

Part 18 - Earth Nuclear And Chemical Affairs - 'ENACA' Petition

PETITION APPEAL - RUTHLESS COMPASSION - PETER, 23RD OCTOBER 2019

INVOCATION: Thou Mighty, Majestic Christ Power, now grown to Full Stature! We Salute Thee by the Sign of the Heart and Head, accepting the Fullness of Thy Mighty Power made Manifest in the Hearts of the Disciples and Initiates and of the people of America and the World. We Accept the Fullness of the Light and Its illuminating 'Presence' within the Heart and Mind of each One, surging forward with such intensity that It carries the Courage and Strength for everyone to make the needed conscious effort which will enable the Mighty 'I AM' Presence to Raise the Atomic Structure of Humanity into its Full Ascension.

PETER: Blessings of Love and Joy come to us today as we begin to outline what it is that the SOEPC can do to incrementally increase our physical, mental, emotional and Spiritual Love In Action in all three categories of the Laws of Ashramic Group Life and the Ashramic Synthesis that allows for the successful Application of Our Group Energies as was defined in the last Discourse by Beloved Master Rakoczy.

The Objective today, Beloved and Esteem Members of the Karmic Board and of this ENACA Council, along with All Who are connected or may read or listen to this in the future, is one of defining the Applications of Ashramic Group Life to the point that shall require two things:

1. That even though we strive to fulfil Our tasks as best we can within Our Commitments and Responsibilities of Application to Group Life, Our determination is unfaltering. Our Pure Intentions remain intact while we continue to live within the parameters of our daily lives, even though we know that these must change in all their forms if we are going to pass through the next Levels and Rings of Higher Consciousness. Surrender is upon us, and for it to succeed, we HAVE TO MAKE NEW CHOICES AS TO HOW WE LIVE OUR LIVES!
2. We need to, as individuals and as a Unified Group, understand more clearly what an Ashramic Group of Synthesis In Action is! Information is made up of words, but until those words are placed into experience, they remain just words without meaning or purpose. Therefore the Living Framework Study Guide that has been created upon our Beloved St Germain's request, there is more, and with this Combined Forcefield of the Elemental Grace Alliance, we will Stand Forth and Move Forward as time, resources, New Opportunities, and monies become available to Apply such words to our lives that will Create a Whole New System of Expression, Demonstration, Countenance and 'Presence', Revealing the New Ashramic Group Life for the New

Elemental Grace Alliance - 'I AM' Nation! *(A Group of people from all over the world with the same or similar beliefs, same incarnate origins and inheritance, same expressions of all Seven Spheres of the Ray Qualities and Virtues, and all with the same Goal; Purpose and Will to Serve Humanity, The Earth, Elementals, Devas and Angelic Host)!*

Yes, we are aware that the EGA is in a Transitional stage, a place of Transmutation in Form and Consciousness and Transformation through Ceremony and Application of a New Life of Service. With this, everything within it must now change, with the old patterns of consciousness being stripped away, New Formulas of Approach to be Created and Implemented and the removal of any separation consciousness that may presently exist, be transmuted into a Great Awareness and Application of God Life!

It was Master John the Baptist who said this about the Application of God Life or True Ashramic Group Life under the Over Lighting 'Presence' of the Masters:

'Part 1 - Paying It Forward Concept Above The Principle - John The Baptist, 25th June 2019', which is a worthy review, indeed, under the circumstances we make this Appeal.

The difficulty is in bringing the concepts of the Wisdom, which you have grasped in the one area of your mind, down into their applied techniques or science, within your very bodies, within your energy, force, and substance, and particularly in your deeds. So, there is a gap between you as the Conscious Soul focused in the cave, aware of the Wisdom in certain areas, and you in your personality, life and affairs. You have a very great gap which you are going to have to bridge.

You wonder, what is the matter with your economy? It is the lack of Intelligent Activity. Your lack of Insight into this is almost phenomenal. There are two ways to look at your problem; there are two perspectives here. The Master Rakoczy looks at it from one perspective, and, of course, He is right. He is looking at it from the perspective which sees you as Souls in the Ashram.

Perhaps because My Own Position is far below His Own, and because My Responsibilities are not so great nor so wide, and My Relationship with you is somewhat different (from a different level altogether), I prefer to look at your problem from the perspective which sees you as incarnating Souls, not so much from the perspective of you as Souls in the Ashram, but as incarnating focuses of consciousness within your own brain. It is attempting, endeavouring, making every effort, to become Soul-Identified, to become Soul-Focused, to become Soul-Active, and it is with this, from this perspective, that I view you. I would say very frankly and very honestly that you should consider anything you receive from Me in this Light.

It appears that I may be projecting to your ideas and concepts, which seem to conflict with those which you have received previously and which you would be receiving now from the

Master Rakoczy. Realize from the perspective from which I do view you and am making My Approach, and then make your choice as to what, how and when, what you shall accept and what you will apply. End Excerpt

Yes, we acknowledge and are determined to adhere to such advice, and that is why we shall complete the building of all Bridges of Consciousness that have been set out in the Elemental Grace Alliance Divine Plan along with Covenants and Pledges that have been Endorsed, Sanctioned and Qualified by the Masters, Ascended Beings and God Intelligences. We also understand that we need to become more Ruthless in our Compassion to Life and All Lifestreams we encounter whom give us permission to do so!

In Ruthless Compassion, spoken about within the Book 'The Christ Blueprint by Padma Aon', anything that stands in the way of your growth must be cut away: any attachment, any fear, any person of any sort that distracts you from your goal is removed by the sword of Ruthless Compassion. It is the Ruthless cutting through of any and all illusions and ignorance to awaken the Soul to what is Real. It is death to the ego and total Surrender to God. Ruthless Compassion is the Compassion that is unmoved by worldly troubles, cares or concerns. It is direct, clear movement that dissolves all obstacles in its way through using the sword and the axe to cut through the tap roots of egoism, no matter how its actions are perceived by others. It is Compassion for the Soul and the Bigger Picture; it is the lack of any concern for the ego, as the sword strikes and the axe drops. It is the Freeing Force Harnessed to the Will of God, and it has no remorse. Once started, it can never be stopped until all obstacles, ignorance, and iniquity are removed, dissolved or remove from one's life.

Ruthless Compassion provides rapidly accelerated evolution where no stone is left unturned and is for those that wish to be fully enlightened, no matter what. In Ruthless Compassion, one is ready and willing to do absolutely anything to become a Channel/Messenger/Medium/Vehicle for the Will of God. Ruthless Compassion can appear to be cruel, as it usually involves giving you what you need to grow rather than what you want. Comfort comes last on the list of priorities for Ruthless Compassion. For this reason, Ruthless Compassion will often not be appreciated and may be received with judgment, resentment, and even anger. The Heart of Ruthless Compassion is the Heart of Spaciousness, The Heart of Love, that allows others to be in their pain and suffering so they may grow. It is relentless in that it is not affected by pain or suffering; it sees all without hiding, flinching, or avoiding. This is the Heart of Acceptance; accepting what must be for the Highest Good of All concerned.

Ruthless Compassion requires Great Surrender and Wisdom to flow with it and implement its actions and directions. Wisdom here is the ability to see beyond the appearance and see the true clinging, suffering and need of a person, situation or event. Acting on this directly arises from being objective, calm, and Universal in Understanding. Ruthless Compassion is not an emotion or feeling. It is a Way of Being that arises when we are fully Dedicated and

Surrendered to God in ourself and, by extension, all others. It is uncompromising, direct and unflinching. Ruthless Compassion becomes a process of relentless Surrender that grinds down anything that stands in the way between God and you. It witnesses what is happening in the Great Silence and being Totally Present at the same time. This also leads to Total Harmlessness, as no reaction, no harm can affect you when you have no harm, no violence, no triggers left within you. Then these forces can be wielded in order to Serve Love most effectively, as and when it is required. End Excerpt

Be sure, before one enters into any Ruthless Compassion actions, that you Qualify any such action first with your Own 'I AM' Presence on how to proceed, for any such action must be done in Unconditional Love, and you will be held karmically responsible for any wrong actions. The Cosmic Laws also apply here!

Beloveds, we wish to go into such detail within this Appeal, even though it may not be deemed necessary, however, sensing there 'is' a need, from our viewpoint, to prove that we are looking at this as feet upon the ground, that is, the SOEPC, do understand that the recent pregnant pause that we have been going through over the past 2 months or so, has been for a reason, and that reason is very clearly stated when St. Germain said to us in His '**Conserving Your Energies - Week 34 - 'I AM' Discourses - IAMEGA Study Class - St. Germain, 18th August 2019**' Discourse. We want you to Know, Dear Brother, Dear All, that we, the SOEPC, are Listening, we ARE taking notice, and we ARE prepared to do whatever it takes to fulfil this Divine Plan!

Your choices thus far, even though they have been '*free will*' placed in Alignment with Divine Will, MUST now Stand Forth within the Cosmic Laws or not. All whom have given their Pledges to God's Obedience to Life will either now pass through the next Rings of Consciousness Passeth Not or have the Door shut firmly before them. None of you here are Students; you are Masters of your Own Realities; it is only the Reality that you must now decide upon that you wish to continue within. As you have been told, you can no longer Serve two Masters and continue up the Rungs of The Ascension Ladder. We, the Masters, have infinite Tolerance and Understanding, but We cannot and will not interfere with one's '*free will*' when it comes to disobedience to the Laws of the 'I AM' Presence. Remember, this is not about personalities. **It Is Cosmic Law!** End Excerpt

So, we say to the Karmic Board we '*have*' a New Focus and Intention to move more deeply into becoming this New Ashram of Synthesis that All of You so Lovingly tell us about now. We tell you that what has been shared in Ashram of Synthesis Teachings of Beloved Djwhal Khul, Master Rakocsy, Kuthumi, Beloved Maha Chohan, and El Morya, amongst Others, through Lucille Cedarcrans, is understood and with Your help, we will now open more deeply to setting in Motion the following sections that make up the 3 Ashrams that Unite the 1st, 2nd and 7th Ray Qualities and Virtues. DK tells us:

As we realize, the New Ashram of Synthesis carries the responsibility not only of incarnating (so to speak) as a conscious Soul within the body of humanity but of building the new forms of the new civilization which can and will adequately house that incarnate Soul and provide for its continuing growth and development. The Ashramic Group Life is constituted (if you will please excuse my terminology here) of three major '*sections*' insofar as its focus of attention is concerned.

These major sections, which are determined by the three major Ashrams which have come together to create the New Synthesis, are:

That section which deals with Divine Purpose, Divine Power, Divine Will, and which is reflected outwardly, works out within the Body of Humanity as Government; works out within the Group Life as Co-Operative Leadership, as each individual within the Group follows his or her own overshadowing Spiritual Soul Guidance, which is his or her Governing Agent, so to speak. The Head centre then of the Group Life is the Ashram.

The second section of the Ashramic Group Life is that of the Consciousness aspect, the Soul Life of the Group dealing primarily with the growth and development of the Incarnate Consciousness (incarnate on Ashramic Levels within the Causal sheath; incarnate below these levels within the threefold instrument). This section of the Ashram is reflected outwardly within the body of Humanity, primarily in the field of education, within the Group Life, in the same field (that of teaching), as well as any other activity which deals specifically with the Soul Life. I Am placing in this section (and deliberately so because this is the New Age into which we have entered), Healing; all of the cultural activities of humanity; and, in part, the field of Science, particularly in Research.

The third section of the Ashram is that of Intelligent Activity, the form-building section of the Ashram, which has to do with the building specifically of the new Forms of the new Civilization. This works out in the Outer Life and Affairs of the Group and within the Body of Humanity in the Field of Business.

We have here three major sections of the Ashramic Group Life, insofar as that is concerned, of the Hierarchy. We see these Three Major Sections out-pictured within the World of Affairs today in this Civilization, which is rapidly moving out of incarnation. The first major change to be made in the Economic structure of Humanity has to do with the relationship of these Three Sections, which are a reflection, truly, of **the Trinity itself: Spirit, Matter and Consciousness**.

It is extremely important that you grasp this concept. The first major change in the New Civilization must be made in the '*economy*' of the World itself. That change must be in the relationship of these three sections (or fields or departments of human living) to one another. And that change is very simple, as follows:

The purpose of business is to substantiate and subsidize the growth and development of human consciousness, to build those forms which carry the Light, the Love and the Power of the Soul into outer expression. This is the purpose of business, any business, all business. This is its only purpose.

For education to become a business or to enter into business, this is wrong relationship. Business is the Intelligent Activity which will build the forms of the incarnation necessary to the growth and development of the Consciousness aspect itself. Finance, then, intelligent substance, is the substantiating or subsidizing aspect or activity. This section then must support or subsidize the education of the human consciousness; the Healing Activity, which in this New Age, has to do with the Healing of Consciousness; all of the cultural interests and activities of Humanity which relates specifically with the growth and development of the human consciousness, etc.

The Purpose of Government is to coordinate these two other sections, that which deals with and is under the large heading of education (or rather the growth and development of the human consciousness) and the Intelligent Activity, which supports, substantiates, subsidizes that growth and development. The Government then must work through the concept and activity of Co-Operative Leadership to coordinate the activities of the other two sections.

Thus, we begin to bring about within the World of Affairs that right relationship between Spirit, Matter and Consciousness, which will not only heal the economic ills of humanity as a total but which will generate a creative economy capable of Transmuting the Material values into Spiritual values.
