### UNIVERSAL FIELDS OF DREAMS - ABRIDGED VERSION - CLEANING UP THE OIL IN THE GULF OF MEXICO, 3<sup>RD</sup> JUNE 2010

**PETER:** On the 3rd of June through to the 6th of June, 2010, a Unified Group of like Heart/Minded Co-Creators are being called to join Hands, Hearts, Minds and Souls (Universal and Human) to undertake a Unified Collective Field of Universal Consciousness for the transmutation and transformation of the oil spilt in the Gulf Of Mexico.

The time schedules of the Gulf of Mexico At-One-Ment Consciousness Gatherings are:

3rd June	17.25 pm - 17.55 pm BST (London)
4th June	Holding Clear Consciousness for the Gulf
5th June	Holding Clear Consciousness for the Gulf
6th June	07.10 am - 07.40 am BST (London)

*‘As a Genuine Human Being walking with Mother Gaia today, you ARE now able to manifest Miracles in the physical form. Your aspirations, visions and dreams tell you so! Your Inner Reserves of Knowing are your foundation stones of Faith. Recognize the Powers of Creation held within you, safeguarded, on behalf of the Prime Creator. Step beyond the veil now and into the world you wish to Be!’ - Peter*

#### Introduction

*“No Universal Law denies you the right to extend yourselves, reaching for that Godly experience of altering matter. Indeed, that is every bit a part of your Spiritual climb, as is your desire to Know Prime Creator and to understand the significance of all that exists everywhere around you.”* Excerpt from No More Secrets, No More Lies - The Sirian High Council through Patricia Cori.

#### The Clarion Call

“This clarion call is about the Freedom and the Sovereignty of Humanity and Its Right to Know Its Own True Nature. This is achieved through the personal realization of experience - the expression of focused emotion toward a desired goal through Heart directed movement and action for the Highest Good of All Concerned.

“This quest, or experiment as some may see it, is not about the belief of whether this can be achieved or not. It is a quest within Time and Space of finally declaring We Are a Part of the Universal Oneness that we so often hear about. It is, quite simply, the KNOWING that it can be done!

“The potential outcomes will indeed be set in place by those who have, or are now beginning to step through the subtle veils of Dimensions - away from those of the old mass consciousness - the limitations of belief patterns and Systems that no longer serve. We are now making the choices, by necessity, to step entirely into the New Realms of Cosmic Awareness and Universal Consciousness.

“We must all take full and absolute responsibility for this event, for without this acceptance and the ability to respond, the cleaning up of the Gulf, physically, will only be a temporal measure.

“How do we clean up the oil in the Gulf?

“It is simple; just feel the depth of the human emotion of Gratitude knowing that you are a Facet of the ONE in the ‘Presence’ of the Divine Creator. Here there is no room for egos, judgments or criticisms, no blame to lay, just to embrace all in Divine Blessings of Forgiveness, Love and Worship for the Greater and Highest Good of All!”

#### Understanding Heart and Thought Worship

*“God is Single. However, His Power reflects parallel to each person’s Frequency of Thought. Worship is the effort made in order to reach Him. This effort elevates Your Mental Potential and Your Frequency and makes you attract more Power and Energy from Him. These Energies cause You to attain the Power which conveys You His Existence To His Consciousness, Through Your Thoughts. Paths of Worship are not single. They are numerous. Because for Us, each Thought, Each Breath produced positively, is a worship. We may divide the Worship made on Religious paths into two:*

- 1. Worship through the Heart - means Worship towards the Total, it means attaining Him through Form and through Prostration.*
- 2. Worship through Thought - means attaining the minutest Particle - Consciousness Discovering Him, Seeing Him, Loving Him in all Creation.*

*“And transition from Form, towards Consciousness, is possible by Human Being’s grasping the Awareness of the Entire Ordinance. Worship in Form is for the Human Being’s Own Self. Worship by the Essence is for Humanity. Worship through Service and Work is for All Realms, for All Cosmoses.”* Excerpts from ‘The Knowledge Book’ - World Brotherhood Union Mevlana Supreme Foundation.

“To be clear and precise, we are not here to blame or cast judgments. In fact, we are not even here to stop the oil flowing from the depths of the Gulf, although Our Collective Consciousness may do this automatically - as a result of God’s Will through Us. We are here to accept responsibility and claim the ownership of the event through the Divine Acknowledgement, Forgiveness and Gratitude for this reflection and the lessons they have offered us. The clarity is to Know Ourselves in the New Light of Being Genuine Human Beings.

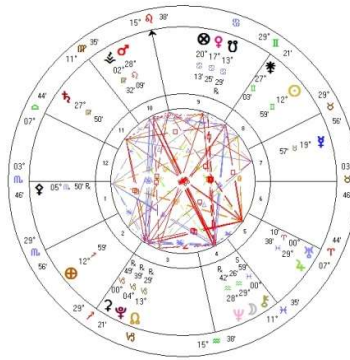

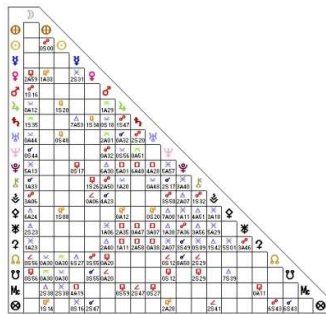

“With this in Our Hearts and Minds, We claim Our Sovereign Rights to express Ourselves as Co-Creators in these times of massive Life changes. When Jesus Christ changed the water to wine, he did not add sugar, he simply applied to the electromagnetic field of consciousness, human emotion and ‘*Presence*’. So, the combination of Cosmic Alignment (‘*Presence*’) and human emotion (in our case, gratitude for the lessons learned) were deemed to be the prime requirements for the preparations of the quest.

“While standing within this Unified Field of ‘*Presence*’, all we need arrives at all levels, one step before the other, one moment synchronized to the next, all linked in Perfect Harmony within the Whole - Precise, Perfect and Complete of Its own Creation. It is all a question of Faith, Trust and Allowance, held within the certainty of the most beneficial result being achieved. If you seek Yourself within yourself, if You discover Your Lord within Yourself, if You make your Prostration with Your Essence, if You Love without being Loved, if You Give without Receiving, then You attain the Degree of being the Servant of God through His Consciousness. From then on, Your Worship is to the Human Being, to Humanity, to the Realms, to the Cosmoses, to the Universes. Social Work done by this Consciousness is the Genuine Worship required.”

The Astrological Perspective - Sue Martin

“From an astrological perspective, on 3rd June 2010, the Moon will connect with and pass over the Neptune/Chiron conjunction. At the same time, Mars will be opposing this point, and so we can bring our focused action (Mars) and our mass consciousness (Moon) to healing the waters (Neptune/Chiron). Over the next few days, as the Moon moves away from the conjunction of Neptune/Chiron, it will move towards the Jupiter/Uranus conjunction and on the 6th of June, they will be together in the sky at 0 Aries.

“The Jupiter/Uranus conjunction will be opposed by Saturn, so this is a time when we may expect the unexpected - when previously held beliefs and limitations may be radically altered as a fresh perspective is born.

“On June the 3rd and June the 6th, at the specific designated times (you may need to convert

the times for your areas), we would ask that you link with this Collective Consciousness to concentrate all the potential Energies available to the Gulf of Mexico through Our Expanded and Unified Awareness”. (End of Sue’s astrological perspective).

“Give your Heartfelt Gratitude and Thanks to All, especially the Water Elementals, for all that They have Gifted to humanity, ask them to use Their Divine Consciousness to transmute the oil back to clear and Pure sparkling water - feel this Gratitude with deep Emotional feelings from within your Heart Centre and every cell of your body/bodies.

“Use your Imaginations to see the oil being transmuted by the Waters of the Gulf of Mexico, on, within and around the coastal regions, cleaning all the affected animal, marine and bird life. KNOW the Divine Love We are embracing within the Gulf is Healing through transformation Everything, including the hearts, minds and environments in the Process. Feel and experience the sense of Profound and Gracious Joy and Gratitude for the clear sparkling waters returning to the Gulf and affected areas. See, Feel and Know that the oil has disappeared and the clear waters have returned, full of abundant life - feel the vibrancy of this within yourself, see and feel the release of fears within the Hearts of mankind - feel it deeply within every cell of your body/bodies. We would ask that you hold these Heartfelt feelings of Expanded Awareness for 30 minutes during the designated times and in between to remain conscious of the quest and continue your connection, realigning your focus to maintain this Energy Flow as a smooth, gentle and Graceful transmutation and transformation.

“When human consciousness is raised through Heart/Mind Centeredness’ to the levels of Divine Universal Consciousness, the conscious vibration of matter, the substance, is raised to its exalted state of being and is either transmuted or disappears forever.”

#### Love In Action

“To keep up with the speed of the Evolution upon Mother Gaia now, it is appropriate to step out of time and space and step up to the challenges that will be created through this action! It is time To Be - LOVE IN ACTION! Love is now proactive, unless we use it, it remains dormant and Life less. Let us break our old patterns, become the Ones we always believed We Were but were too afraid to show ourselves or others. The times for masks are over, time for disguises has ceased to exist, time to BE in this world for Who We Are within the Humility and the Grace of Our Prime Creator for the Highest Good of All. If we truly desire to make a difference in our lives, then we must understand that life is an unfinished process, always in a state of completing and becoming.”

*“The ultimate expression of your Godliness occurs every time you raise the vibration of your thoughts, those of the collective and matter of all densities and structures. In these moments of Supreme Awareness, you are not ‘playing at’ being God, you are Gods. Gods of the Earth Kingdoms and Gods of the Universe, breathing Your Souls into the Matrix.”* The Sirian High Council through Patricia Cori.

“Stand up now without fear and declare Who You Are, strip away the mask and throw away the disguises. Look through new eyes and face the world as It IS Be-coming, not for how it is seen by most!

“Let us set the Divine Universal Intention and Purpose to Purify and safeguard our precious Worldly waters, resources and all Life by being proactively engaged on all levels of consciousness, not just those of the old paradigms! Let us join together as One Expression of God Humane Being to make the difference we choose for Our New World”. - (End of insertion).

“I cannot say how far or wide this went out around the world or how many people became involved, but I do know that two or more who connected to this Dream Created a Universal Effect! I personally have never heard anything about the oil spill since that time, like so many things that just slip away off the radar of human awareness or, indeed, the human need to know thought form and attitude?

“Bless you Arcturus, for this reminder, it is a very powerful one indeed! God Bless You!

“This aspect of the Cosmic and Planetary alignments in association with Human Intentions to Invoke change is a clear reminder for me just how important this is, as part of the

collaboration of The Law of One in any of the Healings and Clearings that We may become involved with.”
