

Part 7 - Narayana and Divine Grace - EGA

NARAYANA AND DIVINE GRACE - THE ELEMENTAL GRACE ALLIANCE COUNCIL - MIGHTY ELOHIM - SURYA, 2ND DECEMBER 2015

SURYA: *"Beloveds, 'I AM' Surya, Elohim of the 1st Secret Ray of Akasha. My Divine Ray is Blue/Purple (Ruby) and White, and My Sacred Flame Fire Light is Crystal. 'I AM' the 1st Pranic Breath for the Life Force of Akasha for the Elemental Forces of Nature and the Life Currents of the Essence for Causal Body Momentums of Service for this System of Worlds. I Serve with the Lords of the Blue Flame from Sirius. It was not until 2012 that El Morya Granted Us a Dispensation to be able to come forth and make Our 'Presences' Known to humanity due to the Hour of importance for extra effervescent and luminous influential Energetic Sponsorship and Patronage to aid in the rebalancing of the Energies of Earth and All who live here including those of the Elementals, Nature Realms, Devic and Angelic Host Kingdoms.*

"I step forward today in place of the Seven Mighty Elohim as another part of the Whole Representation of the Elohim Contingency, as Shekinah explained in some detail in His last Discourse. We have heard all the Discourses to date and, in Truth, did not ever expect to be asked to speak, but as the last 5 Discourses on Narayana and Divine Grace have brought forth so much information that relate directly to Us, it was Agreed that this would be a wonderful opportunity to open the Door of Ever-Expanding Consciousness even wider. We Bless The Mighty Seven Elohim and Seven Majestic Eloah for giving up Their Seat allocation for this Discourse within this Alliance Gathering.

"Little is Known of the 5 Secret Rays or those Who are the Directing Elohim of Them, and if time allows, I will give a brief summary of Who We Are and in what areas We may be of the Greatest Benefit to Humanity, The Elementals, Nature Kingdoms, Devas and the Angelic Host Kingdoms.

"In the last Discourse, Beloved Uriel made many references to Invocations and Decrees, and so We will invite Our Dear Human Colleagues from this time forth to include Us within Their Calls so that We may also partake with all Our Gifts, Astuteness, Endowments and Divine Virtues, to make the Transformation, Transmutation and Transfiguration of this world and All Who Reside here, even more Powerful!

"I, Surya, and My Electric Ruby Angels come today, through God's Divine Plan to offer Our Divine Grace to this Project and All Who Support it on every Level of Dimension and Density. It was Our Desire that We step up and make Ourselves Known for We are the Elohim Dynamos when it comes to adding Our Momentum to your own as you give your Calls to render and garner support in your endeavours. For where the Lightning Rays of Our Elohim Foci goes, together with the Akasha Crystal Light of Our Purity, there is likewise, in the Core of that

Action, All of Us Uniting in Oneness that directs a most Concentrated Engagement of God's Love, into the affairs of the Earth and brings about a clearance of all of those things that must be sited into the Violet Flame to be incinerated, dissolved and etherealized.

"Through Our Actions and Intercession, mankind will soon learn that nothing is beyond them and that with Us by their side, nothing will be left untouched, not on or in the Land, the Sea, the Air, the Fire or the Ethereal Realms!

"Today, within the world populace, We see far too many human beings who are beginning to wonder why there is so much chaos around them, but yet are drawn still into even deeper fear of what continues to escalate around the Globe as We speak. Beloved Uriel asked a very good question in His Address about those Who Are called Forth through Decrees, He said. 'can you imagine for a moment just how many Beings of Light were called Forth by God's Own Hand Through Your Invocations?' Now you can include Us, Dear Souls, So We can show you Where Else God's Hand Extends.

"In Our examination of the Elemental Grace Alliance Proposals and Discourses to date, We can see that Point number 5 has not yet been Addressed with any detail, and so as this is Our Domain, We would like to take this opportunity to Address Peter's Point number 5.

5. To Remove All Mis-Aligned Consciousness Imposed, Charged, Impressed or Inflicted Upon the Elementals By Miscreation Through Ignorance And Arrogance Of The Human Collective Consciousness.

"To Address this Proposal fully, one must truly be able to understand the parameters of how all this has happened in the first place, and Peter's introduction does help a great deal, but it is far more than that! The greatest underlying factor is that of the fear propagated over millennia of time by humanity. And it is here that We must begin Our analysis and assay of the situation more than anywhere else. within the human mind and its beliefs.

"We stand Now in your midst to be Acknowledged so that We can Minister Our Love, Light and Life to each one of you, the Loving Initiates, Chelas, Aspirants and Returned Masters from your Futures, reading this information with Divine Grace. also, to all Dear Souls who are still struggling with fear, doubt and all manner of hardship, misery, anxiety, burdens and worry. It is Our Desire that you rise into a Greater Understanding of the Strength of God that burns within the Sacred White Fire Core of Your Being. The Three-Fold Flame of your Pranic Life Force! It is time to completely energize your Three-Fold Flame and take Full Dominion over your life. To Fully Align and Ignite the Seven-Fold Flames of the Mighty Elohim and Eloah to passionately comply with the Universal Laws for Precipitation and Etherealization. And, of course, to amplify and magnify Our Radiant Rays and Flame with the Entirety of Your Being! The result shall be the Full Self-Realization of Your Divine Sovereignty and the Use of Your Eternal God Given Powers as the Christed Ones.

"Never again shall you be affected, contaminated, threatened, coerced, terrorized or frightened by the thoughts, words or actions of mortal man or woman. Only Peace, Harmony, Grace, Joy, Abundance, Love, Wisdom and Power shall be your Guiding Love, Light and Life. not only for yourselves but all those around you. We are The Elohim of the 5 Secret Rays of Akasha, along with Our Archangels, Chohans, Devas and Elemental Directors Who All Specialize in the cutting away of all that hinders, weakens, devalues, limits, diminishes and restricts the Light of God within human creation. As Mighty Beings of God's Love and Grace, We are Swift and Precise and leave no stone unturned to complete Our Work! There is nothing in this Universe, from the greatest planet to the most minute particle, that We cannot use Our Powers upon or within to return them to their Original States of Being!

"You have come to Earth, Dear Souls, to Master your physical reality, and this can only be done through your experiences as a physical human being. As you expand your consciousness, you begin to step into the Greater awareness of your very own God Mastery, but even this needs your training throughout your entire 4 lower bodies. This will then allow your outer vehicles to be able to stand steadfast in the face of all manner of dangers, imbalances and adversities to Life. You must learn to function in that Whole Hearted Vision of the Mind of God, charting your course, Chanting your Songs of Praise while moving through your day-to-day life, and fulfilling Your God Given Pre-Destination, so that you can use your Sovereignty to surmount defeat, subjugate, conquer and triumph over all that is Not Of God's Love, Light and Life!

"In this way, your Divine Purpose is set out before you as it sits in its Pride of Place upon the Altar of Your Heart. this alone Guarantees Your Victory! But you do need to discipline your vehicles of Mind, Body and Emotional Consciousness enough to bend your knee before Your Own God 'Presence'. You need to nurture yourselves daily in Communion With God so as to sustain that rolling Momentum of Godliness in your life so that you can stand on the tracks of that diesel locomotive that is presently thundering toward you. to be able to say unto it "In the Name of The Divine Mother and Beloved Father, The Holy Spirit, In the Name of the Christ Jesus In Me, In My Name, I Command and I Demand you to Stop and Be Still for 'I AM' God, and you shall not pass this point as anything less than 'I AM'!" Without such Fortitude, Resilience, Strength, Courage and Determination, We Highly Admonish you to stay off the tracks.

"When you are tested, when Earthly trials and Spiritual initiations test your resolve, your determination, your courage, your nerve, do you remain steadfast, rooted in the firm foundation of your 'Presence' deep within your Heart and Mind of God 'I AM'? Or do you slip back into the abyss, swallowed up by vestiges of your own human thoughts and feelings, and through your emotions and the riptides of the unwashed masses who have never felt the alignment with their Mighty 'I AM' Presence or Christ Self?

"Dear Souls, as Beloved Uriel said, 'If you could only see and know the benefits you Gift in your Love in Action, We are sure it would astound you beyond belief.' Just because you can't

see what We See and Know, you seem to simply fall back into that slump of despair. When life affords you the momentary Grace of an in-breath of Peace or Harmony, you absentmindedly lay down your Sword, neglecting that keen sense of Eternal Vigilance and Attentive Discernment of the Mind of God, which must be maintained at the forefront of your being, to indicate the time for action and the time for rest!

“That is what this Alliance is all about. That is why God, through Peter, has provided so much detail, bringing it to the surface in one volume of reference. all aspects of human discord. So that you, the Way Showers and Spear Heads of this New Golden Age, can remain fully Vigilant to all matters as they arise, calling for your help and healing as it is appropriated!

“You must now fasten your resolve, determining to Sustain the Constancy and Vigilance of that eagle-eyed spherical awareness of All that is happening in your own life and in all of life around you, which requires your Devoted Attention as well. Beloveds, even as you are accountable for every Atom and Molecule of your own life, of every Electronic spin of Life Force Energy that flows through your Crystalline Pranic Rays of Akasha, you are likewise responsible for what is going on in the Greater Whole of the Earth. Every lifestream who has ever incarnated shares in a certain collective responsibility for the cumulative Planetary Karmas that are constantly out picturing themselves within the scope of human evolution. Know well, then, the meaning of the First Secret Ray, the Christ Virtue of Divine Responsibility.

“You must give your Calls, your Prayers, your Meditations and Decrees in the Full Authority of Your Christ ‘Presence’, applying the Full Pressure of the Light of Your Own Heart Flame to move into Action and Transmute ALL THAT IS NOT CHRIST LIKE!

“With this prelude, I can say that your Work in association with the Release of the Pressures of the Tectonic Plates around the Earth’s Crust and within the Cascadia Zone off the North West Coast of America allows you to be more responsive and cognizant of the importance and Power that can be Mastered and Executed by you. I say this with Great Reverence, Admiration and Respect to your accomplishments, Peter and others, for these all came about sequentially through information presented within these Discourses. Although it was a vast undertaking by a few, and wonderful results have manifested in such a short time, there were many Beloved Elementals, Devas and Angelic Host that became a little flustered, bewildered, perplexed, mystified and uncertain within all the activity going on around them. Remember, They are aware of everything going on within Their environments. And Yet none of Us could help Them, for the Orders from you, the humans, have not yet been Executed and sent forth in the detail that would warrant an unmitigated cleanse.

“We say ‘unmitigated cleanse’ because while war still rages within the ranks of unrest and selfish desires, and while mankind continues old malicious and defiling habits that destroy and contaminate through industry, food production, chemical manufacture and deployment, pharmaceuticals and economic brutality and control, there will be a continual fallout upon

These Beloveds. hourly across the planet, and particularly there will be the total annihilation of some through explosive weaponry, this shall be a constant disgrace of circumstances.

“It would be like having a cleaner come in and clean your house from top to bottom. What do you call it? a Spring Clean? Then the next day, the next week through your general living, the contaminants return, the chairs gather dust, the cupboards and floors once again begin to be coated with dirt and grime, the oven gets coated over again in grease and the smears upon the windows from rain and fingerprints you get the analogy, okay! But each Invocation after your Principle One will cleanse those affected immediately. for We will instil in place, as per your Orders, all that is necessary that will Purify and Cleanse as the events occur. That is until the causes are dealt with, and none of this has to occur ever again.

“It is These Dear Elemental Hearts that so much information has been brought to your attention through this Alliance and your detail Peter as set out in association with your Point number 5, that are affected the most. If, and We Know that you responded in sequence to certain events, this Causal Healing for these Wonderful Beings had been activated first, the results for the Cascadia Event would have been even Greater. And so, as We have now brought this forth for Greater awareness, We shall leave you to make the relevant choices as to the next sequential Causal Healing to take place. More than this, We are Bound by Our Charters not to Address, even here within this Alliance! However, We can say this in full openness and clarity of Our Purity of Intentions.

“When My Ruby Ray and The Mighty Violet Ray of Beloved Arcturus of Divine Responsibility and Freedom, Mercy, Transmutation, respectively, becomes an absolute necessity, and Called forth, along with the Other 4 Secret Rays, it enters instantaneously into those pockets of darkness that seek to hide beneath all surface patina of what the world accepts as an acceptable way of life, both known and unknown! There is no crack or crevice that it cannot or will not penetrate. It infiltrates the very core and the space around the atoms, quarks, leptons, electrons, neutrinos, photons and even the pentaquarks. drawing out all levels of discord, imbalance, human conscious and unconscious effluvia, dissonance, inharmony, cacophony, chaos, disparity, inequity, maliciousness, ill intention, disproportion, unpredictability, irregularity, contradiction, incongruity and ALL THAT IS NOT OF GOD! These Rays seek out and Transmute, Transform and Release through Etherealization by Us, The Elohim of the 5 Secret Rays, The Archangels, Chohans and Elemental Directors Themselves.

“Far too many humans would have God do all the work, not realizing that it is their own God ‘Presence’ that they are desiring to enter the fray alongside and outside of themselves, and that they must work with their ‘Presence’ as the Truth of Who They Are, as one and the same Consciousness expressing through Their Three-Fold Heart Flame. If their Heart’s Desire are of a Pure Intent that Resonates in Absolute Accord with the Higher Mind, if it is Harmonious within the emotional body, and if they have the Will of God working through them, then there

comes the Great Outpouring of the Mighty 'I AM' Presence through their Life Stream, and the Abundant 'Quality of Life and Freedom of Spirit, once again Heaven and Earth can be Reunited.

"It is this Universal Good, the Good of the One that We All Embrace in Joy Together, that you, each one, must partake of each day as you breathe in the Precious Pranic Breath of Akasha Life and breathe out the impurities to be swept up by the Violet Flame Blazing all around you. Before the Elemental Forces of Nature can Purify the Earth's Air, Water, Fire, Earth and Ethers, including its atmosphere, stratosphere and hemisphere, there must be a lifting of the burden from Their Own Vehicles so that They might function in Accordance with the Consciousness of Elohim.

"Therefore, Dear Souls, I call upon more of you to give the Violet Flame Decrees, to lift the burden from Elemental, Deva and Angelic Host Life, so that you can have the reverberation of the Pure Elemental Forces energetically, Full of Life, flowing into, through and outward from your own Beingness in All Directions.

"Many have not yet realized the consonance and indeed the imperative Nature of such an Inherent Foundation for Life between these Elemental Forces and their own physical human bodies. While the Earth and all that comprises the physical octaves remains impure, it affects human physical bodies and each of their finer bodies, which are obliged to operate within these planes of mortal consciousness. Therefore, the more Violet Flame you give, the more Purification is released into the atmosphere about you, impacting the Elementals accordingly.

"To give the calls! To invoke the Violet Flame! To invoke the Ruby Ray Action! To invoke the Will of God! To invoke the Blue Flame of Archangel Michael! And yes, Dear Hearts, to invoke Your Elohim Brothers and Sisters and Our Angels that carry the Mantle of Our Mighty Firing Flames and Rays, We can then come and burn deeply within the Core of All Their Beings Who have been contaminated by such contaminants. Know that as Our Fires recede, They will always leave standing ONLY the Pure Consciousness of the Divine Will of the Mighty 'I AM' Presence, the Majesty of Purity of the White Fire Core Design, Divinely Ordained for the Good of the Earth and all therein and thereon.

"Then, across the world will reappear the resplendent Shining of that Pure Essence of the Self Luminous Substance, once more restored to the land, the Pristine Land, just as God Originally Desired for each of you. So you see, Dear Ones, you, The Torch Bearers of The Divine Temples, are indeed the Pioneers, The Warriors, The Light Bearers and Keepers, The Way Showers of the world. Consider how quickly world conditions can be healed by the Calls to the Light of God, by the Angels of Love going forward, by the Elohim Standing in the Consciousness of the Pure Release of God Qualities through the Outpouring of Their Own Consciousness, into the Earth. All this, Beloved Children of God, can happen in a blink of an eye. The Golden Age for the Earth is not called the Golden Age for nothing! For where there is Faith in God and Hope for the future, there God is always at Work in All Ways! For God, Reality is indeed what you

must hold in the forefront of Your Consciousness Now if you Desire to be the Fullness of Your Mighty 'I AM' Presence in Action and Compassion. I, Surya, Commend You on Your Work thus far. I Entrust You unto the keeping of Your Mighty 'I AM' Presence for the continued Glorious Labor of Love of bringing forth the Golden Age. By Your Calls, by Your Momentum of God's Good, and by the Collective Body of God on Earth committed to Saint Germain's Golden Age, it shall come forth Here and Now through each of You!

"You, Dear Hearts, are hereby brought under the Invincible Canopy of Our Protection! We Know Who You Are, and We are watching your every move, and We Listen in anticipation of what you Desire of Us in the next Now Moment. It is Afforded to You because You have been Trained to Elevate Your Consciousness into the All That Is of God, Knowing that in Your Purity of Desire, Your God 'Presence', We Will Answer Your EVERY CALL! We Stand and Bow to you NOW with Hands Upon Our Hearts, All of Us, Offering You Our Allegiance to this Divine Plan that God has Designed and Continues to Administer across the Entirety of His/Her Realms of Dimension and Density. We Stand By Your Side and with All within this Elemental Grace Alliance, Totally and fervently poised to Offer Our Divine Heart Service for the success of this Golden Age, no matter how long it takes or what must be done to achieve Its Mighty Victory. Lead Us then, Dear Souls, and We shall Blaze Our Mighty Rays and Flames across Eternity for and with You. Bless You, All!

"Just before I close, I wish to bring to your attention something that I has just come to the forefront of my Mind. That is about Point number 18.

18. Cleansing of the Kuiper Belt.

"Please consider this in the same way as We have Addressed everything else here because, for Us, there is no difference, in fact, it shall be much easier for none of these areas of space within this Solar System is affected by the continuation of human consciousness. One Mighty Cleanup would be a Total and permanent Cleanse. This would also include all Asteroids, Planets, moons and other space debris. We will suggest, however, that this is a separate task when time and re-gathering of human intent allows.

"I would now ask Peter if he would be so kind as to perhaps create a quick reference or summary to all 5 Secret Rays so that he and others can, upon their chosen tasks, Call upon each of Us to align with each of you. There are many benefits that We can provide, and because We are directly Over Lighting the Elementals, We Are Your Extremely Co-operative Allies within this Elemental Grace Alliance Project.

"Allocated time for My Discourse has now come to an end, but feel free to Call upon Me or any of My Colleagues and We shall come forth and answer any questions you may have. 'I AM' Elohim Surya of the 5 Secret Rays of the Elemental Forces within this System of Worlds. God Bless You, and thank you for your attention and Pure Intentions."

PETER: Thank you, Surya, I will do my best to provide a clear overview/summary of the 5 Secret Rays.
