

Part 20 - Introduction - Elemental Grace Alliance

INTRODUCTION - HELIOS AND VESTA, 6TH JUNE 2015

HELIOS AND VESTA: *"Blessings, Children of the Light. Blessings to All Who Are Seated here that have held and Who continued to hold the Visions of Purity, Peace and Joy here on Earth and this whole Solar System. We Are Helios and Vesta, and you know Us well as your Planetary Sun in the Solar System. Although We were not the original initiators of Our Earth Vision, We did Gracefully respond to a clarion call from The Great Central Sun. It was Beloved Alpha and Omega who set this Prime Creation into Being."*

"Time is but a blink of the eye in The Mind of God, yet in the time that has taken the Earth to evolve to date, so much has been achieved. So much has been given and received! So much Heart Love has been shared without any expectation of return, for nothing more than for Love's Own Joy!"

"And here We sit Together, Brothers and Sisters, All within the harmonic tones, timbres and colours of Source, Each with Their Own Individualized yet Unified Resonant Vibration of melodic and atonal scores in this Divine Song of Creation."

"We have gathered here in this moment of Earth's Expansion of Consciousness to assist in a new vision presented to Us, with the intention to radically change some of the present imbalances that face humanity and the Elemental Kingdoms. We wish to say that so many have contributed to the Creation of this Solar System and that it is for humanity, in Principle, that this gathering has convened, that We All continue to seek the most efficient and effective way to support and lift them out of the mis-creations that They Themselves presently see as Their reality."

"The Power of this Alliance is the same Power that Unites Everything within the Universe, within and around the Earth. Love is the Cohesive Power that holds everything together, the Electrons in every Atom that comprises form. Without this Love, the Earth and all those who live here would simply dissolve to nothingness."

"It is, therefore, the Love Radiance of the Elemental Kingdoms that We owe all manifestation to the Elementals, for without Their Loving Tenancy, humanity would not exist at all. There is then a great need today for mankind to externalize this Divine Love Law, and It must be implemented in every way possible so as to eliminate all destructive tendencies. For with Love comes harmlessness, an inability to harm anything or anyone. This is the Natural State of the Universe, and it is this Divine Virtue that shall dissolve All mis-creations made by mankind."

"The objective with The Elemental Grace Alliance is to find a way to use this Law of Love and Its Harmless Attributes to renew an Age-Old Trinity that has, for far too long, been lost to duality.

"We shall close now and look forward to the Expression of God's Love through this medium. We are Helios and Vesta Shining Our Love Radiation for All to Feel and see".

I felt that Helios had a lot more to say but decided to cut His introduction short. So, we simply continue with the next speaker.
