

## Part 16 - Petition Regeneration of the Sacred Banyan and Sycamore Trees

---

COSMIC WAND OF AUTHORITY – KARMIC BOARD RESPONSE TO PETITION – ELOHIM VISTA, 17<sup>TH</sup> MAY 2024

**INVOCATION:** Mighty Consuming Flame of God, Fill Us with Your Mighty Radiance Affording Us Divine Power and Strength, Enabling Us to Persist, to Follow Through, and Stand Forth with the Spiritual Principles in Our daily lives, regardless of any Tests. Beloved Mighty 'Presence', Infinite Love, Enfold all of mankind in Your Loving Grace, Compassion and Mercy, Giving Every Assistance that is Permissible. Strengthen Us to Stand Unwaveringly in the Light and with the Face of Divine Truth, to Wield the Violet Transforming Flame to Fully Remove from the Planet all things Less Than God. Beloved 'I AM' Presence Your Great Qualification for Divine Intelligence and Rightful Application to Lift Us Higher Into God Life. Mighty 'I AM' Presence, The Heart of God, Bring Forth Ideas and Accomplishments which have Never been brought into this Earth Evolution Before for Us to Accomplish for You and Guide Us in How to Implement and Make them Manifest.

**ELOHIM VISTA:** I Am The Elohim 'Vista' also known to you as 'Cyclopea', the All-Seeing-Eye of the Eternal God! As a Member of the Karmic Board of Directors I have come this day, from the Great Central Sun to Deliver to the Elemental Grace Alliance Council, Our Resolution and Findings to the Petition Presentation, Known as the '*2 Trees Regeneration of the Sycamore and Banyan Trees at Hadrian's Wall in Northumberland, in the United Kingdom, and Lahaina, Maui in the Hawai'i Chain of Islands*' respectively. As a Cosmic Messenger today, Rendering this Great Propitious Service, which has been awaited for by the Company of Heaven in all Seven Spheres of God's Creations, I Came. Therefore, I, along with My Divine Consort, Eloha Crystal and the Other Members of the Karmic Board, are here upon this Rostrum of God's Playhouse, now will I Reveal Our Findings. We Welcome All Beloveds within this Great Hall, so many Loving and Distinguished Equals, Partners, Beneficiaries, Companions and Colleagues. One of the Greatest Gatherings yet seen here in this Hall. The Bands of Colouration through this Mighty Radiation Temple are simply without words, that can describe the Beauty and Grace Impacting The Glory of God's Presence Here.

The Intensity of Light Illumining the Glorious and Wonderous Joy, as the result of the Highways of the Cosmic Sacred White Fire Light that have now been Activated, via the Bio-Graviton Work of the Masters and the Unascended Beings of the Magnetic Services and the Earth and beyond. Opening Wide the Great Golden Doors of Shamballa, of this Radiation Temple Sanctuary, for All to See. All the Great Beings, who are Naturally Held by the Cohesion of Divine Love, from All Over God's Creations are Present. And Here, We have sitting in the front row, those Dear Beings who Stand upon both sides of the Human Veil, Representing the Elemental Grace Alliance with Whose Petition for this Dispensation to be considered by the

Karmic Board for their Grant or not. Stand up and look around Dear Hearts and See and Hear the Magnetisation you have Generated with this Petition Presentation. Enjoy this Glorious Gathering of Dear Ones, for this is your Sign of Cosmic Sisterhood and Brotherhood, that you and so many others upon Earth have been working toward.

Like the Gravity pull of Earth, which hold the physical forms of your Evolutions upon the Planet, during the course of embodiments, also, through Magnetic Attraction, hold those Unascended and Ascended Lifestreams, who particularly belong to Earth's Evolutions, even though not in embodiment at this time. I Speak of the New Children who are awaiting entry now! Yet, while We Speak of Evolution within this Breath of God, at the same time We must also Speak of the Pending Involution Generated by Unascended Human Beings who have Magnetised to Earth the Masters and Other God Lifestreams by the many Petitions that have been Granted to Them to date. While the Entrance into the Atmosphere of Earth within the Masters and other Cosmic Lifestreams in their Physical Forms is now immanent. The sense of Eagerness to see for Themselves what They too have Created over Time there upon the Surface of This Magnificent Planet.

Many will come, and abide upon and within the Earth and its atmospheres, in the different Vibrational Frequencies and Light Quotients and Levels of Consciousness. These '*Levels*' are sometimes referred to as the '*Inner Realms*' but they are becoming more than that, thanks to the New Light Workers of the Planet. Similarly, there is a like '*Power of Cohesion*' which holds, within the God Compass of each Solar System, Those God Intelligences, even God-Free Beings, Who Are Rendering Service to this Earth Evolutionary Scheme, but more than this, far beyond into Outer Space, if I may use this terminology for analogy purposes, placing into such Realms that humanity has never heard of, yet unable to Comprehend, even if they have heard of it.

The Cosmic Currents, which surge like Great Cycles of Tides, through the Galaxies, are so far beyond the comprehension of your human finite minds, which are very powerful, so much so, that even Intelligences of Great Light might be swept out into a different course from which they began, were they to proceed against the Cohesive Power which is the Governing Order of the Galaxy, the Solar System or the Planetary Scheme herein.

And so, certain Magnetic Currents are then established through those Highways, so that those Intelligences who wish to travel, may do so, in safety, and not be swept into other less Loving Cosmic Tides. As these Intelligences are thus enabled to Visit other Stars, Suns and Systems, they Associate with friends who are there, some from the Angelic Kingdoms, Ascended Masters and Cosmic Beings. This also enables such '*travellers*' to Visit and Participate in the Activities of the Ascended Master Retreats on Earth, Ministering to the Unascended Evolutions of Your Planet.

These experiences are the Gift of the Cosmic Christ to these Intelligences Who Serve. Each year, some being is appointed and given the opportunity to go from sun to sun and to open those Highways, with the '*Cosmic Wand of Authority*'. Just as We have now seen on a much Greater Scale that '*Cosmic Wand of Authority*' that the Elemental Grace Alliance have Claimed

for Themselves, through their past Grants, Earned by Them, to become the Authorities of how things will act out there upon Earth.

Today, because of the Magnetic pull of Your Love for Us, Dear EGA, your Invitation, Invocations, Decrees and Pledges to Us, to come to you, and the tenacity of your natures, proven through the years of Service, which Tenacity is one of My Great Qualities and Part of My Nature, I have been given the Opportunity of Opening even more Expansive Highways of Light, from what were 2 lanes into 10 lanes in both directions. Even now, as I stand before you, come the *'elect'* from every system, not all coming to Earth, no, but to visit and enjoy the Vista and the Diversity and Multiplicity of what is Seen herein this Hall today!

Not Lightly does the Cohesive Power of Love draw the attention of Cosmic Beings, engaged in Service of such Great import and extent, that your human sweet minds could not possibly comprehend them at this time! Not Lightly was the consciousness of Victory drawn to the Earth, by Our Beloved Saint Germain with Whom, the EGA have Pledged their Services and His Earthly Grants and His Holy Desire to give assistance to the whole of mankind! Not Lightly do the Archangels break the Silence of the ages and enable you to give on the written page, as your gifts to Your fellowman, Their Words, and some description of Their Activities and Services! Not Lightly come the Elohim from the Heart of Celestial Heaven, into the atmosphere of Earth, explaining to finite minds the Orderly Procession of Precipitation in Creation! Yes, We do Love this Earth more than anyone else, except perhaps the Beloved Helios and Vesta, the Seven Archangels and the Silent Watcher, Who Hold, within Their Bosom, even today, the Divine Plan and Immaculate Concept for Our Dear Sister Lady Virgo.

You see Dear One's, the Earth was Created by Our Very Life, Built from Our Energies and Vital Forces. For millions of years, Our Energy were woven into Virgo's rivers and mountains, Her Great seas and vast plains. After so many millions of years spent in Loving and Sustaining this Planet Called Gaia, We would not like to See, dissolved the handiwork of Our Love, just because of the ignorance and shadow-creations of mankind's evolutions, any more than you would like to see, dissolved, that to which you had given so much of yourselves.

So, in part, it is a Natural Activity for the Elohim to Come to Earth, again, to those who want to Transmute the shadows and Free this Planet, Returning Her to the Perfection She once Knew in the Heat and Bosom of the Silent Watcher, even before time was! Yet not so Naturally the Human Light Workers have toiled and fallen, and risen again, and again, to reclaim their Dream to See Mother Gaia and Humanity Free! Not always in the Perfect succession as We would do it, yet with such Grand Magnetisation of a such Force Fields of Love do We See the Visual and Physical Effects of human volition, determination and grit, creative mindfulness and wholehearted engagement between the times, when such commitment, would wain from time to time.

Yet, the Seven Steps of Precipitation has been Present, and with Due Diligence, working through the experimentations of seeking new Laws and Rules of Engagement, that have created experiences whereby examples of Leadership, as Jesus demonstrated can be gleaned

by such Vision and Will To Do, the Planning to Acquire the Perfect and Clear Pattern for the work ahead; the Embodiment of the Love and Light into the Divine Plan; the Willingness to be Unchangeable Focus of the Original Plan; the Devotion, to remain within the Divine Power to stick to one Concentrated Vision, one Idea at a time until they are completed; the Rhythmic Beauty of Invocation and Decrees at every successful Turn and last but not least to Seal the Precipitations and Manifestations as Permanent, Indestructible, Immutable, Eternal Manifestations until their Usefulness is Complete. All unwaveringly with the Constructs of the Cosmic Laws, so as not to lose one's way back to God, through old human creational processes.

So, while the Elemental Grace Alliance has lost many of its Members along the way, those who have dedicated themselves, who have remained, by Concentration and Consecrating their lives, attentions and endeavours, their time and substances to achieve the best they can in a most difficult world of infiltrated darkness, no-one can say, that being human is less than God's Own Creative Powers, if they hold True to the Cosmic Laws that Govern this world and many others.

Having presented the Audience herein, within this Hall, with a very brief summary of what this Elemental Grace Alliance '*2 Tree Petition*' is all about, not in content or detail, but in the Pursuance of Excellence, I will now announce the Declaration of Our Findings.

Brothers and Sisters of the Elemental Grace Alliance Council, due to your Patience, and Willingness to Seek Only The Truth, of that which you sought for Reconstitution 2 Single Trees upon the Planet Earth, with no regard to yourselves; to Design and Detail such an intricate, yet Simple Plan, for such a Simple and Unassuming Idea, so Simple in fact, in concept, that many of the Higher Intelligence Beings did not see this Simplicity coming.

I wish to list some further facets you created, for such ease for Our Determinations and Unification to reach such a Unanimous Agreement in such a short Designation of Our Board's Deliberational Sharings.

- Such a clear Series of Discourses of a simple and unassuming vision, that became such a massive complex undertaking in the Process of seeking all the Truth to delineate the consequences and benefits of virtually all relative factors, that you Magnetised to yourselves. Yet none of you showed any signs of being overwhelmed by the task.
- Tenacity is a most impressive Attribute, during which a whole other matter of the Bio Graviton Grid Alignment of Massive Proportions were thrust upon you without notice, and yet unphased, took it all in your strides, not only undertaken to Qualify Fully, but executed with Precision in Divine Order on a World Stage.
- Finally allowing such a Beautiful Balancing of the Feminine Awakening of The Goddess of Fire, Pelé, releasing Her from Her Bondages of the Archetypal illusionary reality, within the Astral Plane.

Therefore, The Karmic Board of Directors has Unanimously Agreed to Grant the Elemental Grace Alliance Your '*2 Tree Reconstitution Petition*' effective immediately, for your own Activation by your Own Discretionary Appointments. You will understand the need for discretion in this sharing, due to the unknown world events coming, due to the Greater Influx of Light from the Great Central Sun. Congratulations Dear Ones!

**But wait!** Before the Hall Rises to Honour these Dear Souls, there is more.

Unwittingly, as it would seem to the human ego personality mind, you have also completed the following outstanding Petition requirements for the following '**Earth Nuclear And Chemical Affairs**' (ENACA) Petitions, as part of your '*2 Tree Petitions*'. Remembering, that while the Dispensations for all these Petitions were Granted in Principle on the 4<sup>th</sup> of April 2020, yet just required some further Qualifications before the Execution could be undertaken. You now have the Permission to Undertake the Activations for all 6 Petitions at your own discretion also. The Timing is less important than this '*2 Tree Petition*', but must be applicable in accordance to your movements and times available in the shortest time possible. The 6 Petitions are:

1. **The Serapis Bey, Cleaning Up the Nuclear Radiation Waste Dispensation.**
2. **The El Morya Universal Ambassadors Education Program Dispensation.**
3. **The Serapis Bey Maui Ascension Flame (144,000 Star Seed) Dispensation.**
4. **The Mother Mary Planetary and Human Primal Karmic Cell Implants Dispensation.**
5. **The St. Germain and Serapis Bey Dissolution of All IT and Technology that Keeps Mankind Locked into Incarnational Loops Dispensation.**
6. **The Lord Metatron Time Binding and Time Contraction Dispensation.**

On Behalf of Every God Being in the Hall and Beyond We All Congratulate You All, Each One. We also give Praise and Thanks to All the Masters, Beloved Pelé and Mother Omega who have assisted the Elemental Grace Alliance in the preparations of the Petition Discourses. All for the Rightful Application To God Lifem in Your Divine Service to This Human and Earth Evolutionary Plan. So, let Us All now Stand in Celebration for these Wonderous Achievements.

I Am The Elohim Vista in Your Service. Call on the Seven Mighty Elohim and Eloha any time!

**BENEDICTION: Thou Mighty, Infinite 'Presence' of God! We Give Praise and Thanks for Thy Ceaseless Ministry.
