

## Part 20 - Protecting The future - Elemental Grace Alliance

---

### PROTECTING THE FUTURE - SHEKINAH, 3<sup>RD</sup> AUGUST 2015

**SHEKINAH:** "I Am Shekinah, and I have elected to step forth now to say a few words before Our Beloved Alpha and Omega close this round of Discourses that vibrate so completely with the foundations for '*Protecting the Future*' of this Beautiful and Loving Planet and all of its inhabitants, not just human, but The Elemental, The Nature Kingdoms, The Angelic Devas, The Angelic Host, the animals, birds, fish and so much more.

"Dear Ones, so much has been shared, and so much has been revealed to date, that with hope and faith alone can be even more profoundly used as a vehicle to truly make a difference and change yet again a more defined and refined understanding of '*where to from here*'.

"As I have outlined in My original introduction, I Am not here to interact in the same way as Each of You, for indeed, the vastness of The Expertise and Knowingness around this Table Of Love and Light covers all of the parameters required to take this Proposal to the next levels of discussions.

"In Light of the information brought forward thus far, I wish to note that most of the discussions have revolved around humanity and in what areas they can be of most assistance in the future. Although this is of wondrous support to the Proposal, it is not the complete picture from which to evaluate any radical advancement toward the goal.

"There is still a great deal to discuss, particularly the significance of any potential suggestions or ideas within the various locations of human and Elemental involvement. Therefore, I would ask that the next round of Discourses begin with an aspect of a more direct theme that will enhance and uplift For the Greatest Good of All Concerned. And how the new topic may be viewed and assessed by The Council. I would also like to inform You All that there will also be further Guest Speakers within the next round due to an even greater expansion of sensitivity, discernment, insights and ideas which will be revealed. Within the next series of Discourses, it will perhaps be the most intricate and challenging round to navigate, steer and plot a course from one potential to the other. However, as God is Guiding Us All, We Know that Thy Will Be Done!

"The time is approaching where the discussions are going to fully embrace the Heart of the Proposal, and so, the full interpretation and understanding must be incorporated, and especially put into a language of communication that will be clearly cognitive for those who will feel drawn to this Alliance. We Know that there is so much here that is entirely outside of the present awareness of humanity, and so there must be an effort made to abundantly

and completely comprehend all its influences, inferences and implications. Simplicity is the Key here!

“Peter, in the most Loving of Ways, I wish to ask you to begin the next round of discussions that will, from your perspective, lay the foundations for what shall now be the Alliance Summit of these Discourses. The zenith or pinnacle of the whole of your Elemental Grace Alliance Proposal. Take your time Dear Soul, for it shall be your responsibility to design, describe, draft, demonstrate and substantiate the landscape of thought and emotion of ‘where to from here.’

“This shall be no simple assignment to undertake, and I will add an even Greater pressure on you by saying it will be what you place upon the Table now that will indeed secure the direction for what will transpire as a Divine Gift to Humanity, or it will diminish the momentum to something that will no longer hold true for the potential result to manifest in its Highest Form.

“Remember that this Alliance is a human experience and one that is being recognized as a potential for things to come. Contemplate this carefully, for there is Great Power within this Gathering that holds a Loving Radiation of Support, Love and Joy. Dear Soul, it is time to declare and reveal to this Elemental Grace Alliance Council your innermost thoughts and feelings. I shall say no more!

“Beloved and Esteemed Members of this Council, It is with Divine Joy in My Heart that I now stand back and ask Our Beloved Parents Alpha and Omega to close this round of Discourses. Bless You!”
