Law Of Transfer of Energy - St. Germain, 9th December 2024

INVOCATION:- Mighty Infinite ‘Presence’, Expressing Your Perfection Everywhere, We Welcome and Praise Your Perfect Manifestation in Our Lives, Homes, and Worlds, that Your Radiant Light may Forever Consume Everything Unlike Itself, that Your Wisdom may Always Direct, Your Love Always Enfold, Your Light Always Illumine Your Perfect Pathway and That You Hold For Us Firmly in Your Glorious Radiance, Now and Forever. ‘I AM’ the Truth of Love, Power, and Wisdom!

ST. GERMAIN:- Oh, Beloved Hearts, Greetings on this Most Auspicious Time in the History of the Earth, and the many Civilizations that have inhabited this World over millions of years gone by. Before We speak of the Dissolution of the Moon, I wish to paint a picture for those who will participate in this Monumentus Operation, yet at the same time, as Innocence as a Childs Smile. A smile that is given, not for what it sees, for the Child of Innocense knows not what a thing is called or what it is used for!

For where you are yet ignorant of just what you ought to produce for yourself and others, you can, in a gentle, childlike manner, ask God to produce out of the Great Pool of His Light-Energy the Miracle of His Healing Love not only in your own life, and in the lives of your Loved Ones, but also in the lives of the multitudes in the world at large. While the Art of Alchemical Manifestation as in the Multiplying of fishes and bread does require the Mind of the Christ.

There are other forms of Miracles that can be made manifest, so long as the 7 Steps of Precipitation are unwaveringly focused upon. And we will enter that discussion in due course. But for now, what I want everyone reading this to do, within days of its sharing, or in the future times to come, the Miracle of God’s Divine Plan can be Miraculously made Manifest by those who strictly and with confidence and adherence to the Trust and Faith in God Delivering this Plan to Humanity. And while many Groups and individuals since the 1930’s have been working toward the Grounding of this Cosmic Transition of a Whole Race Ascending into their next Evolutionary Plan of Becoming a Human Race of Human Angels, of which all will Embody the Christ Consciousness. We are speaking of the Adam and Lilith Kadmon Human Race.

On the 30th/31st of December this year 2024, there will be a major Event that will finally Initiate the Influx of the Resonant Energies that will facilitate, sustain and maintain the Atmospheres around the Planet and through this Solar System allowing those who have been denied their God Given Rights to be Free and Sovereign Being to not have to deal with any further outside influences that would continue the obstacles and resistances for such an

attainment to become Their Reality. But more in this in a moment! First, I want to present **the Law of Transfer of Energy**, that, two thousand years ago when Christ walked upon the waters of the Sea of Galilee, His Demonstration was a manifestation of the Natural Law of Levitation, Operating within an Energy Framework of Cohesion, Adhesion, and Magnetism; the very Principles which make Orbital Flight possible.

The Light Atoms Composing the Body of Christ absorbed at Will an additional quantity of Cosmic Rays and Spiritual Substance, whose Kinship to physical light made His Whole-Body Light, thereby making it as easy for Him to walk upon the sea as upon dry land. His Body was Purely a Ray of Light Shining upon the waters. The most dazzling Conception of all was His Ability to Transfer this Authority over Energy to Peter, through the Power of Peter's Own Vision of the Christ in Radiant, Illumined Manifestation. By taking his eyes temporarily from The Christ, however, Peter entered a human fear vibration and vortex which immediately densified his body, causing it to sink partially beneath the raging seas.

The Comforting Hand of Christ, Extended in Pure Love, Reunited the Alchemical Tie; and the Flow of Spiritual Energy through His Hand, Raised Peter once again to safety. The further example of the Master Jesus Releasing a Flow of Energy, as in the case of the woman who touched the hem of His Garment without His Knowledge aforehand, shows the Impersonal Love of God, which Responds Equally to the Call of Faith from any of those creatures He has Fashioned so Wonderfully and so Purely in the Supreme Hope of Absolute Cosmic Freedom for All. These two examples refer to aspects of the Great Cosmic Law which are not commonly known, but which are commonly discussed or skirted about by religious groups. The *'Law of Transfer of Energy'* is Vital to the Science of Alchemy; for without it, it is impossible to *'Create'* Matter. But still, it can Manifest the Unseen, as in the case of the Invocations and Work that so many New Light Workers around the World have been doing for decades now.

However, when such Focus of Divine Will, while working within the Creative Mind Power of Cohesion, Adhesion, and Magnetism, as in Equally aligning the Father's Light with the Mother's Love, That which was Unseen, can now become seen in its effects and unfoldment as the recent movements that began the *'Passions of Freedom'* to become a world-wide event. Thus, magnetising all that is not of God to the Surface for release, dissolution, and eradication so the Children of God, the Sons, and Daughters of God, can soon have the Greatest Opportunities of Freedom before them to live their lives by. The Law of the Transfer of Energy in this case has come from the same energetic use, that Jesus used in His Miracles, and Peter eventually walked upon the waters of Life Himself, not yet being a Fully Christed Being. This then *'is a Law that nothing cannot Create something'*. It needs Energy and the Higher the Resonance and Vibrational Frequencies of that Energy, the Precipitation and Miracles reflect the Godliness of the Intended and Rightful Application of the Innocent Love, Given In Action without the expectation of anything in Return. For Love's Own Sake, shall We say!

True Knowledge of this Impersonal '*Law of Transfer of Energy*' is also Vital to the correct Understanding of the Great Law. For it Proves that God, Who makes the sun to shine on both the just and the unjust, does manifest through both Jesus declared during His Palestinian Mission that, '*the Kingdom of Heaven suffereth violence, and the violent take it by force*'. It must be Realized, then, that it is possible to gain or seize from the Hand of God, some of the Secrets of Governing the Forces of Nature and Controlling Matter, even though the individual and motive be not absolutely pure. But let none ever think that the one so doing, shall escape from accountability, for he or she is fully responsible for each use or abuse of God's Energy in or outside of this world. The reason I Am choosing to share this now, on the Use of Divine Alchemy, is with a note of warning and a sobering explanation is not to cause anyone fear but rather to instil in all who read herein, a deep and abiding Reverence for God, which is the only fear permitted in Our Octave. It is in Reality Holy Awe, that Engenders and Propagates within all who Love the Great Law of Love the Fullest Respect and Adoration for the Wisdom which so fearfully and Wonderfully made all Creation in the Image of fearless Freedom.

All those who misuse the Powers of the Universe for selfish ends, find sooner or later that they must relinquish their hold upon their ill-gotten gains; and the penalty they pay is frightful indeed. To produce substance to feed the poor, to heal at a touch a withered hand, to raise the dead, and even to set aside Natural Law and Perform, by the Magic of Alchemy, Miracles of Infinite Wonder, this seems to mankind to be the Ultimate in their use of Heaven's Grace.

Let Me Embrace the Spirit of Freedom, that makes it possible for a man, made in the Immortal, Loving, God-Free Image of his Creator, to do these things and many more to the Benefit of Society and to the Happiness of his Benefactors. But above all, let Me Praise the Proper Use of the Blessed Divine Science of Spiritual Alchemy. The Ancient Alchemist has ever been a colourful figure, even to his own contemporaries. But time has gilded his image with a Glory Far Greater than that which he ever possessed, and it is ever thus when approaching the aspects of Mystery.

It is in the Simple Graces of Life, that men and women will find their Freedom, albeit the more complex aspects are progressive expressions of the Cosmic Laws of Life, that shall Enrich the Well-Being of this Earth and of all its People, harnessing their total Good on Behalf of the most Lovely World of Freedom, that could ever be conceived of, even in the mind of a New Atlantean. Those of you who understand what is meant by the use of that Pronoun will Truly benefit from its offering herein. For had Divine Alchemy used in the Name of God and not by the ego personality minds to force such barren desires there would have been no destruction and Atlantis would never have fallen to the depths of the seas.

So much for the moment regarding the world society. Let Us now consider the individual and his or her role in the use of Alchemy. The Inner meaning of Alchemy is simply '*all composition*', implying the Relation or Relationship of the All of the Infinite Creation to the parts which Compose it. Thus Alchemy, when properly understood, deals with the Father's

Creative Conscious Mind Power of Controlling mutations and transmutations within Matter and Energy and even within life itself. It is the science of the mystic, and it is the forte of the Self-Realized man and woman who, having sought, has found him herself to be One With God and is Willing to play His or Her part, in the endless Service to Humanity and Groups or Environments They belong. This can be a small group, or one to as large as a Nation, World, Solar System Universe, Galaxy, or Cosmos. The Love In Action is Proportionate to the Directives and Engagements One Gives their Pledges, Vows, and Covenants to. And Reciprocally, that which One will have Returned unto them, that which they Gave, 100-fold. And as that 100-fold is Given, so too, is it Returned again, in Successive Order.

Through the years men and women have attempted to glamorize Me, with the allure of distance in time and space, which always lends enchantment to the view. But I **'do not'** sell myself short as the Father's handiwork, and nor should you, but in common with Beloved Jesus and Others among the Great Masters of Our Brother and Sisterhoods, I Am Especially interested that each man and woman obtain their Rightful Place and the Proper Understanding of how he or she ought to exercise Authority in the Universe and in his or her own world and affairs.

Let everyone who begins this study and Work, do so with the Understanding that I have a Purpose in Speaking here and that that Purpose is to make each one of you Alchemists in the Truest Sense of the word. This means that you must become familiar at Inner Levels with the *all-chemistry* of God and how each Facet of Creation is brought into Manifestation in Matter, in your consciousness, and in your daily life. In order to do this properly, you will need to meditate and reread the lessons many times, calling to Me and to your own God Self, your 'I AM' Presence, for Illumination on any Point that is not immediately clear to you. When you have the Inner Degree of Alchemist of the Sacred Fire conferred upon you by your own Christ Self, you immediately become a Candidate for Admission to the Outer Courts of the Cosmic Councils of Light.

This factor alone is a Great Incentive for you to become proficient in Genuine Spiritual Alchemy. It has ever been a fallacy of human thought to deny the so-called Miracles in the Life of the Great Avatar Jesus. Nonetheless, He, as a Son of God, Revealed to all these Mighty Formulas which, if understood and practiced, would long ago have Transformed the Planet into a Paradise of Perfection. Enough, then, of human nonsense and human creation!

As I said when I was Shakespeare;

Off then with the old,

The decay, and the mouldering mustiness,

Of this shapeless mass:

On then with the eternal vastness
Of an unfettered Spirit,
A being of such Freedom
As moving seems apart
Even from Reality
And Projects the image of Eternal Hope,
Into the tiniest gem or dewdrop
Cupped within a blossom rare.

And so back to the Dissolution of the Moon. All that is required for the same Cosmic White Fire Light Substance that Jesus Magnetized to Himself to Create His Miracles, so too is that Intensity awaiting the Journey to the Earth from the Great Central Sun. This Influx of God Energy has been Finitely Planned for Eons of time, and Now all it requires is the Human Permissions to complete its Delivery. Fortunately, that Permission shall meet Cosmic Law with Impeccable timing. In Divine Order. So, what does this mean to humanity?

The year 2025 shall be one of the major shifts in consciousness of the whole of the planet, '*en masse*'. The Moon shall Miraculously be cleansed of all of its old human consciousness, which shall no longer be reflected back to humanity on Earth. This Intensity of Adamantine Particles will come in Three Waves, Each with their own Divine Purpose and Function. Likewise, all Asteroids and Kuiper Belt Objects will be flushed clean, free from any old consciousness that no longer serves humanity. The Earth on all Levels of Dimensions will also be Flushed and Healed where all negative influential energies will be returned to the Solar Sun for Repolarization, along with all remaining Interred of All Sentient life streams will have their Elementals and Devas also returned for Healing and Re-Spatialization after their Long Services that they have given to mankind over the Millions of Years that many have been incarcerated within. Many of the Internet Technology and Artificial Intelligence products and technologies shall be affected. Many of the Angelic Beings will also be given new Work and Directorships to raise their Consciousness to New Levels also.

What cannot be done, which if it were, would break God's Own Laws of free will! So, humanity will continue to have to deal with their own levels of consciousness, whether ego-personality or the continued evolution of their own beliefs being Transmuted to Greater Awareness and Knowledge. There will be some hard times for most of humanity, but this shall be as minimal as the New World Servers can come together to make the changes in the World as soon as possible, and as meaningful as can be attained coming from a place of Cosmic Law and the Rightful Application To a God Life. There are other aspects that most of

humanity will know nothing about, and for that, it must be that way. It is not a secret, just another facet of the Cleansing that is required at these times of Initiation and Transmutation.

I have asked for two other Discourses to be included in this Series, and so please read them with Great Inference to deeper of meaning and look out for what is not said but remains Present in the Unseen within the Language of Light they contain. In relationship with the Cosmic Review prepared Monthly By Our Sister Sue, it shall contain more relevant Information all would do well to digest, perhaps more than any other to date! The December New Moon is worth the time and Energy to remain focused upon without fail. Keep in mind always that Creation is an Emanation from the Divine, that has been incorporated, through various Holarchies, and Hierarchies of Intelligences, in their Endeavours to introduce ongoing Consciousness Creation and Soul Growth, according to the Will of the Divine Light of the Father and the Infinite Love of the Mother. And So, It Is.

I Am St. Germain at Your Service.
