and limitation in the past. But once you enter into the Knowledge of the Sacred Fire of this Beloved 'I AM' Presence, then your Law of Forgiveness acts, as you use the Violet Consuming Flame to consume the cause that has produced your present limitations or problems.

And in the Great Mercy of the Love that has provided that Violet Consuming Flame abides the Power by which you may go forward; and cleansing your world of that which is of human shadows, you may become the Sun of the Sacred Fire whose Violet Flame's Forgiving Love not only sets you Free, but wherever you abide, It will set all Life Free also. And It gives all Life a new chance to turn back to the Divine Way of Life, and once again live as the Mighty 'I AM' Presence and the Ascended Host originally designed.

The Original Way of Life was Purity and Balance. And those who will love the Sacred Fire enough to draw Its Momentum in and around themselves will return to the Divine Way to live Life, and what you call supernatural powers will begin to act through that Sacred Fire. Instead of being supernatural, They are the Natural Activities and the Natural Power of the Sacred Fire. You had Their use centuries gone. Mankind has used these Powers in every Golden Age; and since you are entering into that which is the Permanent Golden Age to the Earth, then you must again come into the use of these Powers of the Sacred Fire by which all manifestation is controlled harmoniously.

So Blessed Ones, if distress seems great in your beings or worlds, take time, if only for one whole minute, to send your love back to your Mighty 'I AM' Presence; and demand with every fiber of your being

### LESSON 3: SECTIONS OF THE ASHRAM

In the early days of the present cycle of hierarchical effort (between 1925 and 1936), the ray at work upon humanity was the first ray. The activity of this ray culminated in the declaration of war by Great Britain in 1939, when the destructive force of that ray—misapplied and misdirected— led Germany to invade Poland. In 1932, the influence of the second ray began to assert itself and will continue to do so until 1945 when the seventh ray will swing slowly into activity. You will then have three rays producing simultaneous effects upon mankind:

1. The first Ray of Will or Power, expending its force.
2. The second Ray of Love-wisdom, reaching its meridian and holding the centre of the stage until 1957.
3. The seventh Ray of Ceremonial Order, coming into activity in combination with the other two—the will-to-love and the will-to-order—producing beauty out of the present chaos.

The Disciples, therefore, of the Master El Morya, of the Master Koot Hoomi and of the Master Rakoczy are reaching out towards a period of the intense activity. The destiny of the world lies in the hands of Their three Groups of initiated Disciples; with Them, the accepted Disciples of the three Groups are asked to cooperate and this offers opportunity to many everywhere. As they seek to vision the Plan, to cooperate with the three Masters and Their initiate Groups, their opportunity will emerge. This triangle of energy is held responsible by the great Leaders in Shamballa for the regularizing of world affairs. More than this it is not necessary for humanity to know.

*Discipleship in the New Age, Vol. I, pg. 730*

As you realize, the new Ashram of Synthesis carries the responsibility not only of incarnating (so to speak) as a conscious Soul within the body of humanity, but of building the new forms of the new civilization which can and will adequately house that incarnate Soul and provide for its continuing growth and development. The Ashramic Group life is constituted (if you will please excuse my terminology here) of three major “sections” insofar as its focus of attention is concerned.

These major sections which are determined by the three major Ashrams which have come together to create the new synthesis are:

- That section which deals with Divine Purpose, Divine Power, Divine Will, and which is reflected outwardly, works out within the body of humanity as Government; works out within the Group life as cooperative leadership—as each individual within the Group follows his own

overshadowing Spiritual Soul guidance, which is his governing agent, so to speak. The head center then of the Group life is the Ashram.

- The second section of the Ashramic Group life is that of the consciousness aspect, the Soul life of the Group dealing primarily with the growth and development of the incarnate consciousness (incarnate on Ashramic levels within the causal sheath; incarnate below these levels within the threefold instrument). This section of the Ashram is reflected outwardly within the body of humanity primarily in the field of education; within the Group life, in the same field (that of teaching) as well as any other activity which deals specifically with the Soul life. I am placing in this section (and deliberately so because this is the New Age into which we have entered), healing; all of the cultural activities of humanity; and in part the field of science, particularly in research.
- The third section of the Ashram is that of intelligent activity—the form building section of the Ashram which has to do with the building specifically of the new forms of the new civilization. This works out in the outer life and affairs of the Group, and within the body of humanity in the field of business.

We have here three major sections of the Ashramic Group life insofar as that is concerned, of the Hierarchy. We see these three major sections out-pictured within the world of affairs today in this civilization, which is rapidly moving out of incarnation. The first major change to be made in the economic structure of humanity has to do with the relationship of these three sections which are a reflection, truly, of the Trinity itself: Spirit, matter and consciousness.

It is extremely important that you grasp this concept. The first major change in the new civilization must be made in the economy of the world itself. That change must be in the relationship of these three sections (or fields, or departments of human living) to one another. And that change is very simple, as follows:

- The purpose of business is to substantiate, subsidize the growth and development of human consciousness—to build those forms which carry the light, the love and the power of the Soul into outer expression. This is the purpose of business, any business. all business. This is its only purpose.
- For education to become a business or to enter into business – this is wrong relationship. Business is the intelligent activity which will build the forms of the incarnation necessary to the growth and development of the consciousness aspect itself. Finance, then, intelligent substance, is the substantiating, or subsidizing aspect or activity. This section then must support or subsidize the education of the human consciousness; the healing activity, which in this New Age, has to do

## A LIVING FRAMEWORK FOR A GROUP LIVING ORGANISM

with the healing of consciousness; all of the cultural interests and activities of humanity which relates specifically with the growth and development of the human consciousness, etc.

- The purpose of government is to coordinate these two other sections—that which deals with and is under the large heading of education (or rather the growth and development of the human consciousness); and the intelligent activity which supports, substantiates, subsidizes that growth and development. The government then must work through the concept and activity of cooperative leadership to coordinate the activities of the other two sections.

Thus, we begin to bring about within the world of affairs that right relationship between Spirit, matter and consciousness, which will not only heal the economic ills of humanity as a total, but which will generate a creative economy capable of transmuting the material values into spiritual values.

*Headquarter Series, 13 October 1961*

An Ashram is a Group of Souls who function consciously with a member of the Hierarchy as Disciples in the working out of the Divine Plan—not only for humanity, but for the One Life in which we all live, move and have our being.

Consider this for a few moments. An Ashram is largely functioning at a frequency level much higher than that of the three planes of human endeavor. It functions in ... the Buddhic sphere, i.e., on Soul levels, in ways which, at this particular time, I shall not endeavor to clarify. Such an Ashram has usually three (sometimes more) centers or focal points within the three worlds of human endeavor, which are the outlets into the body of humanity for the creative expression of the Ashram and the Master involved with and within that Ashram. These focal points are constituted of Disciples whose overshadowing Spiritual Souls are already functioning within the particular Ashram involved, and who, at that point in time and evolution, are karmically related (whether through choice or past association) with the working out of the Divine Plan for humanity as it has been brought into focus by the Ashram within the life and affairs of humanity. Such Disciples then have responded to the note being sounded by the Ashram; they have glimpsed (some more, some less) the Plan as it has been brought into focus by the Ashram; they have been inspired by the vision of a service which the Ashram is privileged to embody; and they have, in consciousness, brought their three-fold instruments into an alignment with all this to which they have responded.

*Headquarter Series, 11 March 1962*

Master Djwhal Khul: “My purpose in coming to you at this time is not only to focus your attention upon that principle, concept and energy for which I am responsible—that of Divine Love-Wisdom—but to

clarify somewhat if I may, certain points regarding it which your work with the energy of Synthesis may tend to overlook.”

As you realize, the initial inflow or entry into this planetary life and affairs of that energy which can be defined as Synthesis (in that it reaches us from the Avatar of Synthesis, He Who has embodied, in relationship to our solar system, the principle and energy of Synthesis) is a synthesis primarily of first, second and seventh Ray energy. You realize of course, that any true synthesis is a synthesis of all of the seven Rays or seven Expressions of the One Life within which you live, move and have your being. But this synthesis of the many into the one has to be achieved through a synthesizing energy. The Avatar of Synthesis is One Who has embodied within Himself the perfect expression, in a perfect synthesis, of first, second, and seventh Ray in its relationship to our solar system, and specifically at this time, to this planetary life and affairs. That synthesis in no way detracts from the special, the very special, characteristic and quality of any one of those three major Rays. A synthesis is achieved when two or more parts so perfectly complement one another that they merge into a total—a total that gives to each of its parts something which it did not previously have. Grasp this thought, this idea, and your understanding of the concept and the actuality (which includes, remember, the application of synthesis) will expand greatly. In the merging of the perfect complementing of one, two, and seven into a totality, none of the special characteristics and qualities of these three expressions of Divinity are lost or detracted from. They are enhanced by the fact of the mergence, the perfect movement of these three into a one; and each then has been added to so that it is more than it ever was by itself. Its characteristics and qualities are lifted to the highest potential possible; and then, in addition, something new, a new dynamic which works for the total good of the total life as it is included within the Cosmos.

**The only subtraction, if I may call it that, from any part that goes into the making of a true synthesis, would be that of separation.**

The expression, of all of those characteristics and qualities which went into the synthesis, is beneficent or beneficial to every tiny life, every great life, within the whole of the Cosmic Life. In this synthesis, the quality as never before is that of Divine Love-Wisdom. This is the quality which underlies and moves through, within, interpenetrates, the expression of synthesis in an area of activity. Bring into your instrumentality the energy of Synthesis and express it, and that which is its true quality will show forth as the perfect expression of Divine Love-Wisdom. This will be the color, so to speak—it will color the skin, it will color the eyes, it will color the many lights of the body. It will color the tonal quality. It will color the movement, all expression—it will be the quality, the QUALITY, of every expression, which is one of synthesis. And it will qualify the action of the will. It will qualify the intelligent activity aspect. It will qualify the strength. It will qualify the actions. It will permeate everything so that it becomes one of

the first recognizable characteristics of the energy of Synthesis. Try then to achieve this quality. Let it have a part in the choosing of your thoughts. Let it have a part in the choosing (you will note this term please) of your feelings, responses and reactions. Let this quality have a choice or a part in the choosing of your words and your deeds. Become the vehicle of that qualifying essence which is the binding force which holds together the many lives, great and small, of the One About Whom Naught May Be Said.

One other point that I would direct your attention to which may help with an understanding of this concept—and help you with your alignment (with its quality of synthesis), help you in becoming a vehicle for it. This quality has not one special or particular color. It is the essence of every color, and thus it is all-pervading.

#### **LESSON 4: DISCIPLES ON THE THREAD; APPLICATION OF SYNTHESIS**

The synthesis of first, second and seventh Ray energies brings the planet and humanity a new energy, a new force and a new substance with which to shape and mold a new civilization. The Synthesis reaches us from the Avatar of Synthesis, Who, acting, under the direction of a greater Cosmic Life, synthesizes the energies into a lower correspondence of a Cosmic energy as yet, of too high and subtle a frequency for us to reach.

The Avatar releases the new Synthesis to the Planetary Logos and The Christ, Who, in turn release it to the new Ashram of Synthesis via its focal point, the Masters El Morya, Rakoczy, and Djwhal Khul These three use several methods of release for the distribution of the energy to humanity and through humanity into the devic lives of the planet. Among these methods is that with which we are here concerned; it is released to seven Disciples on the thread, each functioning as a Soul in the Ashram and each serving in incarnation as Disciples in a particular department of human living. The seven Disciples, each in his (or her) own field, continue the distribution of the Synthesis energy via a threefold method.

1. Through a creative service activity which gives body and form to the incoming energy. We are referring here to creativity such as in the fields of art, literature, music, medicine, psychology, etc.
2. Via Groups of Disciples working with them both esoterically and exoterically in all fields of human endeavor for human betterment.
3. Via special meditation effort carried out both individually and in company with co-workers, which directs the energy along those paths of manifestation indicated by the Divine Plan for humanity.

The many Disciples who are attracted into a relationship with one or another of the seven Disciples on the thread form seven major Groups which continue the distribution process via:

- Their chosen service activities;
- An application of the Synthesis energy into their daily lives and affairs;
- And via a radiation of it through that network which is humanity.

Let me indicate here—both to the seven Disciples themselves (one with whom you of the immediate Group are acquainted and related) and to the Disciples working with them—certain factors of invocative importance:

- “The Power of the Disciple of Synthesis is the Power of Divine Purpose synthesized with human need.”
- “The quality, and therefore, the radiating, conditioning and relating energy of the Disciple of Synthesis is the quality of the Love of the One Life synthesized with human misery.” “The service capacity of the Disciple of Synthesis lies along the line of his ability to organize that within the framework and upon the ground of that which is false and unreal.”
- “Ever will he be faced and work with the pairs of opposites as paradox so that paradox will appear to be the law and rule of his life. Yet out of paradox will the new good come forth.”

Each and every Disciple working within the field of humanity (from a focus as Soul within the new Ashram of Synthesis) has before him or her the seemingly difficult task of understanding the energy which is now his or her prime concern. What is Synthesis? What are its characteristics and its effects in manifestation? How may one appropriate and rightly use it in service to the Divine Plan for Humanity? What are its dangers?! And how may one protect oneself, one's Group and humanity from those dangers?
