

Part 15 - Rule 1 - Rule Study Program - EGA

AN INITIATION OF LIGHT - PLANETARY BACKGROUND FOR JULY - AUGUST 2018

Each year as we enter into July and the Leo Constellation, we are approaching what is known as the Lion's Gate. The ancient Egyptians called this annual event the "*heliacal rising of Sirius*". This is the time when Sirius rises in the morning sky just ahead of the Sun.

Sirius' energy is all about awakening to new frequencies, energetic potentials and a higher consciousness at an accelerated rate. It is a time when its powerful Light Codes align with the Sun, and they are transmitted to the Earth through the annual Lion's Gate portal, which commences on July 26th and culminates on August 12th

At the start of this year's Lion's Gate on July 27th, there is a total Lunar Eclipse followed by the focal point of the Lion's Gate on 8th August, otherwise known as the 8:8 and then culminating on the 11th of August there is another partial Solar Eclipse - so this period is cosmically very active, to say the least.

This Total Lunar Eclipse on the 27th is powerful - what's unusual about the 27th July eclipse is that it is occurring on the same day that the Moon will be the furthest away from Earth in its orbit. At such times the Moon appears smaller than average, and its orbital motion with respect to the stars is slower. This ensures that the duration of totality of the eclipse on 27

July is longer than usual - so long, in fact, that at 104 minutes, it's the longest total lunar eclipse of the entire twenty-first century.

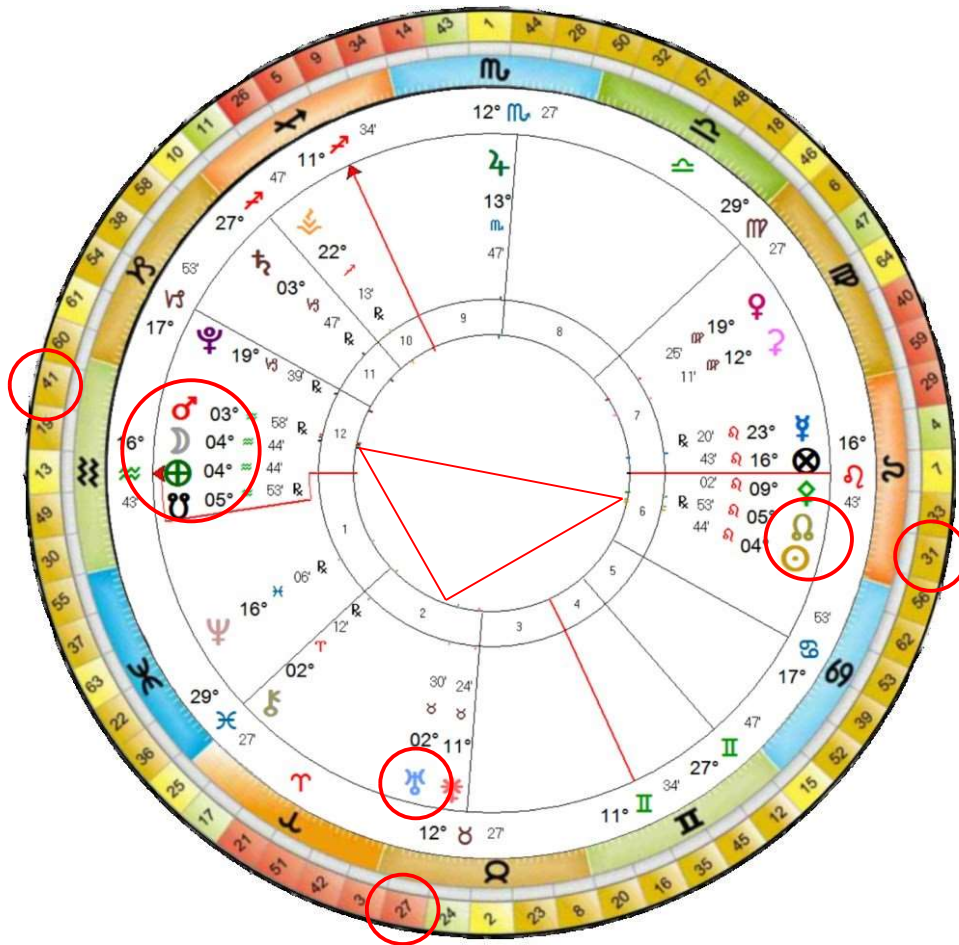

The Lunar Eclipse on June 27th has the Sun at 4.44 of Leo opposite to the Moon at 4.44 Aquarius.

So, before we begin to look at the planetary aspects and the Gene Keys that are being activated, it is perhaps worthwhile to contemplate the significance of this 444 that is occurring between the Sun and the Moon.

Number 4 resonates with practicality and responsibility, productivity, building solid foundations, stability and ability, honesty and inner-wisdom, determination and endurance.

Number 44 is the number of the Master Builder offering inner-strength and support to enable you to get the work done that you need to do in order to attain and achieve goals and aspirations. The need to continue on your current path to achieve the success and results you desire.

Number 444 is a message that you have nothing to fear in regards to your Life, Work and Divine Life purpose. When you take positive action towards your highest intentions, aspirations and goals, the Universe responds in your favour and helps you to establish these solid foundations and will advance you along your path.

This need to stay the course, to be steadfast, may well require a real inner resolve, a cleansing of any shadows that need to be addressed and a deepening connection to the Peace that lies within, no matter what is occurring in the outer world.

For, at the time of the Lunar Eclipse, the Moon is conjunct Mars in Aquarius, opposite to the Sun in Leo, all of which are making a 90° angle to Uranus, and this T square planetary energy combination is speaking clearly of freedom, new ways of being, liberation and spontaneity, building positive growth from out of the old structures.

From a Shadow level, this can result in disruption, argument and discord as individuals fight for their particular '*agenda*' to dominate in a selfish desire to get the best '*deal*'.

However, as shared in the earlier blog about the July 12th partial Solar Eclipse, Uranus is on GK 27, moving from **Selfishness to Altruism to Selflessness**, and as we witness this energetic being played out on the world's stage through the negotiations that are taking place in Europe with Brexit, between North and South Korea and the dialogue that has begun between USA and Russia, let alone the unbearable pain that is held within Israel and Palestine, Syria and all the countries that are in conflict, we will see how the Group Consciousness can and will mould

this potential for a more unified awareness that we are all one human family living on planet Earth.

The importance of dialogue as opposed to conflict is key to our evolution as a species - the Sun at 4 Leo is on GK 31, moving from **Arrogance to Leadership to Humility**. *The 31st Gift still carries an agenda, but this agenda is to help people out of the narrow mental confines of their own conditioning. Because the 31st Gift has its finger on the pulse of the collective patterns of humanity, it can have enormous influence over large numbers of people. Certain human beings operating out of the 31st Gift can literally **become the voice of the Collective**.*

It is the old conditioning that has to be let go of, it is these engrained ideologies, held by races and religions, that Uranus seeks to change in order that new ways of being can be created that will bring harmony and peace to this planet.

The Sun and Moon are conjunct the North and South Nodal points - the South Nodal Point links to the past, and the North Nodal Point points to future direction.

The Moon, on Gene Key 41, is on the South Nodal point, which links to karma that is being released from the collective feelings, thoughts and actions of humanity from timelines that stretch way back in time that need to be realigned. The 41st Gene Key, moving from **Fantasy to Anticipation to Emanation**, clearly describes this. *'The 41st Gene Key houses a truly remarkable archetype. It is the evolutionary pressure that surges up in human beings and **which carries our entire genetic history within it, all the way from the amoeba to Homo Sapien**.'*

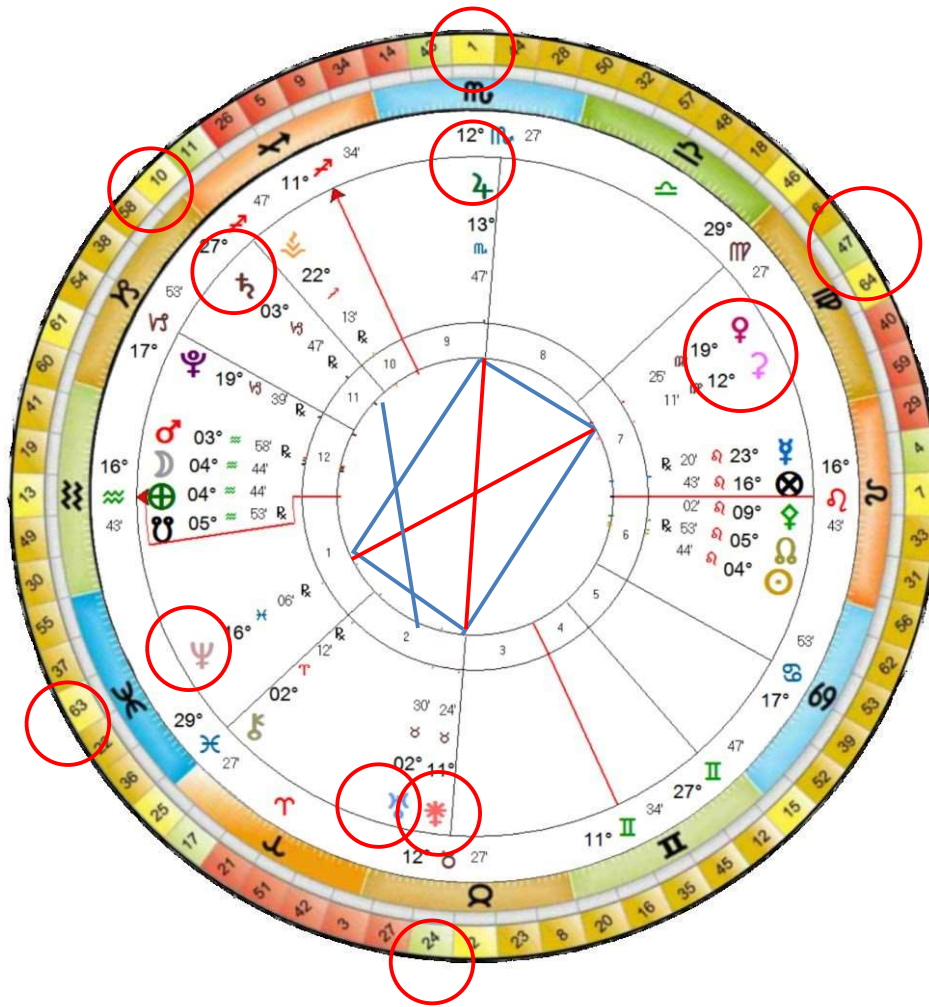

With Uranus making a 90-degree angle to the Moon and to the Sun, we have the real potential as humanity to finally step outside the Fantasy of the Group Shadow and to stand in our Truth as Enlightened Beings, for Uranus is the evolutionary energy that awakens and brings not only clarity and transparency but also gives access into Universal Consciousness. As such, this eclipse is a pivotal moment in time.

We need leaders with vision, and the placement of the Moon on Gene Key 41, is aligned to assist this process for...*'the 41st Gift gives the Gift of premonition or Anticipation, which links to its partner the 31st Gift of Leadership. The greatest leaders are those who build upon the past whilst anticipating what is to come. The 41st Gift has a single genetic agenda - it is always **attuned to the next evolutionary energetic grid that is waiting to descend into form.***

Inside each individual, there is a Leader waiting to manifest, not through arrogance but through humility and in knowing that we all play an intrinsic part within the Divine Plan, as each of us not only hold the vision of Unity and Peace **but are the personification of these Qualities** in our every action in our daily lives, we are moulding the outcome of the Group Consciousness into the next level of potential that is waiting to materialize here on Earth. For In this holographic Universe, every feeling, thought and action builds upon the Light Consciousness and the Elemental Field.

Before getting into the next major planetary aspect, you will see that Saturn at 3 Capricorn is making a trine to Uranus at 2 Taurus, which has the potential to facilitate inner and outer stability whilst incorporating innovation, inspiration and fundamental change within and around us..

Saturn is on Gene Key 10, moving from **Self-Obsession to Naturalness to Being**. *Naturalness unfolds through stages, and the final flowering of your inner Being manifests as a challenge to the current norm since **your true nature is always found at the cutting edge of evolution**.....*

So, underpinning the more obvious, energetic and potentially disruptive T Square of Uranus, the Moon and the Sun, there is a harmonious flow of high resonance between Saturn and Uranus, assisting us to raise the bar and the level of human interaction, which is also being amplified by an aspect between Jupiter at the top of the chart flowing down to Neptune, which then flows in sextile (60°) to Juno and then a trine (120°) to Ceres and Venus.

As in the earlier July Solar Eclipse - both Jupiter and Neptune remain on the same Gene Keys - transiting Neptune at 16 Pisces 20 on Gene Key 63, is known as Reaching the Source, asking that we move from **Doubt to Inquiry to Truth** - to understand that all that is being reflected to us, at any moment in time, is the level of Consciousness of that moment in time - nothing more, nothing less.

*'The 63rd Gene Key, known as **Reaching the Source, is part of the Ring of Divinity**... At higher levels of frequency, you begin to enter the holistic domain of synthesis in which all phenomena are increasingly seen to affect each other. This quantum world thus forces your Inquiry into a far more subjective territory - that of your inner self. When you begin earnestly and honestly to question your own nature and purpose - you begin refining your physical and spiritual essence to such a height that you arrive at liberation or spiritual realisation....**The Siddhi of Truth is everywhere - there is nothing that is not Truth.** Whatever happens, however, delirious or disturbing, it is nothing but Truth. Truth is simply the here and now in every moment at every stage of your life - it is Consciousness expressing itself.*

So, over these next weeks, as we may see many major shifts and changes occurring, we need to be the Witness without Judgment to all that is unfolding, with the deep realisation that Consciousness is unfolding according to Divine Law and the level of individual and collective consciousness.

Assisting us to stay in this non-judgmental overview, Jupiter is on Gene Key 1, moving from **Entropy to Freshness to Beauty**, and *'As this Gift awakens inside your DNA, you will find that you automatically inject Life and Light into any group of people you are a part of. It is through individual creativity that all diseases and negative patterns will eventually leave this planet. **This Gift brings the potential to be a clear vessel** for the creative process so that evolution can flow through you and find its way to a permanent state of Love, Beauty and Unity.'*

As well as this trine of Jupiter and Neptune, there is the Juno trine Ceres conjunct Vesta aspect which is also assisting us all to move into the next level of awareness.

Juno, which represents the balanced male-female within, the Unio Mystica or Sacred Marriage is on Gene Key 24, moving from **Addiction to Invention to Silence**.

*'At the Shadow level, we humans come pre-programmed for Addiction, and the main culprit responsible for this is our mind. The mass consciousness of humanity is still dominated by the archaic fear and survival-based aspects of our brain.....The 24th Gift is truly magical and contains the secret to genius. Genius is far more than lateral thinking - it is the ability to make quantum leaps. **To contemplate the Silence is to surrender yourself into the great mystery** until it suddenly reveals itself to you through a process of deep insight. It is all about those gaps between the cycles - the intervals between lives, the spaces between atoms, the Silence between notes. Magic and mutation occur within those gaps of Silence. In human beings, this codon allows you to make quantum leaps in terms of the evolution of your awareness.*

Ceres at 12 Virgo is on Gene Key 64, The Codon Ring of Alchemy, moving from **Confusion to Imagination to Illumination**.

*'This is Imagination without the personal "I". When Illumination floods your being, it also takes possession of your mind. In this sense, to be Illuminated means to think God's thoughts. At this level, the Mental Body gives way to the Causal Body. At the Divine level, your Causal Body/Soul becomes your physical vehicle..... The 64th Siddhi gives rise to the aureole - the halo surrounding the head of the Enlightened. To be Illuminated by the 64th Siddhi is to remain empty while being constantly flooded with the Light of the inner aurora - it is to be **an easel for the imagination of the Universe itself.***

And finally, within this aspect, Venus is at 19 Virgo on Gene Key 47, known as Transmuting the Past, moving from **Oppression to Transmutation to Transfiguration**.

'The 47th Shadow is the storehouse of human karma. In genetics, the 47th Shadow refers to what is called non-coding DNA or 'junk' DNA. The fact is that every human being carries the entire evolutionary memory of humanity within their body and is unconsciously driven by this memory.

The 47th Siddhi reveals the ultimate purpose of the non-coding DNA within the body, which actually does code for a process within the physical body. The Life of Jesus Christ is, in fact, the perfect enactment of all the stages of alchemical transmutation ending in this state of Transmutation..... when the very cells of your body begin to transmute into the pure Light frequencies from which they are made. The elements that make up your body were made in stars, and you turn back into a star in your own mini supernova.

*This is the Unio Mystica or Sacred Marriage in which all your constituent elements dissolve back into one another, and out of your base matter, symbolic gold is formed. Humanity stands upon the threshold of one of its great Transmutations. As each individual faces, embraces and transmutes the collective fear that lies within the heart of every human's DNA, we are **Transfigured by Divine Grace** - accessing the Divinity that lies within each and every one of us.'*

So, this is a very powerful time that we will be passing through leading up to the 8:8 Lion's Gate when we can all collectively play our part in clearing the collective karma - holding High Resonance and the Highest Intention for All, no matter what is unfolding through the collective unconsciousness.

This Shadow work is Sacred Work. Souls who can enter into this field and, by their presence, acknowledge and connect with pain, discomfort or fear whilst not becoming overwhelmed or over-identified with the energetic, refine, realign and restore the distortion back to Light - through awareness, we not only clear any miasma in our own auric field but refine the Field for all.

As such, this healing work of restoration and repair is not only essential, it is inevitable for those who volunteered to assist in the repairing and clearing of the Group Shadow at this time, and as we move through August, this is a central focus.

*The Kabbalists have a phrase - Repairing the World - they say that when the Creator created the world, he created a series of **vessels to hold the Divine Light**, but as the Light flowed down into these vessels, they shattered and fell towards the realm of matter.*

Thus we now live in a world of countless shards of the original vessels in which the Divine Light is trapped. They say that every virtuous act committed by a human being helps to repair one of these broken vessels.

Each year at sunrise on the 8th of August, the Lion's Gate portal opens as Sirius rises above the horizon just before the Sun and the intensification of their light floods onto the Earth. The Sun on this day is on Gene Key 7 from **Division to Guidance to Virtue**

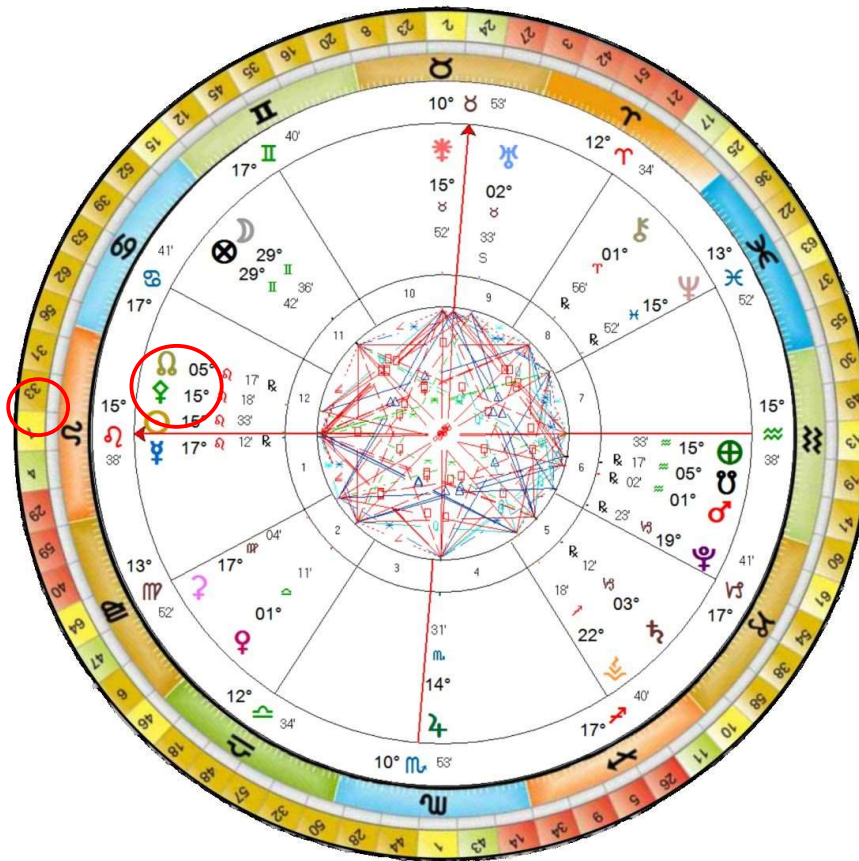

'The 7th Shadow represents the force that shatters the vessel, the Gift of Guidance begins the process of reuniting the shards, and the one in whom the 7th Siddhi manifests becomes the

*Adam Kadmon - the perfected vehicle of Divine Realisation. The 7th Siddhi waits for a specific moment in time to awaken in the collective. In the Book of Revelation, this 7th Siddhi is represented symbolically by the opening of the **Seventh Seal**, which precedes the return of **Christ Consciousness**.*

Here is a link to an invocation/meditation which is central to all that is occurring right now - and which links not only to the Elemental Kingdom but also to Sirius and the upcoming 8:8 Initiation of Light, so do listen if you feel so drawn to do.

This is the chart for Sunrise on August 8th at Cairo in Egypt and you will see that this year, as the Sun is crossing the Horizon, Pallas Athena is also exactly conjunct with the Sun at 15" Leo.

With the Sun and Pallas Athena together, at this point in time, this alignment of energies speaks of the transformation of the mind; how we can transform the mind into a truly healing vessel - indeed, how we can create through a Mind and Heart that is aligned and attuned to Divine Consciousness - it is about stepping into this Power.

We are still so used to working, thinking and living in the 3D reality, and the 8:8 Portal is radically changing the parameters of what is possible and consistent with Higher Purpose. 'As

you think, so shall it be' is the Reality that we are now co-creating in and the clearer our vessels, the quicker the manifestation.

It is time to step into the Truth of who we are, in service to all. The more we release old memories, emotions and thoughts that no longer serve, the more we can embody this **Truth** with Light-filled Clarity.

On the 8th of August, the Sun will have come to 15⁰ Leo in the sky, and the image for this degree from the **Astrological Mandala by Dane Rudyhar** is

'The storm ended, all Nature rejoices in brilliant sunshine'

The image speaks for itself. How brilliant the Light after the long 'Night of the Soul' The battered but unconquered Consciousness finds itself exalted in the marriage of sunbeams and rising sap. This indeed is 'Release' - Light and Life singing in the cleansed and refreshed mind....the Joy and Power of New Beginnings.

So, another reminder that as we go through August, we need to integrate and embody in Mindfulness how we are interacting within our everyday life, how we are co-creating in every moment in this *'New Beginning'* in this renewed and rebooted Crystalline Grid.

One last image - Saturn and Uranus hold the archetypal patterns of stability and liberation. Saturn holds form, Uranus Higher Consciousness and Chiron, which, through its orbital path, encompasses both of these planets, assists in increasing the levels of photon light within our cellular structure.

Chiron, on 8th August, is on Gene Key 25, moving from **Constriction to Acceptance to Universal Love**.

'The 25th Siddhi is Love itself as the Source of all, and in this sense, it can be called Universal Love. The sacred wound that hides within each human being can be understood at three levels of consciousness - at the Shadow frequency, the wound maintains human suffering, at the Gift frequency, the wound provokes humanity to evolve, and at the Siddhic frequency, the wound reveals humanity's true nature as an Expression of Universal Love....Every time someone attains the 25th Siddhi, a great genetic constriction is removed throughout Humanity. The bodies of these people have undergone a radical transformation in order to be the receiver or chalice for pure consciousness.

Love and Blessings to All
