

### Part 3 - Quality of Life And Freedom of Spirit - EGA

---

#### QUALITY OF LIFE AND FREEDOM OF SPIRIT - ELEMENTAL GRACE ALLIANCE - PETER, 6<sup>TH</sup> AUGUST 2015

**PETER:** Dearly Beloveds, I come and stand before you once again in Divine Love and Gratitude to All of You Who Are a Divine and Integral Part of these Gifted Blessings that not only surround me but the Whole of This Solar System of Worlds within Worlds. I know that even though references are being made that the Elemental Grace Alliance is a Creation of mine, but in Truth, it is that of God in every way, shape and form. 'I AM' just the medium through which He has chosen to make this possible. 'I AM' Truly Humbled by the responses that I have been given throughout my life as well as the miracle of this event indeed!

I Know that everything within this Evolutionary Plan is directly linked, allied, associated and dependent upon the human element of this adventure. The importance of humanity stepping up to the mark to call forth Their Own 'I AM' Presence is paramount to the success of God's Plan, and it is just as imperative that it is sanctioned through the Charters of God to all who give Service here. The calling forth of help and assistance to help us humans upon this journey away from Home indicates initially that 'we' must be the ones to identify for ourselves where upon Earth and indeed where within ourselves, we need God's helping hands to assist us.

So, it is through each and every One of the Blessed Hierarchy of Who God is represented in so many Individualized Expressions of the Light and Love of the Divine that We can be assured of this help. 'I AM' reminded today of a channel that was given by Beloved Astrea that was referring to just this dynamic of human participation. Astrea said: - *'You would be amazed at the tenacity with which individuals hold on (in their feelings) to certain habits and tendencies. They really enjoy them and are not at all either eager or desirous on letting them go. This resistance is what We must meet with the help of sincere Disciples who will invoke Our aid since We must have the Call and The Authority from their (the human) octave. from those still in physical embodiment where the need is to be met'.*

At the Behest of Dear Sheki-nah and with this Human Authority that Astrea outlines above, I come today to place within this Circle of Divine Love and Peace the areas of conflict and inharmony that we humans are asking, calling for and invoking through Love and The Light of Your Divine assistance to help us resolve such unloving resonances. A great deal of responsibility has been placed upon my shoulders of, which, once upon a time, I would have refused due to my fear of saying or doing the wrong thing, or at least in other people's eyes.

But today, I rest in Peace before You, unafraid of what shall unfold or where it will take us. I will do this to the very best of my ability, however, I wish to make it so clear that 'I AM' aware that what is being shared, albeit the words placed in my mind by God, will indeed embrace

me as my personality (human) experience of my journey through my lower mind, crossing back and forth with My Higher Mind and Understanding.

'I AM' not here to necessarily distinguish which is which or what is what, just that 'I AM' aware that the points that will be brought forward are neither nuances, modulations, accents, inflexions of any personal desires of any Nature. It is my desire to stay neutral throughout this Address. Even though I have yet to know exactly what will be shared, I know that they will not be judgments, prejudices, discriminations, intolerances, biases, predispositions, nor criticisms on my or My behalf but simply observations through all of my senses that have come into my awareness thus far through my Holy Desire to Serve for the Greatest Good of All Concerned through this my own physical human incarnation.

Please forgive me for asking Sue to open this round of discussions before me, but in Truth, it is not an opening but rather a seamless and precise synthesis, a blending of that which was discussed in the last round of Discourses and that which will be shared in this round. whereby the '*Protecting the Future*' and the Quality of Life and Freedom of Spirit are One and the same and, although coming from two individualized thought processes, are amalgamated with the Loving Accord of Grace and Beauty. the coming together of Heart Love and Divine Cosmic Light!

So, with this Commanding '*Presence*' and Holy Union in mind, any points raised are simply nominated as potential ideas that can then be elaborated upon, analyzed for their validity, or cast aside as a consideration that is neither appropriate or an authenticated option. In Truth, I do not wish to place any of my personality here, but the reality is I have to, as it would not evolve if I did not! This Elemental Grace Alliance, as it has been said before, is a human experience and must be embraced from within the Realms of the human conscious reality.

So, as this happens, then please accept it for where 'I AM' coming from as a Divine Human Messenger and a 3<sup>rd</sup>-Dimensional human being, expressing my individualized personality that God has sent to inspire and open another potential through this human endeavour. The Elemental Grace Alliance, incorporating The Elemental and Nature Realms, The Devas and The Angelic Host, are to reunite in Greater Union so as to Live a Quality of Life and Freedom of Spirit in Harmony with God's Holy Desire for All.

I have not considered any structure of how 'I AM' to proceed, but my sense is that I could list in a numerical format suggestions, observations, viewpoints and options to allow a simple flow throughout this Discourse. And in so doing, I wish to emphasize that the order in which they may appear are neither in order of any preference or importance, and they do not identify, in their position placed, any priority for consideration or deeper contemplation.

I also wish to clarify my position and intention here that I, as a human being, am not in any position to assess any points raised due to my own limitations and lack of conscious awareness of the Greater Plan or the full View that Each of You have from Your Own Universal

Standpoints. So, because of the vastness of the Knowledge required to make accurate and Higher Intelligence Decisions, I make no claim to even know '*where to from here*', what should or should not be accepted or declined. or what changes or decisions can be agreed upon or implemented. My position right from the beginning of this Proposal was to just ask the question/s and to put a Proposal forward that I believed had potential. I shall repeat the original Proposal again now just for the refreshment in my own mind if you are in agreement - thank you!

*"To change or rewrite the Divine Charters with God for the Elementals and Nature Kingdoms so that a radical and significant shift can be made toward humanity's conscious awareness about their interrelatedness and co-creational abilities for a more active and mutually beneficial co-creative collaboration together."*

Having reminded myself now of the original Proposed concept, I can see just how it has taken on so much more to date and, indeed, just how grand and complicated such a simple idea could be. Yet I Know that I am not guiding this Alliance, and through my detachment from any result, my input is via the God Within Me, My Mighty 'I AM' Presence for however it may play out. Just one more thing as I share my observations.

As I am presenting all of this information, regardless of where it is coming from, I do, as this human being, Peter Melchizedek, without exception, stand before You, This Divine High Council, and accept All Responsibilities that may be consequential of my words, thoughts and actions. In saying that, I know that I began and that I shall finish this endeavour with God, By God, For God and Through God. All is Divinely Orchestrated, and Only in Accordance with God's Will, do I proceed at all. And So, It Is, and It Is Done! I Bless You All for Your Patience and Loving Understanding for this little human ant with his big ideas for Peace upon this Most Beautiful Planet We call Earth!

I shall now, with Your permission, review my thoughts before I return to lay out all of my observations that I feel could be propensities for change. I am sure I will not cover every potential, and so I shall ask that any other areas for consideration may they be presented and aligned accordingly by each of You. I shall break now and return after some lunch and a deeper consideration of how to proceed. God Bless You! I Give God Thanks, I Give God Thanks, I Give God Thanks. for having All Of You in My Life!

#### ***Returning after a long break!***

Thank you once again, Dear Ones, for Your Patience, Love and Understanding and for allowing my human needs to flow between these Discourses. I now begin this ambitious task of setting out the observations that I have pondered and garnered during the break, not only through my human experiences in my own life but what I am perceiving as direct and purposeful points raised by the various Members of this Beloved Alliance. So, without further delay, I shall begin.

I will list the points numerically so that it will be easier to make reference to for future comments and contemplations. I will then create another section and elaborate on the points listed. I am aware that some of the observations raised will be. hmmmm.... '*controversial*'. but just the same, that controversiality might be the tipping point needed to make a difference.

Please remember that from my perspective, I am not privy to the greater implications of such suggestions, but to table them, I feel justified that at least through an awareness of them in black and white, something positive may be gleaned from them and more importantly something for the Greatest Good of All Concerned may be accomplished and Eternally established.

Again, I know You, as God Beings and God Creator Beings, have all the answers already and indeed KNOW the Outcomes, and in reality, this is just a process of human consciousness that is being asked for alignment with the Truth. To Bring Humanity Home! I just Pray that I am not too far off the rails for this present day Calling for Divine Human Action!
