DIVINE ZEAL & ENTHUSIASM

*Follow
Your
Passion*

WITH DIVINE ZEAL I ENTHUSE MY
LIFE WITH PASSION IN ALL MY ENDEAVOURS

INVOCATION: Beloved Mighty 'I AM' Presence, We Call Upon You Now in this Eternal Moment to Endow and Enrich Our Mind, Body and Spirit with Divine Zeal. Direct this Attribute with Wisdom and Judgement in Everything We Think, Feel and Do for the Manifestation of Your Divine Plan for Us and All of Humanity. 'I AM' the Infinite Energy and Intelligence Pouring Forth in Zeal and Tempered Enthusiasm.

DIVINE ZEAL AND ENTHUSIASM

THE EGO, the free 'I', the Imperishable and Unchangeable Essence of Spirit, which man and woman are, chooses every state of consciousness and every condition in which it functions. It does not create the basic substances that enter into these mental structures, for these substances have been provided from the beginning, but it gives form and character to them in consciousness just as men build houses of lumber, stone, or whatever material they may choose in the manifest.

These mental states are all constructed under the Dynamic Power of the Great Universal impulse that lies back of all action, Enthusiasm or Zeal. Zeal is the Mighty Force that incites the winds, the tides, and the storms; it urges the planet on its course and spurs the ant to great exertion. To be without Zeal is to be without the zest of living. Zeal and Enthusiasm incite to glorious achievement in every aim and ideal that the mind conceives. Zeal is the impulse to go forward, the urge behind all things. Without Zeal, stagnation, inertia and death would prevail throughout the Universe. The man or woman without Zeal is like an engine without steam or an electric motor without a current. Energy is Zeal in motion, and energy is the forerunner of every effect.

If you desire a thing, you set in motion the Energies of the Universe to gain possession of it, but you must be Zealous in the pursuit to attain the object of your desire. Desire goes before every act of your life; hence it is good. It is the very essence of good; it is God Himself in a phase of life. When they called Jesus good, He said: *'Why callest thou me good? None is good save one, even God'*. The Universal Desire for achievement, giving its mighty impulse to all things, is Divinely Good. Divine Enthusiasm is no respecter of persons or things. It makes no distinctions. It moves to new forms of expression, even that which appears corrupt. It tints the cheek of the innocent babe, gleams from the eye of the treacherous savage, and Lights in Purity the Face of the Saint.

Some have named this Universal Life Impulse - God, and they have left the impression that it is all of God and that all the attributes of God-Mind are therefore involved as a conscious entity in every situation where life is manifest. In this, they lack discrimination. God's Spirit goes forth in Mighty Streams of Life, Love, Substance, and Intelligence. Each of these attributes are conscious only of the Principle involved in it and in the work that it has to do. Though it is man or woman's mission to combine these inexhaustible potentialities under Divine Law, they are free to do as they will. However, the Divine Law cannot be broken, and it holds man or woman responsible for the result of their labours. Man or woman cannot corrupt the inherent Purity of any of God's attributes, but they can unwisely combine them in states of consciousness that bring dissatisfaction and incompleteness to them. It is their

privilege to learn the harmonious relations of all the chords of life and to arrange them on the staff of existence with such masterly art that no discord can be detected. Then life becomes to them a song of joy, and he or she Absolutely Knows that, in its Ultimate, All is Good.

Never repress the Impulse, the Force, the Zeal welling up within you. Commune with it in Spirit and Praise it for its Great Energy and Efficiency in Action. At the same time, analyze and direct its course. As Zeal alone, it is without Intelligence or discretion as to results. As Jesus taught His Disciples and combined their various talents, so also every man and woman must grow in Wisdom and Zeal. You are not to repress but to Guide the Spirit of Enthusiasm, which in co-operation with the Divine Virtue of Wisdom, will bring you happiness and satisfaction.

Zeal is the Affirmative Impulse of Existence; Its Command is '*Go forward*'! Through this Impulse, man or woman forms many states of consciousness that he or she ultimately tires of. They may have served a good purpose in their day in the grand scheme of creation, but as man or woman catches sight of higher things, Zeal urges them forward to their attainment.

Let your Zeal be Tempered with Wisdom. '*The Zeal of thy house hath eaten me up*' means that the Zeal Virtue has become so active intellectually that it has consumed the vitality and left nothing for Spiritual Growth. One may even become so Zealous for the spread of Truth as to bring on nervous prostration.

'*Take time to be Holy*'. Turn a portion of your Virtue of Zeal to do God's Will, the establishing of His Kingdom within you. Do not put all your Enthusiasm into teaching, being of service, personal work and healing; help yourself. Many enthusiastic Spiritual Workers have let their Zeal to demonstrate Truth to others rob them of the Power to Demonstrate Truth for themselves. Do not let your Zeal run away with your Divine Judgment. Some persons get so fired with Zeal when they first tackle a job that they quickly grow tired of and eventually get '*fired*' from every job that they tackle.

Watch the first pull of a giant locomotive; note how it slowly but steadily moves forward, almost by inches at first but gradually increasing, until its mile-long train swiftly disappears in the distance.

Man or woman is a dynamo of pent-up power, but he or she needs Judgment in its use. Even Love (John), the '*greatest thing in the world*', is linked into the Twelve Virtues of the Divine Mind Powers; Integration of Jesus with James (Judgment). Jesus called these two brothers '*Sons of thunder*', comparing the effect of their Combined Power to the tremendous vibrations set up by unrestrained electrical energy. Judgment says to Love, '*Look before you leap*'. Do not let unselfish Zeal and Enthusiasm for the loved one run away with your Judgment. Remember that these two are brothers and that you should sit on the Throne of your 'I AM' Dominion, with Love on the right hand and Judgment on the left, Judging the Twelve Tribes of Israel. In these symbols, We see portrayed the poise and Mastery of Regenerated man and woman, directing and disciplining all their families and associates in Wisdom and in Love.

Even doctors are beginning to take notice of the emotional contests that take place between Love and Wisdom in our nervous system. Some of them say that indigestion may be caused by the disturbance that our emotions cause in the delicate nerve aggregations at the solar plexus and that permanent stomach troubles may result. Metaphysicians have always taught that the contending vibrations, or *'thunder'*, between love and wisdom cause not only acute but chronic diseases of the stomach and heart.

Heart says, *'I Love'*, and Wisdom says, *'But you can't have what you love'*; contention follows, and night and day, the nerves are pounded by the warring emotions.

Love, disappointed may lower the vitality to the vanishing point, while some physical disease is blamed.

Innumerable combinations of thoughts and their attendant emotions are constantly sending their vibrations or *'thundering'* to various parts of the body through the nerve cables that lead out from the many ganglionic centres.

Jesus had two Apostles named Simon, but they represent different talents or Virtues of man or woman's mind. Simon Peter represents Receptivity from Above, and Simon the Cananaean represents receptivity from below. Simon means *'hearing'*, and Canaan means *'Zeal'*. The Canaanites dwelt in the lowlands, so we know that the Virtue designated by Simon the Cananaean has its origin in the body consciousness.

But the receptivity to and Zeal for the Truth that was manifested by Simon the Cananaean was Lifting him to Spiritual Consciousness. This is symbolized in Acts 1:13, where it is written, *'And when they were come in, they went up into the upper chamber, where they were abiding'*. Among them is mentioned *'Simon the Zealot'*.

To grow Spiritually, We should always be careful to exercise Our Zeal in Spiritual Ways since Christians are apt to fall into commercial ways in carrying forward the Lord's Work. We should remember that Jesus said, *'God is Spirit: and they that worship him must worship in Spirit and Truth'*. When Jesus cast the money changers out of the Temple, His Disciples remembered that it was written, *'Zeal for thy house shall eat me up'*. In this act, Jesus was casting the commercial bargaining thoughts out of His body Temple. This is explained in the context John 2:18. The Jews said, *'What sign showest thou unto Us, seeing that thou doest these things?'* Jesus answered and said unto them, *'Destroy this temple, and in three days I will raise it up . . . But He spoke of the Temple of his body'*.

Whatever takes place in the world about Us has its counterpart in some thought process in Our body.

Every invention of man or woman is a duplication of some activity in the human body. The explosion of gasoline in an automobile cylinder is copied from the explosion of nerve substance in the cell centres of the body. The nerve fluid is conducted to a nerve chamber, corresponding to an automobile combustion chamber, where it is electrified and the energy liberated. In the human body, Spiritual Zeal, that is, Enthusiasm, electrifies the nerve substance, which breaks forth into energy.

Thoughts build nerve and brain centres that serve as distributors of the vital substance manufactured in the body. The vitamins in the food that we eat are stored up by the body chemistry and liberated in thought and action.

Every thought and emanation of mind liberates some of this stored substance. We, the controlling intelligence, with our conscious mind, direct these processes in a manner quite similar to that employed by the driver of an automobile.

An automobile driver should be familiar with the mechanism of his or her car. But in the great majority of cases, the driver knows merely enough to perform a few mechanical motions, and the car does the rest.

The mass of humanity knows but little about the delicate mind-and-body interaction. They perform a few necessary superficial acts, call in the doctor when anything goes wrong, and in the end, dump the old '*boat*' at the junk pile.

Extraordinary Zeal in the accomplishment of some ideal develops what is called genius. Jesus of Nazareth was undoubtedly the greatest Genius that this earth has ever developed. He is not usually named among the geniuses of the earth because He was a Genius of such Transcendental Character that He is Classed with the Gods. He did Manifest the Mind of God as no other has ever done, yet He was a man, and herein lies His Genius: In His humanity, He developed extraordinary ability in Spiritual Wisdom, Love, and Power. There have been men and women who have told Us about God, but none who have demonstrated the Wisdom and Power of God as Jesus did. His Zeal in doing the Will of God made Him a Spiritual Genius in human form.

Like others who manifest original genius, Jesus got His Genius from Within. He was not known to have been taught in the theological schools of His day, yet He exhibited a mental acumen and understanding of religion that astonished His associates. They exclaimed in effect, '*Where did this man get Wisdom, never having studied*'.

Genius is the accumulated Zeal of the individual in some chosen field of life action. The idea that God has arbitrarily endowed some persons with abilities superior to others is not good logic and makes God a partisan. God has no favourites, notwithstanding the fact that the Scriptures sometimes so interpret Him. '*God is no respecter of persons*'. '*This is My Beloved Son, in whom I Am well pleased*' is the Ideal or Spiritual Man, the Messiah, the Christ Man, who is the Pattern given to every man to follow.

However, we see on every hand evidence of pronounced diversity in human character, and, looking at life superficially, we think that God has given advantages in mind, body, and affairs to some men and women that He has not given to others.

But what we see with the eye of flesh is only the physical manifestation of man or woman. Spirit and mind must be taken into consideration and become factors in Our reasoning before we can know a man and properly estimate the whole man or woman.

The body represents but one-third of man or woman's being. Man or woman is Spirit, Soul, and body. The Spirit is that in both which says, '*I AM*', and has existed from Eternity. Spirit is potential man and woman; Soul has demonstrated them both. Soul is man or woman's memory, conscious and subconscious. We have carried along in our subconscious mind the memory of every experience that we have had since we began to think and act for ourselves. The Soul is the Mind, and the mind is the man or woman.

The race to which we belong on this Planet began thinking and acting in self-consciousness many millions of years ago. God alone knows the exact age of every man and woman. Jesus said, '*The very hairs of your head are all numbered*'.

Every experience, every achievement, every failure, and every success is remembered and stored up in the subconscious mind. A new Soul is not created with every physical birth. A physical birth simply means that a Soul is taking on another body. Every man and woman inhabiting this earth and the psychic realms immediately surrounding it has gone through this process of dying and reincarnation many times. You who read these lines have had experience as a thinking, free-acting Soul for millions of years, instead of the score or three score that mortal man or woman usually counts. Emerson said, '*Be not deceived by dimples and curls; that child is a thousand years old*'.

Then the question arises, '*Do We always get the fruit of our earthly acts in some future earthly life*'? Certainly, '*Whatsoever a man soweth, that shall he also reap*'. Here in this earth is the place of harvest. When a man or woman relinquishes his or her hold on brain and nervous system, each gives up the only avenue through which they can adequately express him or herself.

So death is the great enemy to be overcome, as taught in Scripture. Death came into the world through Adamic ignorance, and it must go out through Christ understanding.

Genius is the breaking forth of the accumulated achievements of a man or woman in that field of activity for which they have been very Zealous in many incarnations. Mozart, at the age of four, played the organ without instruction. Where did he get such marvellous musical ability? A history of his Soul would show that he had cultivated music for ages, carrying from one incarnation to another his Zeal for the harmony of sound until he became the very Soul of music.

The Genius of Shakespeare was the accumulated experience of a man who had been poet and philosopher since the '*morning stars sang together*'.

Let no man or woman think that he or she can retire from living. Do not shirk the responsibilities of life. You have made them, and you can unmake them. A way of escape has been provided for every one of us. That way is to overcome mistakes by incorporating into mind and heart the Attributes and Divine Virtues of the Christ Mind. '*Travail until Christ be formed in you*'.

Simon the Zealot has his centre or Throne of Dominion in the body at the base of the brain, named by physiology the medulla oblongata.

Let us think of man and woman as a King or Queen having Twelve Sons or Daughters, or Princes or Princesses, who execute their Will. Each of these Princes or Princesses have a Throne, or brain and nerve centre, from which he or she issues their orders and distributes their goods.

Jesus illustrated this in Matthew 19:28: *'Verily I say unto you, that ye who have followed me, in the regeneration when the Son of man shall sit on the Throne of his Glory, ye also shall sit upon Twelve Thrones, judging the Twelve Tribes of Israel'.*

Simon the Zealot, from his throne at the medulla, imparts special energy to the ears, eyes, nose, mouth, and sensory nervous system. When man or woman enters the Understanding of their Dominion, Power, and Directive Ability in Christ, they Educate their Disciples, or Sons and Daughters, and show them how to execute the Law established in Divine Principle for them.

We all are Kings and Queens in Christ. But with Him, we must realize that *'My Kingdom is not of this world'*. Our Dominion is over our own thoughts, emotions, and passions.

Our Disciples will do what we tell them and continue to do it after they have been sufficiently instructed and assisted in the use of the Word.

Remember, mind rules in both the within and the without, the visible and the invisible, the high and the low.

To help Simon, the Zealot, do his work, centre your attention for a moment at the base of your brain and quietly affirm that infinite energy and intelligence are pouring forth in Zeal; Enthusiasm. Then follow in imagination a set of motor nerves that lead out from the medulla to the eyes, affirming all the time the *'Presence'* and Power of Energy and Intelligence now manifesting in your eyes.

For the ears, Affirm Energy and Intelligence, adding, *'Be you open'*.

For the nose affirm energy and intelligence, adding, *'The Purity of Spirit enfolds you'*.

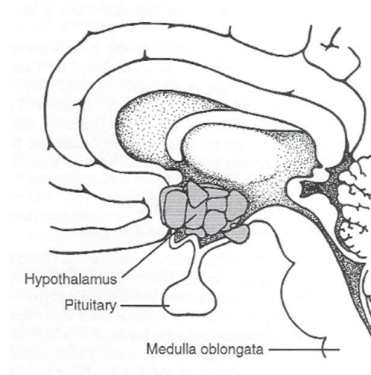

For the mouth carry the life current to the root of the tongue with the thought of Freedom.

At the root of the tongue is situated the throne of another Disciple, Philip. When you carry the Zeal current from its medulla centre and connect it with the Throne of Philip, a Mighty Vibration is set up that affects the whole sympathetic nervous system. In this treatment, you will strengthen your voice, revitalize your teeth, and indirectly impart energy to your digestion.

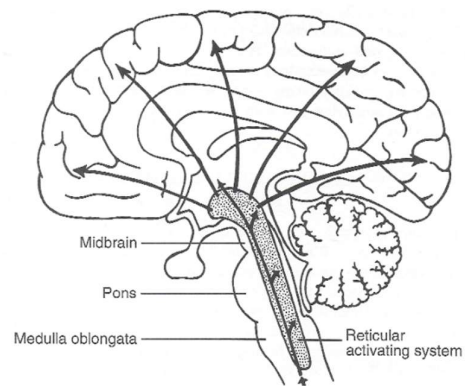

It was at Cana of Galilee, the nerve centre in the throat, that Jesus turned water into wine. Metaphysically this miracle is accomplished when we, in Spirit, realize that the union (wedding) of the fluid life of the body with the Spiritual Life at this Power Centre makes a new element, symbolized by wine.

When the chemistry of the body and the dynamics of the mind are united, a third element is brought forth, and man feels that *'in Christ, he is a new creature'*.

BENEDICTION: We Are Grateful, O Mighty Beloved 'Presence' of God 'I AM', for Generating the Impulse of Divine Zeal in Our Mind, Body and Spirit so that We could take Forward Your Divine Plan for Us in every Now Moment. We Praise and Adore You for Your Constant Zeal Working For Us in Every Divine Achievement that We Have Manifested. Blessed 'I AM'! Blessed 'I AM'! Blessed 'I AM'!

Hypothalamus (Shaded Schematic)

Reticular Activating System (Arrows depict Signal Pathways)

COLOUR VISUALIZATION

DIVINE ZEAL

ROSY PINK

The Colour to which this Divine Virtue of the 'I AM' Self responds is Rosy Pink. This condition is the natural response and the emotional reaction of the Soul after it has reached the stage where everything is in Divine Order and Harmony and honest balanced enthusiasm and zeal are expressed. Rosy Pink is warm, exciting, passionate with Spiritual desires, filled to the brim with the supreme feeling of Love for God. This Love of the 'I AM' Self is for Divine Laws, Spiritual methods, the orderly course of the Universe and of All in it.

It is a shade or two below the spectrum of blood red, which is the Colour of the next Spiritual characteristic of Regeneration and Rebirth. Here again, by gradually working in shades and degrees, is the example of the orderly progression designed to birth the Light Body into the physical dimension.

Using the symbolism and the gentleness of Pink roses, you will stimulate the subconscious, such as in dreams and meditations, which will reawaken Soul memories without shock, fear, or retribution. Think of your subconscious record as a tiny, tight, pink bud. It contains the Essence and the potential of all that has been grown and experienced before it developed on the Stem of your Christ flowering. Gradually it gathers more and more energy, courage, and strength. Slowly your Soul Records and Memories open to your conscious mind, petal by petal, event by event, until the entire blossom of your past opens itself willingly to the Sun Light of your 'I AM' Presence.

And So It Is! As Above, So Below!

This Too Shall Pass,

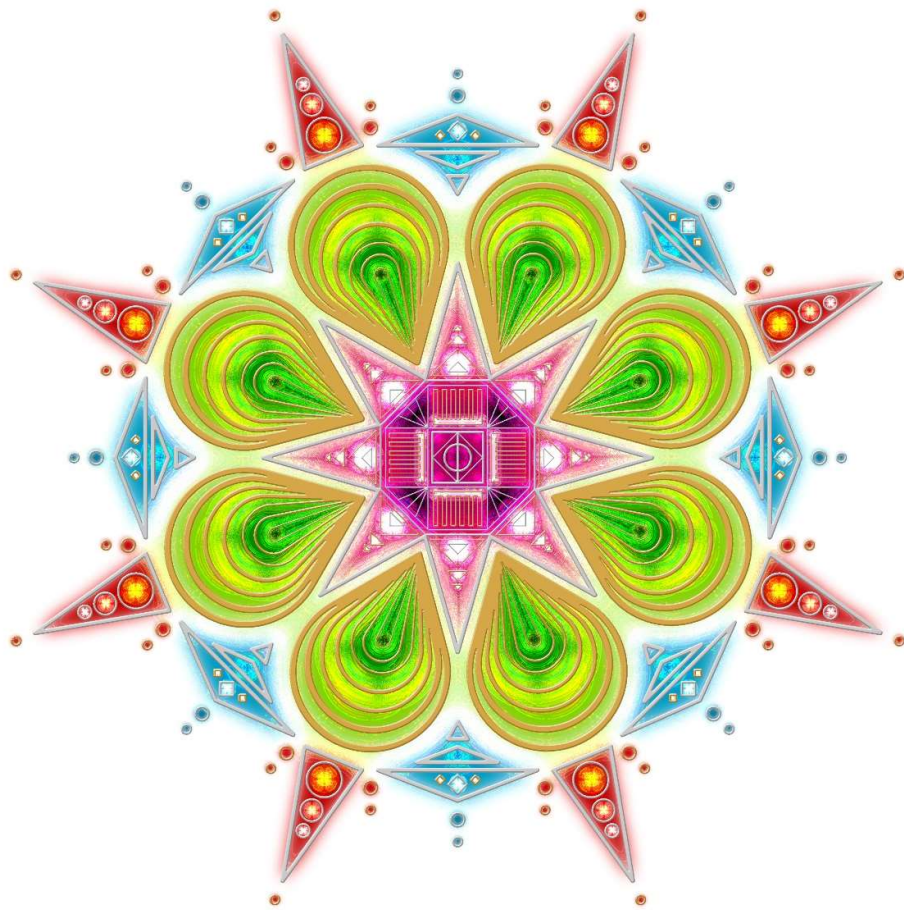

May You Pass Every Test,

No Longer Seek Further That Which Is Seen,

Rather Seek ONLY Now That Which Is Unseen!

Let this Dictum, become Your Guiding Light Now, for it in and of Itself, has much to offer all who will Move Forward from here!!

Create then your 4 lower bodies into a Temple Most High of the Divine 'I AM' Presence through the Anchoring of Divine Zeal in You, Within the Kingdom of Your Divine God Mother and Your Beloved God Father.

WITH DIVINE ZEAL I ENTHUSE MY
LIFE WITH PASSION IN ALL MY ENDEAVOURS
